SSE 873

Program Development &
Evaluation of Safety
Interventions in
Educational Settings

Review best practices in school safety and methodological issues in determination of how those practices are "best." Discuss research design issues in evaluating best practices. Train students how to conduct program evaluation and research design in the school setting.

(3 Hours)

Safety and Facilities Management in Educational Settings

Department of Safety, Security, and Emergency Management (Home Department) & Department of Educational Leadership

Background

Eastern Kentucky University serves as the Kentucky Center for School Safety (KCSS) contract agency with the cooperation and support of the three partner agencies, the University of Kentucky, Murray State University and the Kentucky School Boards Association. Murray State University in cooperation with the Kentucky Center for School Safety began offering a twelve-hour School Safety Educator Endorsement beginning fall of 2004. The College of Justice and Safety and the College of Education at EKU look forward to offering students a fifteen-hour School Safety Endorsement.

Purpose

The *Safety and Facilities Management in Educational Settings Endorsement* is designed to prepare certified P-12 educators and school administrators to promote and maintain a positive, safe, and healthy school culture, climate and environment which is conducive to high academic achievement. School safety continues to be an issue of paramount importance.

For students to fulfill their academic potential in school, schools must be safe and secure places for all students, teachers, and staff members. For school climate to be conducive to high academic performance the educational leaders need to be prepared to handle any crisis which may arise.

The approval of the School Safety Endorsement is requested by committee members below. **Thanks to all committee members** for their continued efforts over the past year.
