

## Report from the Committee on Committees

A survey was sent out to all faculty asking them to nominate themselves to any of nine University Committees for which the Faculty Senate provides nominees. Notices about the self-nomination process were also posted twice in *EKU Today*. A total of 67 faculty responded.

The committee used the information from the surveys to nominate at least 2 faculty for each open position. The nominations were passed on to the Chair of the Faculty Senate, who will forward them to the President for final selection.
