

Welfare Committee Report  
for November 1, 2004 Senate Meeting

The Senate Welfare Committee met on October 21, 2004 in the Martin Room of the Administration Building. This meeting was an informational meeting for the Provost to inform the committee of how he intended to proceed with the dispersion of the Salary Equity money allotted for the 2004-05 fiscal year.

The Provost explained that he intended to use a formula to figure out the total amount of money necessary to bring all eligible faculty up to equity in a period of, hopefully, three or four years. This money would then be dispersed using the formula over the aforementioned time table. After this process is completed, then a new equity review would be implemented.
