Completion of A, B, and C is required: (Please be specific, but concise.)

A. 1. Specific action requested: (Example: To increase the number of credit hours for ABC 100 from 1 to 2.)
 To change the major requirements for the Construction Management B.S. degree program by deleting FSE 361 – Principles of Occupational Safety and Health (3) and adding FSE 379 – Construction Safety (3). To change the supporting course requirements by deleting three upper division hours of selected Business electives and adding three (upper or lower division) hours of the same electives.

A. 2. Effective date: (Example: Fall 2001)
 Fall 2009

A. 3. Effective date of suspended programs for currently enrolled students: (if applicable)
 N/A

B. The justification for this action:

FSE 361 is broader (than necessary) in scope than FSE 379, which recently became even more desirable for the Construction Management program with the inclusion of a 30-Hour Construction OSHA Certification element for Fall 2009. This action will also tend to reduce the overload on FSE 361, which is required of all FSE majors, and make wider use of FSE 379, which is required of only one of the four FSE options. Accreditation requirements do not discriminate between upper and lower division courses. The upper division Business elective requirement was instituted at a time when the Business Minor was integrated into the curriculum, which is no longer the case.

C. The projected cost (or savings) of this proposal is as follows:

Personnel Impact:
 None

Operating Expenses Impact:
 None

Equipment/Physical Facility Needs:
 None

Library Resources:

None
