

The Budget committee completed a preliminary questionnaire for the faculty last month. We were asked by the Senate Chairperson to allow this to be the topic of our For The Good of the Order in March so we delayed sending the questionnaire to faculty as a whole. We would like as much feedback from Senators as possible. The concept of changing class schedules can - at first - appear overwhelming. This is not just a suggestion to return to "Flip" Fridays. But we have been charged with investigating any possible changes that will help with balancing student load on classrooms and parking more evenly. Tuesdays and Thursdays are now overloaded. Any ideas that you may have that would reduce this load and even out the length of classes for MWF and TR classes will be appreciated.
