Completion of A, B, and C is required: (Please be specific, but concise.)

A. 1. Specific action requested: (Example: To increase the number of credit hours for ABC 100 from 1 to 2.) To Drop the A.S. Program in Nutrition Care Management A. 2. Effective date: (Example: Fall 2001) Fall, 2005 A. 3. Effective date of suspended programs for currently enrolled students: (if applicable) Students enrolled as of Fall, 2005 will be allowed to complete the program.	
B. The justification for this action: The A. S. in Nutrition Care Management is a very low enrollment program. There are currently only 7 students enrolled in the program and there were only two graduates in 2003-04. In order for these two-year graduates to be eligible to take the National Exam to become a Dietetic Technician Registered (DTR), the program would have to be altered greatly to include a total of 450 clock hours of supervised work experience and then become accredited by the Commission on Accreditation of Dietetic Programs (CADE). The resources for operating this program are not available. Since we do not think that in the foreseeable future it will be possible to make these major changes in the program the faculty feel that it is unfair to the students to continue the program in its current status.	
C. The projected cost (or savings) of this proposal is as follows: Personnel Impact: None, as the program stands it is embedded within the BS in General Dietetics, which we are retaining Operating Expenses Impact: None--as the program stands it was embedded within the BS in General Dietetics, which we are retaining Equipment/Physical Facility Needs: None Library Resources: None
