

Faculty Senate Welfare Committee Resolution

In light of the current economic situation, The Faculty Senate Welfare Committee recently voted on the following resolution.

On April 20, 2009, the Faculty Senate Welfare Committee voted unanimously to support President Whitlock's statement to "maintain and hopefully improve our benefits package" as long as no raise is made in the charges to benefits for faculty and staff. The Committee will support this stand in the University Benefits Committee meetings as they are held when figuring benefits for calendar year 2010.
