

What is the Link between Higher Student GPAs, Retention Rates, and Co-Curricular Learning Experiences?

Facilitators and participants will explore the components that create educational and institutional advantages for students engaged in residential learning communities. We will investigate the link between in and out of classroom learning experiences. Participants will have the opportunity to learn about ECU residential learning communities and their positive impact on student GPA and retention rates. Join us for an informative discussion and enjoy a Qdoba burrito bar.

Date: 02-12-08

Time: 11am - 1pm
