However, information may be released by the institution to appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons. Records may also be furnished in compliance with a judicial order or pursuant to a subpoena or with the consent of the student.

Students may inspect and review all records pertaining to them within forty-five (45) days of making request for same, except for (1) records created or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting or assisting in a professional capacity in connection with treatment of the student (except that the student may have these records reviewed by a physician or appropriate professional designated by the student, ), (2) financial records of the student's parents, (3) confidential letters and recommendations put in the files prior to January 1, 1975, and (4) confidential recommendations relating to admission, applications for employment, or honors, if the student has waived his/her right to review such records. Where a particular record cannot be reviewed by a student without revealing confidential information relating to other students, the records custodian will inform the student, upon request, of the contents of the record pertaining to that student.

Parents who claim a student as a dependent may present their federal tax declaration, in lieu of having the student's written consent, to gain access to information concerning their children's grades.

**2. Disciplinary Records** Disciplinary records are defined as those records (maintained in any format) which relate exclusively to violations of University **General Regulations Governing Student Behavior** which have been adjudicated through the office of Student Rights and Responsibilities. Complaints to the Office of Student Rights and Responsibilities which have been dismissed or withdrawn by the University are not considered disciplinary records. A student disciplinary record includes and is limited to: 1) violation report, 2) student notification letter, 3) sanction sheet, 4) notice of hearing, 5) students right form, 6) roll call of hearing participants in any hearing, 7) documents presented as evidence during any hearing, 8) record of Student Disciplinary Council hearing; 9) appeal letter with accompanying documents; and 10) final disposition of appeal.

**3. Directory Information:** The University may release information without the student's consent where the information is classified as "directory information." The following categories of information have been designated by the University as directory information: name, address (excluding EKU residence hall room number), telephone listing (excluding cell phone), email address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, academic level (undergraduate or graduate), academic class (freshman, sophomore, junior, or senior), dates of attendance, enrollment status, degrees and awards received, student photo or likeness, and the most recent previous education institution attended by the student. **4. Notification of Rights Under FERPA for Postsecondary Institutions:** The Family Educational Rights and Privacy affords students certain rights with respect to their education records. All EKU students are informed of their FERPA rights each year during the fall term through an email notification sent to their official EKU email address. Each student's FERPA rights are:

- (1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- (2) The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision

---

and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue SW, Washington, DC 20202-4605.

**5. Procedures for Challenge:** A student who believes that any record maintained by the University pertaining directly to that student is inaccurate, misleading, or otherwise violative of the right of privacy of the student as provided by Title IV of Pub. L. 90-247, as amended, and Publ. L. 93-380 as amended by Senate Joint Resolution 40 (1974) may request a hearing before a panel of three persons appointed by the President of the University. The panel may direct that appropriate action be taken to correct, explain, or expunge the record(s) challenged.

Request for hearings should be addressed to the Office of University Counsel, Eastern Kentucky University, Coates Room 205, CPO 40A, 521 Lancaster Avenue, Richmond, Kentucky 40475-3102.

## Introduction

Eastern Kentucky University is a regional, coeducational, public institution of higher education offering general and liberal arts programs, pre-professional and professional training in education and various other fields at both the undergraduate and graduate levels. Located in Richmond, Madison County, Kentucky, Eastern Kentucky University has a distinguished record of more than a century of educational service to the Commonwealth.

Situated near the heart of the Bluegrass, Richmond is served by a network of major highways which makes Eastern Kentucky University easily accessible from all parts of Kentucky and surrounding states. Richmond is 26 miles southeast of Lexington, Kentucky. Interstate Highways 1-75 (north-south) and I-64 (east-west) make the metropolitan areas of Cincinnati, 112 miles to the north, and Louisville, 110 miles to the west, within convenient distance by automobile. Richmond is also served by U.S. Route 25 from south Eastern Kentucky and Kentucky Route 52 from the east and west. The Kentucky Turnpike and the Mountain, Hal Rogers, and Cumberland Parkways provide even greater accessibility by automobile since the city is located near the convergence of these arterial highways into the interstate system.

Richmond, the county seat of Madison County, is an expanding community of approximately 30,000 population.

In and around Richmond are many areas of historic and scenic interest. Boonesborough State Park, birthplace of Kentucky, is located 12 miles to the north. Many other historical places are within easy driving distance. Scenic and recreational areas surround this section of the state.

## History

The Kentucky General Assembly of 1906 enacted legislation establishing the Eastern Kentucky State Normal School. Governor J. C. Beckham signed the bill into law on March 21, 1906. On May 7 of that year, the Normal School Commission, meeting in Louisville, selected the campus of the old Central University, founded in 1874, in Richmond, Kentucky, as the site of the new school. On June 2, 1908, Ruric Nevel Roark was chosen President of the Normal School and the training of teachers was begun.

In 1922, Eastern Kentucky University became a four-year institution known as the Eastern Kentucky State Normal School and Teachers College. The first degrees were awarded by this institution in 1925. In 1928, the College was accredited by the Southern Association of Colleges and Secondary Schools. In 1930, the General Assembly renamed the school the Eastern Kentucky State Teachers College.

In 1935, a graduate program was approved at Eastern, leading to the Master of Arts degree in Education. In 1948, the General Assembly removed the word "Teachers" from the name of the college and granted the college the right to award nonprofessional degrees.

The most significant day since its founding came for Eastern on February 26, 1966, when Governor Edward T. Breathitt signed into law a bill renaming the institution Eastern Kentucky University (EKU) and sanctioning the awarding of graduate degrees in academic fields other than education.

During this period of time, Eastern Kentucky University has increased rapidly in size and stature. Beginning with a few students engaged in short review and certificate courses, the University today serves thousands of Kentuckians. The curriculum

leads to associate degrees, baccalaureate degrees, and an expanding graduate program that currently offers degrees at the master's level in many other fields as well as the already well-established Master of Arts degree in Education and the various fifth- and sixth-year leadership programs in education. Specialist degree programs have been implemented in education and psychology.

In 2008, EKU offered its first doctoral degree, the Doctor of Education (Ed.D.). Since that time, EKU also offers the Doctor of Nursing Practice (DNP) and the Occupational Therapy Doctorate (OTD).

Ever-mindful of the purpose of its founding, Eastern continues to recognize its historic function of preparing quality teachers for the elementary and secondary schools of the Commonwealth. However, a strong liberal arts curriculum leading to appropriate degrees, together with pre-professional courses in several areas and graduate programs, enable Eastern to serve the Commonwealth as a regional comprehensive university.

## Mission Statement

As a school of opportunity, Eastern Kentucky University fosters personal growth and prepares students to contribute to the success and vitality of their communities, the Commonwealth, and the world.

Eastern Kentucky University is committed to access, equal opportunity, dignity, respect, and inclusion for all people, as integral to a learning environment in which intellectual creativity and diversity thrives.

## Core Values

**Eastern Kentucky University's values shall permeate the mission and will be the fiber of the institution for it to achieve its vision.**

Since its inception in 1874, Eastern Kentucky University (then known as Central University) has been driven by core values. Although its mission has evolved and expanded to meet the changing needs of citizens of the Commonwealth (and increasingly other places in the world), core values are still an integral part of the University community. Values are the code of organizational conduct. They guide decision-making in all parts of the University. They direct our actions and must inspire all of us in the EKU community to be true to them. The EKU community is committed to embodying these values in our policies and procedures in our day-to-day activities to accomplish our mission and achieve our vision. EKU has been and will continue to be guided by the following values when planning strategies and implementing decisions regarding the University community's teaching, scholarly, and service activities.

**Intellectual Vitality**, which is characterized by knowledge, scholarly inquiry, creativity, critical thinking, and curiosity, all with a global perspective;

**Sense of Community**, which is characterized by a supportive environment with strong relationships and a commitment to service, shared governance, collaboration, and unity of purpose;

**Cultural Competency**, which is characterized by equitable opportunities and treatment, mutual respect, and the inclusion and

celebration of diverse peoples and ideas;

**Stewardship of Place**, by which the University enhances the intellectual capacity, economic vitality, environmental sustainability, and quality of life of the communities it serves;

**Accountability**, which is characterized by fiscal responsibility, operational transparency, and responsiveness to the needs of internal and external stakeholders; and

**Excellence**, which is achieved through integrity, continuous quality improvement, and a focused emphasis on the personal and professional growth of students, faculty, and staff.

## Vision

**Eastern Kentucky University will be a premier university dedicated to innovative student engagement and success, advancing Kentucky, and impacting the world.**

The vision expresses the principal ideal to which the University aspires and toward which it continually works. This vision statement for the University Strategic Plan was developed after gathering input from external and internal constituents, including top-down and bottom-up perspectives of EKU's future.

Continued enrollment is contingent upon adherence to their signed academic Student Success Agreement and meeting EKU Academic Standards Policy.

Students who wish to return to EKU but left with a GPA of less than a 1.5 must appeal for readmission through the Readmission Appeals Committee, in addition to submitting an application for readmission to the Office of Admissions. The form and instructions for an appeal for readmission can be found on the EKU Registrar's website (<http://www.registrar.eku.edu/Forms;AcademicStanding/ReadmitAppealsForm>).

If the student's appeal is approved he/she will be readmitted upon submitting an application for readmission. Both the application to the Office of Admissions, and the appeal to the Readmission Appeal Committee may be submitted simultaneously. The Readmission Appeal Committee may require an in-person interview during the appeal consideration process. If their appeal to return to EKU is approved these students will return on Academic Probation status. They will be assigned an academic coach in the Office of University Advising, and will develop an academic success plan with their coach before being allowed to register for classes. Continued enrollment is contingent upon adherence to their signed academic Student Success Agreement and meeting EKU Academic Standards Policy.

If a student has attended another institution since leaving EKU, and has been out of the University for longer than 24 months, his/her return to EKU will be considered under the readmission guidelines above instead of the student being considered a transfer student.

Students who have received a Developmental Dismissal must submit documentation (a transcript or official test scores) indicating that proficiency has been earned for any needed developmental coursework before they may be readmitted to the University.

See the "Stopping Out" procedure in Section Four for additional information.

### OTHER TYPES OF ADMISSION

#### 1. High School Specials

Students who have one unit less than the number required for high school graduation with superior grades (i.e., 3.0+ grade point average) may be admitted upon the written recommendation of the high school principal or guidance counselor.

#### 2. EKU Dual Credit

EKU's dual credit program is open to high school juniors and seniors, residing within Kentucky, who meet eligibility requirements, and whose school is partnering with EKU through a memorandum of agreement. Dual credit programs are designed to reduce degree cost and time to degree for Kentucky students. Academically strong high school students may qualify for reduced or free tuition. (See EKU Now! section below.)

Dual Credit students may enroll in a maximum of 2 courses per fall and spring semester of their junior and senior years in high school at the reduced dual credit tuition rate. They may also take advantage of the EKU "Summer 2" term, for a maximum of one course, at the reduced dual credit tuition rate, during the summer. A maximum of eight courses in total may be taken at the dual credit tuition rate.

Students may enroll at any EKU campus offering applicable courses. Courses may include general education courses or departmentally approved introductory courses for specific majors. Students may attend approved EKU courses on high school campuses via face-to-face, E-Presence, or online instruction. Students are required to meet all course pre-requisites.

EKU Dual Credit courses offered in the high school, are to be composed only of students enrolled for EKU Credit.

To qualify for EKU's Dual Credit Program, high school juniors or seniors must have a 3.0 high school GPA and have ACT/PLAN scores on file with EKU at the time of application. Students must have minimum ACT/PLAN subscores of 18 in English and 20 in Reading, with a minimum ACT/PLAN composite score of 20.

To apply for EKU Dual Credit, students must submit an online Dual Credit application, ACT scores and a high school transcript by the application deadline specified for each semester. A new application and supporting documentation must be submitted each academic year to continue. EKU waives the application fee for dual credit admission.

Dual Credit students will attend special advising sessions and register for courses during a specified period prior to the beginning of an academic semester. Advising and registration sessions will be available on each of EKU's participating campuses.

Continued participation in EKU's Dual Credit program is dependent upon successful completion of courses. Dual credit students are expected to maintain a 2.0 minimum cumulative EKU GPA. Students who earn a "D" or an "F" in a course(s) will be required to successfully repeat the course(s) and earn a 2.0 term GPA in order to continue in the dual credit program. Students who elect to repeat a course will contact the Office of the Registrar for registration approval and assistance. Students repeating courses will be charged full dual credit tuition.

**EKU Now!** is a scholarship program for dual credit students which provides the opportunity for qualifying juniors and seniors to earn free college credit. High school juniors and seniors with a 3.0 high school GPA, ACT/PLAN composite score of 21 and above, and ACT/PLAN scores of 18 in English, 19 in Math, and 20 in Reading are eligible to receive a dual credit scholarship for one course per semester. This scholarship will pay full dual credit tuition. EKU Now! participants who successfully maintain academic eligibility may earn scholarships for up to five free EKU courses and may include one summer course.

EKU Now! participants who maintain a minimum 3.5 unweighted high school GPA and a 23 ACT composite can earn an additional four dual credit scholarships, one per semester, tuition free. These students will be designated Whitlock Scholar Candidates. Additional information regarding Whitlock Scholars can be obtained by calling 859-622-6532.

All dual credit students are responsible for the cost of textbooks and parking permits when applicable. Students electing to use the Student Recreation Center may request that this fee be added to their accounts.

NOTE: KYOTE or COMPASS test scores, as well as EKU Placement Test scores, PARCC and Smarter Balanced scores, may be substituted for ACT sub-scores. EKU Dual Credit scholarships will be applied after any KY Dual Credit Scholarships offered through KHEAA.

Additional information on COMPASS or KYOTE college readiness scores, is available from EKU Academic Testing 859-622-1281, or visit <http://www.developmentaleducation.eku.edu/program-description>.

SAT conversion scores will be determined by EKU's Department of Academic Testing.

Exceptions to the junior/senior status will be taken into consideration when a student meets one of the dual credit scholarship levels. Exceptions must be approved in writing by the high school principal. A student's academic and social maturity should be considered for the success of the student. The request will be routed through the Office of the Senior Vice President for Academics and Provost for final approval. These students may enroll in one course per semester prior to their junior and senior years in high school.

Exceptions to the high school GPA requirement for juniors and seniors will be taken into consideration upon the written recommendation of the high school principal. The request will be routed through the Office of the Senior Vice President for Academics and Provost for final approval. High schools may have a maximum of 2% of their EKU Dual Credit enrollment (or two students, whichever is higher) participating under the high school GPA exception.

### 3. Visiting Students

If you are a student at another institution and wish to enroll at Eastern Kentucky University as a visiting, or "transient," student, you may be admitted by submitting an official transcript or a statement indicating that you are eligible to return to your institution.

Upon submission of an application, you may be admitted as a non-degree student. If so admitted,

- (1) Your eligibility for enrollment in specific courses will be dependent upon meeting the stated course prerequisites.
- (2) You must meet with an academic advisor to be advised and receive a RAC number;
- (3) You will **not** be eligible to receive financial assistance awards.

If you subsequently decide to pursue a degree, you must reapply for admission as a degree seeker. If you are thus admitted,

- (1) You will be required to remediate all pre-college curriculum deficiencies and to satisfy all Eastern Kentucky University developmental requirements.

**5. O'Donnell Scholarship Recipients**

If you are at least 65 years of age, you may be admitted to Eastern Kentucky University with a waiver of tuition. You need submit only an application for admission.

Students who meet our criteria will be granted an admissions status as established by the current admissions policy: Full Admit, Provisional Admit, Probationary Admit, or Special Admit.

Home-schooled students are subject to the secondary education standards established by the Kentucky Department of Education and the Kentucky Council on Post Secondary Education. This includes meeting the curriculum guidelines of the State approved Pre-College Curriculum.

In order to gain admission to Eastern Kentucky University, in addition to the application and application fee, these students must submit a notarized copy of their official transcript demonstrating they have met the PCC curriculum and have a minimum accumulative GPA of 2.0 on a 4.0 scale. They must also submit an official ACT score report.

**7. International Baccalaureate**

Students who complete the International Baccalaureate Diploma may present their official exam results for demonstration of completion of secondary education. Based on the exam scores received, students will qualify for advanced academic placement (See Section Four General Academic Information or [www.testing.eku.edu](http://www.testing.eku.edu)).

## KENTUCKY PRE-COLLEGE CURRICULUM

The Kentucky Pre-College Curriculum (PCC) is defined by the Kentucky Council on Postsecondary Education (CPE) as a prescribed set of high school courses required for admission to an associate or baccalaureate degree program at a Kentucky public university. Students under 21 years of age must complete the PCC if they are admitted to the University as a degree seeking student or transfer in with less than 24 credit hours or transfer in with a GPA less than 2.0 on a 4.0 scale. The Pre-College Curriculum better prepares students for college-level work and reflects high school graduation requirements. Students admitted to the University with PCC deficiencies must complete courses to remediate these deficiencies. Pre-College Curriculum deficiencies must be remediated within the first 24 hours of enrollment, excluding developmental hours. Specific courses are designated to remediate PCC deficiencies in each content area.

PCC requirements, established by the state, are four credits of English/Language Arts, three credits of Mathematics, three credits of Social Studies, three credits of Science, one-half credit of health, one-half credit of physical education, one credit of History and Appreciation of Visual, Performing Arts, and two credits or demonstrated competency of a World Language.

Students with a pre-college curriculum deficiency in World Languages are required to complete six credit hours of an approved

World Language within 24 hours of enrollment. All six credit hours must be earned in the same World Language. Students with PCC deficiencies in other subject areas (English, Mathematics, Social Studies, Science) will remediate those needs by following the ECU General Education curriculum.

If you have any questions concerning Kentucky Pre-College Curriculum requirements, please contact the Office of Academic Advising, the Office of Admissions, or the Office of Academic Readiness.

Any veteran of the Armed Forces of the United States or National Guard who is eligible for Post-9/11 GI Bill® benefits who enrolls as a student in the university as a non-Kentucky resident will be charged no more than the maximum tuition reimbursement provided under the Post-9/11 GI Bill® to public universities for eligible Kentucky residents. Veterans must submit a DD-214 or VA Certificate (Letter) of Eligibility for Post 9-11 (Chapter 33) GI Bill® benefits through the Office of Military and Veterans Affairs to the Office of Admissions to validate their eligibility for this provision.

status by an institution based upon a changed circumstance; or  
 (c) A formal hearing conducted by an institution upon request of a student after other administrative procedures have been completed.

- The facts in existence when the credentials established by an institution for admission for a specific academic term have been received and during the period of review by the institution;
  - Information derived from admissions materials;
  - If applicable, other materials required by an institution and consistent with this administrative regulation;

#### Section 5. Determination of Whether a Student is Dependent or Independent.

- (1) In a determination of residency status, an institution shall first determine whether a student is dependent or independent. This provision shall be predicated on the assumption that a dependent person lacks the financial ability to live independently of the person upon whom the student is dependent, and therefore, lacks the ability to form the requisite intent to establish domicile. A determination that a student is independent shall be one (1) step in the overall determination of whether a student is or is not a resident of Kentucky.
- (2) In determining the dependent or independent status of a person, the following information shall be considered, as well as other relevant information available when the determination is made:
- Whether the person has been claimed as a dependent on the federal or state tax returns of a parent or other person for the year preceding the date of application for a determination of residency status; or
  - Whether the person is no longer claimed by a parent or other person as a dependent or as an exemption for federal and state tax purposes; and

- (3) An individual who enrolls at an institution immediately following graduation from high school and remains enrolled shall be presumed to be a dependent person unless the contrary is evident from the information submitted.
- (4) Domicile may be inferred from the student's permanent address, parent's mailing address, or location of high school of graduation.
- (5) Marriage to an independent person domiciled in and who is a resident of Kentucky shall be a factor considered by an institution in determining whether a student is dependent or independent.
- (6) Financial assistance from, or a loan made by, a parent or family member other than an independent spouse, if used for sustenance of the student:
- Shall not be considered in establishing a student as independent; and
  - Shall be a factor in establishing that a student is dependent.

**Section 6. Effect of a Determination of Dependent Status on a Determination of Residency Status.**

- (1) The effect of a determination that a person is dependent shall be:
- (a) The domicile and residency of a dependent person shall be the same as either parent. The domicile and residency of the parent shall be determined in the same manner as the domicile and residency of an independent person; and
  - (b) The domicile and residency of a dependent person whose parents are divorced, separated, or otherwise living apart shall be Kentucky if either parent is domiciled in and is a resident of Kentucky regardless of which parent has legal custody or is entitled to claim that person as a dependent pursuant to federal or Kentucky income tax provisions.
- (2) If the parent or parents of a dependent person are Kentucky residents and are domiciled in Kentucky, but subsequently move from the state:

- (3) Membership in the National Guard or civilian employment at a military base alone shall not qualify a person for Kentucky residency status under the provisions of subsections (1) and (2) of this section. If a member of the Kentucky National Guard is on active duty status for a period of not less than thirty (30) days, the member shall be considered a Kentucky resident, as shall the spouse or a dependent child of the member.
- (4) A person eligible for benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, 38 U.S.C. 3301-3325, or any other educational benefits provided under Title 38 of the United States Code shall be entitled to Kentucky resident status for purposes of tuition charged at state-

- (b) A dependent person holding a visa as described in paragraph (a) of this subsection, but who is a dependent of a parent holding a visa as described in subsection (2) of this section, shall be considered as holding the visa of the parent.
- (c) A dependent person holding a visa described in subsection (2) of this section or paragraph (a) of this subsection, if a parent is a citizen of the United States and is a resident of and domiciled in Kentucky, shall be a resident of Kentucky for the purposes of this administrative regulation.
- (4) A person shall be a Kentucky resident for the purpose of this administrative regulation if the person graduated from a Kentucky high school and:

  - (c) Registration as a Kentucky voter;
  - (d) Long-term lease of at least twelve (12) consecutive months

## **RESIDENCY APPEALS POLICY AND PROCEDURES**

### **1. BASIS FOR RESIDENCY CLASSIFICATION**

The Commonwealth of Kentucky has established a process and corresponding criteria for the determination of residency classification for students seeking admission to, or enrolled in, public institutions of higher education. The Council on Postsecondary Education (hereinafter referred to as "CPE") has established Kentucky Administrative Regulation 13 KAR 2:045 (hereinafter referred to as "the Regulation") to be followed by all public institutions of higher education in the Commonwealth concerning residency classification. This Regulation can be found in the current Undergraduate Catalog and the current Graduate Catalog and copies are available upon request from the Office of Admissions, located in the Whitlock Building, Room 112 or by calling (859) 622-21-6 or 1-800-465-9191.

### **2. INSTITUTIONAL ADMINISTRATION OF THE RESIDENCY POLICY**

The Council on Postsecondary Education authorizes each institution to establish a procedure for the determination of residency classification based upon the Regulation.

#### **2.1 Office of Admissions**

The Office of Admissions, Whitlock Building, Room 112, CPO 54, 521 Lancaster Avenue, Richmond, KY 40475-3154, at Eastern Kentucky University serves as the coordinating office for institutional implementation of the Regulation. Instructions for filing applications for reclassification and copies of the Regulation are available in this office. Also, Admissions staff members are available to answer questions regarding policy and procedures.

#### **2.2 Initial Classification**

The initial determination of residency status is made by the University based upon the credentials submitted by an applicant for admission to the University in accordance with the Regulations.

#### **2.3 Appeal of Residency Status**

Once an initial classification of residency is made by the Office of Admissions, it is the student's responsibility to initiate an appeal of such classification. Request for reclassification must be filed with the Office of Admissions **NO LATER THAN THIRTY (30) CALENDAR DAYS** after the first full day of classes of the fall or spring academic term for which reclassification is sought or not later than ten (10) calendar days after the first day of class for the summer term. Requests for reclassification are to be made in affidavit form on the form available from the Office of Admissions. A student may apply only once during an academic term. A student classified as a non-resident will retain that status until a change is brought about by successful appeal. If an appeal results in a change of classification, the change will not be effective earlier than the semester during which the appeal is filed. If a student is initially classified non-resident but does not enroll the semester for which the student originally applied, the residency classification will be reassessed for subsequent semesters.

#### **2.4 Affidavit (Application for Reclassification)**

Affidavits will not be accepted unless the form is fully completed, properly signed and notarized. In no case will a decision be granted without an affidavit and all required supporting documentation.

### **2.5 Documentation**

Because of the variety of factors related to establishing residency for tuition purposes, the number of documents required to complete an appeal may vary from case to case. In all cases, the University may require certification of authenticity of documents. It is the appealing student's responsibility to provide sufficient documentation to clarify circumstances related to the appeal. In all cases, circumstances related to establishing domicile must be verifiable.

### **2.6 Review of the Residency File by the Residency Appeals Officer**

A Residency Appeals Officer designated by the University shall review the affidavit and documentation and notify the student, in writing, within fourteen (14) days of making a determination. Students who do not agree with the Residency Appeals Officer's determination may appeal his/her residency status to the University's Residency Review Committee within fourteen (14) days of the Residency Appeals Officer's determination.

## **3. UNIVERSITY RESIDENCY REVIEW COMMITTEE**

Pursuant to the Regulation, Eastern Kentucky University has a Residency Review Committee (hereinafter referred to as the "Committee") to review and evaluate student affidavits for reclassification and to consider changes in the residency classification.

### **3.1 Timely Appeal**

The Student must notify the Residency Appeals Officer in writing, if he or she wishes his/her case to be reviewed by the Committee, within fourteen (14) calendar days after notification of the Residency Appeals Officer's determination. The Residency Appeals Officer shall immediately forward the request and the student's residency file to the Chair of the Committee.

### **3.2 Committee Membership**

The Residency Review Committee shall be comprised of three members: the Associate Vice President for Enrollment Management; a member of the Faculty-at-Large, who shall be appointed annually by the Faculty Senate; and a member of the student body, who shall be appointed by the Office of the Vice President for Student Affairs from a list of students recommended by the Student Association.

### **3.3 Determination of the Committee**

The Committee shall issue a written decision citing the section of the Regulation on which the decision is based. The Committee may vote to defer a case for additional documentation, or the Committee may make a decision contingent upon conditions prescribed by the Committee. The Chair of the Committee will then determine when and whether contingencies are met.

### **3.4 Notification of Decision**

The Committee shall make a determination of student residency status and notify the student, in writing, within forty-five (45) days after receipt of the student appeal. Decisions denying appeals are communicated to the student by certified mail, return receipt requested. In all cases where the Committee reaches a

determination granting in-state residency status, copies of the letter of notification will be sent to the Office of Admissions, Student Accounting Services, the Registrar's Office, and Student Financial Assistance.

## **4. REQUEST FOR FORMAL HEARING**

Pursuant to the Regulation, the University shall provide a formal hearing in the event a student wishes to appeal the determination of the Residency Review Committee.

### **4.1 Timely Request**

A student who wishes to appeal the determination of the Committee shall be granted a formal hearing by the University if the student notifies the Office of the Associate Vice President for Enrollment Management, Whitlock Building, Room 340, CPO 63, Richmond, KY 40475-3163, in writing, within fourteen (14) calendar days after notification of the Residency Review Committee's determination. The Assistant Vice President for Enrollment Management shall immediately forward the request and the student's residency file to the Office of the President.

### **4.2 The Hearing Officer**

Upon receipt of a request for a formal hearing, the University President shall appoint a Hearing Officer to conduct the hearing. The Hearing Officer shall not be a person involved in determinations of residency at a public institution of higher education in Kentucky (including the Kentucky Commonwealth Virtual University) and shall not be an employee of the same organizational unit as the Residency Appeals Officer.

### **4.3 Formal Hearing Procedures**

The hearing shall be conducted in accordance with the following procedures:

#### **4.3.1. Notice of Hearing**

- 4.3.1.a.** The University shall conduct the hearing as soon as practicable and shall give notice of the hearing to the parties not less than twenty (20) days in advance of the date set for the hearing. A reasonable effort shall be made to schedule the hearing on a date that is convenient to all parties involved.
- 4.3.1.b.** The hearing notice shall be served on all parties by certified mail, return receipt requested, to the last known addresses of the parties, or by personal service.
- 4.3.1.c.** The notice shall be in plain language and shall include:
  - the date, time and place of the hearing;
  - the name, official title, and mailing addresses of the Hearing Officer;
  - the names, official titles, mailing addresses, and, if available, telephone numbers of all parties involved in the hearing, including the counsel or representative of the University; and
  - a statement advising the student of his/her right to legal counsel.

#### **4.3.2. Hearing Procedure**

- 4.3.2.a.** The Hearing Officer shall conduct the hearing and all related proceedings in a manner which will promote the orderly and prompt conduct

- of the hearing.
- 4.3.2.b.** To the extent necessary for the full disclosure of all relevant facts and issues, the Hearing Officer shall give all parties the opportunity to respond, present evidence and argument, conduct cross-examination, and submit rebuttal evidence.
- 4.3.2.c.** Any party to the hearing may participate in person or be represented by counsel. A student shall pay for the cost of all legal representation in support of the student's claim or residency. Legal counsel for the student must file a notice of appearance with the Hearing Officer prior to the date of the hearing.
- 4.3.2.d.** The Hearing Officer may conduct all or part of the hearing by telephone, television, or other electronic means, if each party to the hearing has an opportunity to hear, and if technically feasible, to see the entire proceeding as it occurs, and if each party agrees.
- 4.3.2.e.** The hearing shall be open to the public unless specifically closed pursuant to a provision of law. If the hearing is conducted by telephone, television, or other electronic means, and is not closed, public access shall be satisfied by giving the public an opportunity, at reasonable times, to hear or inspect the University's records.

**4.4 Findings of Fact; Evidence; Recording of Hearing; Burden of Proof**

- 4.4.1.** Findings of fact shall be based exclusively on the evidence on the record.
- 4.4.2.** All testimony shall be made under oath or affirmation.
- 4.4.3.** Objections to evidence presented may be made by any party and shall be noted in the record.
- 4.4.4.** The University shall be responsible for having all testimony, motions and objections in a hearing accurately and completely recorded. Any person, upon request, may receive a copy of the recording or a copy of the transcript, if the hearing has been transcribed, at the discretion of the University, unless the hearing is closed by law. The University may prepare a transcript of a hearing or a portion of a hearing upon request but the party making the request shall be responsible for the transcription costs. The form of all requests and fees charged shall be consistent with KRS 61.870 to 61.884.
- 4.4.5.** Unless otherwise provided by state or federal law, the student appealing the residency decision has the burden of proving the student's right to having his/her residency status changed. The student has the ultimate burden of proof of persuasion as to this issue to be shown by a preponderance of evidence in the record. Failure to meet the burden of proof is grounds for a recommended order from the Hearing Officer.

**4.5 Prohibited Communications**

- 4.5.1.** The Hearing Officer shall not communicate off the record with any party to the hearing or any other person who has a direct or indirect interest in the outcome of the hearing, concerning any substantive issue, while the hearing is pending.

**4.6. Recommended Order**

- 4.6.1.** The Hearing Officer shall complete and submit to the University President, no later than sixty (60) days following receipt of the student's residency file, a written recommended order which shall include the Hearing Officer's findings of fact, conclusion of law, and recommended disposition of the hearing.
- 4.6.2.** A copy of the Hearing Officer's recommended order shall also be sent to each party in the hearing. Each party shall have fifteen (15) days from the date the recommended order is mailed within which to file exceptions to the recommendations with the University President. The recommended order may be sent by regular mail to the last known address of the party.

**4.7. Final Order**

- 4.7.1.** In making the final order, the University President shall consider the record including the recommended order and any exceptions filed by, or on behalf of, the student.
- 4.7.2.** The University President may accept the recommended order of the Hearing Officer and adopt it as the University's final order, or he or she may reject or modify, in whole or in part, the recommended order, or he or she may send the matter, in whole or in part, back to the Hearing Officer for further proceedings as appropriate.
- 4.7.3.** The final order shall be in writing. If the final order differs from the recommended order, it shall include separate statements of findings of fact and conclusions of law.
- 4.7.4.** The University President shall render a final order within thirty (30) days after receipt of the recommended order unless the matter is sent back to the Hearing Officer for further proceedings.
- 4.7.5.** A copy of the final order shall be transmitted to each party or to his/her attorney of record by certified mail, return receipt requested, sent to the last known address of the parties, or by personal service. A copy of the final order shall also be sent to the Office of Admissions, Student Accounting Services, the Registrar's Office, and Student Financial Assistance.

**5. RECORDS**

All official files and materials relating to a student's appeal of an initial residency determination shall be returned to the Office of Admissions to be placed with the application for admissions at whatever point in the process the appeals procedure is terminated.

### FINANCIAL OBLIGATIONS OF THE STUDENT

Any student or former student who is indebted to the University and who fails to make satisfactory settlement within a time limit prescribed is liable for administrative action. Students who are indebted to the University may not register at the University nor will their transcript or diploma be released until the debt is paid. Any student indebted to the University who cannot meet his or her financial obligations within the time limit prescribed is responsible for calling on the division of Student Accounting Services and explaining the reasons for failure to pay. Students who fail to pay their account balance in a timely manner may also be liable for additional collection costs incurred by the University in collecting the amount owed.

### REFUND POLICY

No refund can be made on certain class fees and optional fees as established by the Eastern Kentucky University Board of Regents. Students wishing to withdraw from courses must do so online via EKUDirect (on the ECU home page at [www.eku.edu](http://www.eku.edu)). When a student officially withdraws from the University or from any course or courses for which hourly rates apply, tuition and fees will be adjusted in the following manner:

<u>Time Period*</u>	<u>Refund</u>
During add/drop period for any class (for full semester classes = 1st week)	100%
From end of 1st week through end of 2nd week of class	75%
From end of 2nd week through end of 3rd week of class	50%
From end of 3rd week through end of 4th week of class	25%
After the 4th week of class	0%

\*Partial semester courses vary in length and the percentage of refunds and the effective dates will be modified accordingly. This policy applies to refundable fees only; non-refundable fees are not included. In no case shall a refund of rent be made to a person who remains a student but moves from University housing at his or her convenience.

### FINANCIAL APPEALS

An appeals process exists for students who feel that individual circumstances warrant exceptions from published policy. Financial appeals may be submitted if a student had an unforeseeable and unavoidable situation during the semester the charges were incurred that prevented them from attending classes and completing the semester. All appeal letters should be submitted by the student in writing clearly stating the reason for the appeal.

Documentation should be attached to all appeal letters to validate the situation. Circumstances that do not qualify for financial appeal include pre-existing conditions, routine pregnancy, employment opportunities and financial hardship, including denial of financial aid. In most cases, any refund that is the result of an approved appeal will be returned to the source of the payment, the student, the financial aid lender, or a third party entity. Financial appeals should be submitted to the Financial Appeals Committee, Whitlock Building CPO 60, 521 Lancaster Avenue, Richmond, KY 40475.

Refunds for reduction in course load for part-time students will be at the same percentage rate as for students who officially withdraw from the University; however, if the reduction in course load results from the cancellation of a class or from the student having been permitted to enroll for a class for which he or she was not eligible, a full refund will be made of the registration fee for the course being dropped.

The Eastern Progress Advisory Board has been established to provide professional involvement in the activities of the Eastern Progress, the University's student newspaper. ## STUDENT LOANS

The **Federal Perkins Loan** is a 5 percent simple interest loan awarded to exceptionally needy students. This loan is made to undergraduates, as well as post-baccalaureate and graduate students. Repayment begins nine months after the student ceases to be enrolled on at least a half time basis. There are certain occupations which allow a student to cancel a percentage of the money they borrow from this program. Contact the Loan Accounts Office in the Whitlock Building, Room 216, for more information regarding the cancellation and deferment options. All first time Federal Perkins Loan borrowers must be enrolled for thirty (30) days before their first Perkins disbursement can be released.

The **Federal Direct Subsidized Loan Program** is a need based program available to students who are enrolled at least half time. This loan is for undergraduate, and post-baccalaureate students. The interest rate is fixed and is not to exceed 8.25%. Contact the Office of Student Financial Assistance after July 1 for the current year interest rate.

The Federal Government pays the interest while the student is enrolled at least half time. A student has six months after ceasing to be enrolled as a half time student before repayment begins.

All first time Federal Direct Loan borrowers (subsidized as well as unsubsidized) must complete entrance counseling before their loan can be processed. Counseling can be completed at [www.studentloans.gov](http://www.studentloans.gov).

The **Federal Direct Unsubsidized Loan Program** is not

based on need. It has a different interest rate as the Federal Direct Subsidized Loan Program, and the student is responsible for paying the interest on this loan. The unsubsidized and the subsidized loan cannot exceed the maximum amount allowable by a student's classification. For example:

First Year Students - \$5,500 is the annual loan limit. No more than \$3,500 of this amount may be in subsidized loans. All first time Federal Direct Loan borrowers must be enrolled for thirty (30) days before the first disbursement can be released.

Second Year Students - \$6,500 is the annual loan limit a student can borrow. No more than \$4,500 of this amount may be in subsidized loans.

\*NOTE: This is the maximum amount (\$6,500) that a student working on an Associate Degree is eligible to receive.

Third and Fourth Year Students - \$7,500 is the annual loan limit. No more than \$5,500 of this amount may be in subsidized loans.

Graduate Students - \$20,500 is the annual loan limit. No more than \$8,500 of this amount can be in subsidized loans.

Independent students may be eligible for an **additional unsubsidized funds**. An independent student could borrow up to an additional:

- Freshman/sophomore - \$4,000
- Junior/senior - \$5,000

Keep in mind that the unsubsidized and subsidized Direct Loans combined cannot exceed the student's cost of education minus all other student financial assistance.

**\*Each annual loan limit is for one award year (12 month period; i.e., fall, spring, and summer).**

To apply for a Federal Direct Subsidized or Unsubsidized Loan, all students must complete a Free Application for Federal Student Aid. After the student is evaluated for all federal programs, his/her eligibility for the Direct Loan program is determined. The Office of Student Financial Assistance will certify the loan and electronically submit the information to the U.S. Department of Education (DOE). If the student has a signed Master Promissory Note (MPN) on file at DOE, the loan funds will be sent to Eastern Kentucky University on the specified disbursement dates. If the student does not have a signed MPN on file at DOE, a MPN must be signed electronically at [www.studentloans.gov](http://www.studentloans.gov).

Post-Baccalaureate Students—Students returning to work on a second undergraduate degree are not automatically eligible for the senior annual loan limit of \$7,500. Each student must submit documentation which indicates how many hours that student has toward the second degree.

The **Federal Direct Plus Loan** program enables parents to borrow the cost of education minus other aid for their student who is enrolled for at least 6 hours. This is not a need based loan. As long as the parent who is applying for the loan is credit worthy, the loan is usually approved. The interest rate is fixed and not to exceed 9%. Interest begins to accrue 60 days after the loan is fully disbursed. The parent must complete the PLUS application process at [www.studentloans.gov](http://www.studentloans.gov) each year. If the parent has a signed Master Promissory Note (MPN) on file at DOE, the loan funds will be sent to EKU on the specified disbursement dates. If the parent does not have a signed MPN on file at DOE, an MPN must be signed electronically at [www.studentloans.gov](http://www.studentloans.gov).

The **Student Aid Society** (Emergency Loan) program is designed to provide emergency short-term loans to students. It must be repaid. Students may borrow a small amount of money on a personal note at a legal rate of interest for a one month period. Money is made available through contributions of the University, alumni, private organizations and many individual friends of the

University.

You must be enrolled as a full-time student, have a 2.0 (“C”) overall grade point average, a means of repayment, and must not have a past due balance. All students are eligible to apply for these short-term loans regardless if they are receiving other forms of financial aid. An application form obtained from the Loan Accounts Office in the Whitlock Building, Room 210 must be completed.

The loan must usually be repaid within four weeks, and the student is charged an interest rate of 2 percent. Students who have delinquent loans will have their grades sealed in the Registrar and will not be allowed to register for the next semester. Delinquent loans will be collected through a collection agency. Any additional expenses incurred in the collection of the note will be added to the student’s repayment.

### STUDENT EMPLOYMENT

Eastern Kentucky University offers its students two employment programs. One is the federal work study program which provides part-time jobs to students who have financial need as determined by the Application for Federal Student Aid. This program is federally funded. The other is the ECU institutional work program. Eastern Kentucky University provides funds to employ students who want to work on-campus, but do not qualify for the federal work study.

Both of these programs employ students on a part-time basis, and students are paid every two weeks for the hours they have worked. Their job schedule is built around their class schedule. A variety of jobs are available including typing, filing, farm work, food service, resident hall assistants, tutorial work, as well as community service jobs. The mission of the Office of First Year Programs is to aid in the transition to college for first year students and their family members by providing useful and timely information in a professional manner. The Office of First Year Programs is committed to encouraging first year students to grow socially and academically and to respect themselves and all others in the Eastern Kentucky University community. First Year Programs is committed to delivering orientation services and transition programming to all new students and their families.

### Orientation

Orientation is phase one of the first year experience for new students. During Orientation, students and families visit campus, meet with faculty, staff, and students, and learn more about life at Eastern Kentucky University. Students also register for their first semester of classes. Representatives from many areas are available during Orientation to answer questions about financial aid, tuition payment, housing, dining services, and tutoring services. There are various dates and schedules for first year, transfer and high achiever students.

### Colonel Camp

Colonel Camp was established in 2007 to allow new students to get a jump start on college life at ECU. Colonel Camp serves as a bridge between Orientation and New Student Days and aims to connect new students to campus, current student leaders, and their peers. The camp occurs before Move-In Day in August and provides the participants with the opportunity to serve other new students as volunteers during Move-in.

### New Student Days

The New Student Days (NSD) program is phase two of the first year experience at Eastern Kentucky University. New Student Days programming kicks off on the Sunday before classes start and continues throughout the first weeks of classes. NSD is a required program for all new students and is incorporated into the curriculum of the student success seminars.

The purpose of this program is to enable students to meet other new students and participate in a wide variety of campus activities. The President’s Picnic, educational sessions, and social events are just some of the highlights. All new students are required to attend.

### Family Programs

The Eastern Family Network began in the summer of 2000 to get parents and other family members involved in Eastern Kentucky University. By informing family members about campus happenings, we hope they will be supportive and engaged in the educational process with their student. First Year Programs also facilitates planning Family Weekend, a spring Family Network event, a Family guide, a monthly newsletter and a Family resource page on the First Year Programs website.

The Office of Military and Veterans Affairs serves student veterans by assisting with admissions, obtaining VA benefits and credit for military training, and serving as an advocate for veterans’ issues throughout the campus community.

To utilize VA education benefits and to obtain a Certificate of Eligibility, student veterans or eligible dependents will need to apply directly to the Veterans Administration online at [www.gibill.va.gov](http://www.gibill.va.gov). Upon receipt of the certificate, please bring, mail, or fax (859-622-5076) a copy to the Veteran Affairs office on the main campus at 317 Lancaster Avenue. Additionally, a Course Enrollment Form must be submitted online each semester for

which benefits will be used, at [www.va.eku.edu/course](http://www.va.eku.edu/course).

The Post 9-11 GI Bill® will pay 100% of tuition and fee costs for undergraduate, graduate, and online instruction provided the service member has 36 months of active federal service. Veterans with less than 36 months of service will receive a prorated amount based on number of months served on active duty beyond initial training. Basic Allowance for Housing (BAH) is based upon E-5 with dependents for the 40475 zip code and is also prorated. Online-only Post 9-11 student veterans will draw BAH at one half of the national BAH average. **VA Regulations for Aviation Courses**

Any student using GI Bill® benefits and enrolling in an aviation course must be registered before the start date of each course. This restriction includes flight labs as well as lecture courses. Adding an aviation course after the start date will result in course tuition and fees not being fully funded by the VA and can create a debt for the student.

Students using GI Bill® benefits to fund an aviation course must complete each course and/or flight lab within one year of initial registration; failure to do so will result in the student being assigned a grade of NC (No Credit). Students using GI Bill® benefits must repay to the VA the cost (including a portion of stipends for living expenses) related to any course in which a grade of NC is earned.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <http://www.benefits.va.gov/gibill>

service opportunities throughout the year that ECU students, faculty, and staff can participate in both on and off campus. Whether it's to fulfill a class requirement or just to get involved, students looking for volunteer opportunities can visit to get connected with local volunteer opportunities that meet their individual needs and fit their busy schedules.

There are five main ways you can engage with the Community Service program at ECU:

- **Volunteer with Saturdays for Service:** Since 2004, ECU students been partnering with local entities for service opportunities. Each event is a one time commitment, working with a different community partners, either in Richmond or nearby in our service region. Saturdays for Service occur on the first Saturday of each month. Transportation is provided.
- **Commit to a Community Partner:** Our office has a variety of community partners within driving distance of campus. By signing up through OrgSync a student can commit to volunteering one time or regularly, by themselves or with a group of friends. This is a great way to fulfill volunteer requirements for class, connect with the community, learn about yourself, or gain experience for after college. Opportunities vary and are continuous, so a time can be found that works with each person's schedule. You can learn about these many opportunities through our Part Time Job & Volunteer Fair hosted during Welcome Week.
- **Immerse and Serve on an Alternative Break:** Alternative break trips are offered year round (fall, winter, spring, summer, and even weekends). Each trip has a focus on a particular social issue, such as (but not limited to) disaster relief, poverty, education reform, hunger, and environmental stewardship. Students learn about the social issues and then perform week-long projects with local non-profit organizations.
- **Join in on a Day of Service:** Day of service events include onetime events throughout the academic year. Major Days of Service include 9/11 Day of Service and Remembrance & Martin Luther King Jr. Day. Throughout the year these days of service include both on and off campus on time opportunities to serve and support our community.

Students interested in taking a more action in service have the opportunity to take up student leadership positions including joining some of our service-focused RSOs and the Service Council. For more information visit: [www.communityservice.eku.edu](http://www.communityservice.eku.edu) or [www.facebook.com/EKUcommunityservice](http://www.facebook.com/EKUcommunityservice).

**Fraternity & Sorority Life**

Eastern Kentucky University is home to a vibrant fraternity and sorority community comprised of three governing councils: Interfraternity Council, National Pan-Hellenic Council (NPHC), and Panhellenic Council.

Our over 25 chapters are values-based organizations focusing on scholarship, service, leadership, and life.

- **Scholarship** – Each chapter has scholastic standards members are required to meet. Additionally, chapters implement academic success plans including study hours, incentives, and much more. As a result, members of the fraternity and sorority community consistently boast a collective grade point average above their non-affiliated counterparts. In Spring 2014, they earned a 3.0412!
- **Service** – Greeks regularly dedicate their time, talent, and treasure to bettering the world in which we live. This is accomplished through philanthropy and community service efforts.

Each chapter holds a minimum of one signature philanthropy event each year to raise money for their selected cause. Additionally, members complete countless hours of community service both together as a chapter and individually.

- **Leadership** – Holding a leadership position in a student organization is a great way to develop personal leadership skills, to network, and to build your resume. Many notable leadership positions on campus are held by members of fraternities and sororities including: Orientation Leaders, GURUs, Student Government Association officers, and Student Athletes. Additionally, the fraternity and sorority community gives members many opportunities to lead within the chapters and in the community. Each chapter also has a development program including workshops on how to become an effective leader. The leadership skills you build at Eastern Kentucky University can help you be successful in the future.

- **Life** – Membership is a lifelong commitment. Fraternity men and sorority women value brotherhood/sisterhood and being together for support and fellowship. To join a Greek organization is to find your home away from home. At ECU, members engage in a variety of activities together. Students will attend regular chapter meetings, plan annual philanthropy events, and participate in brotherhood/sisterhood activities. Brotherhood/sisterhood activities might include movie nights, road trips, social gatherings, or spontaneous hang outs on the chapter's floor in Dupree or Todd Hall. Notable community traditions include Greek Sing, a song and dance competition; Homecoming, including the construction of floats for the parade and celebration of the Football Team; and participation in various intramural sports.

Students interested in joining a fraternity or sorority can visit [www.greeklife.eku.edu](http://www.greeklife.eku.edu) to learn about upcoming recruitment events. You can also follow us on Twitter for updates: @EKUGreekLife. Be Greek!

Students who are looking to further bolster their leadership talents can participate in the Leadership Certificate Programs. Please visit [www.studentlife.eku.edu](http://www.studentlife.eku.edu) for further information on the upcoming list of leadership programs.

### Registered Student Organizations

ECU currently has over 230 Registered Student Organizations (RSOs) available for students. The 230 RSOs are categorized into 10 specific areas: departmental, governance, religious, honorary, residence hall, service, sports, fraternities/sororities, and special interest organizations. All of our student organizations are identified, created, and led by ECU students. Joining an organization is a wonderful opportunity to make a difference,

meet others, and develop your personal leadership skills. Many of our RSOs will showcase who they are and invite you to be a part of their organization at the Student Involvement Fair during Welcome Week. For the complete list of organizations and to learn organization meeting times, information, and upcoming events, please visit [www.eku.orgsync.com](http://www.eku.orgsync.com).

### Student Activities

Student Life hosts dozens of events each semester aimed at educating, entertaining, and meeting the needs of ECU students. We host various guests including comedians, singer/songwriters, and illusionists that are free for students to attend. We also have many programs in which we collaborate with various departments across campus to enhance the out-of-classroom experience. We encourage you to explore our upcoming events at [www.studentlife.eku.edu](http://www.studentlife.eku.edu), or by following us on Facebook at [www.facebook.com/EKUOSL](http://www.facebook.com/EKUOSL).

### STUDENT OUTREACH AND TRANSITION OFFICE

#### (SOTO)

Ms. Lisa Cox, Director  
Whitlock Building 442  
Phone: (859) 622-7686  
[www.soto.eku.edu/](http://www.soto.eku.edu/)

This one-stop transitional center is designed for transfer, non-traditional and re-entry students (away from ECU for over 2 years). The Student Outreach and Transition Office provides comprehensive support to students from initial inquiry through registration for their first semester of classes, serving as an advocate to promote their needs along the way. Prospective students receive individualized consulting services in the areas of admissions, degree audits, major selection, academic bankruptcy, credit transfer process, degree completion via distance learning, and course registration prior to their first semester. This office also provides students with answers to basic questions regarding filing for financial aid, financial aid appeals, and receiving credit for prior learning. Evening appointments are available to better serve the needs of adult learners.

SOTO also serves as a hub for diverse students with access to a bi-lingual /Latino Recruitment and Retention Specialist who is available to answer questions and refer students to appropriate resources. SOTO is also home to the Rodney Gross Scholars program. Scholars have access to dedicated study areas that include computer access, mentoring and tutoring assistance upon request.

### Colonel Connection Program

The Colonel Connection Program facilitates the transfer process from other colleges to ECU, and eases students' transition to and timely graduation from ECU. The program is available to students who are currently enrolled at another institution (e.g., a community college) and intend to transfer to ECU to complete a baccalaureate degree. Students must apply for admission to ECU, meet all admission requirements, and be accepted to ECU before enrolling in the Colonel Connection program.

Upon admission and completion of the Colonel Connection program agreement, participating students are granted continuous access to ECU's DegreeWorks degree audit system, allowing them to view their individualized degree plan and progress towards an ECU baccalaureate degree. The degree audit is then kept current through regular submission of transcripts to ECU for credit

evaluation. (Note: Colonel Connection students may not enroll in EKU coursework without first requesting visiting-student status through their advisor.)

When ready to transfer to EKU, the student must apply for admission to the university as a degree-seeking student for the term in which they wish to begin.

To maintain enrollment in the Colonel Connection program, a student must:

- maintain a minimum 2.0 grade-point average (GPA) on all college-level work completed to date;
- complete, with a grade of C or better, no fewer than six (6) credits in the most recent fall/spring semester; and
- meet with an assigned EKU advisor at least twice per academic year to discuss their progress and plans for transfer and graduation.

Students who fail to meet any of the above standards will be given one fall or spring semester to comply, after which they will be disenrolled from the Colonel Connection program.

Upon enrollment in the Colonel Connection program, participants will have a catalog year associated with their student record designating the academic year for their degree program as well as General Education and University graduation requirements. Should graduation requirements subsequently change, students may request a move to the current Catalog through the Registrar's Office. The catalog year may be found on the student's DegreeWorks degree audit.

Students who fail to maintain their enrollment in the Colonel Connection program may apply for readmission to the program; however, their catalog year will be based on the date of re-enrollment.

For further information regarding the Colonel Connection program, contact the EKU Student Outreach and Transition Office (SOTO).

## GENERAL ACADEMIC INFORMATION

Student success is an EKU priority. The General Academic Information section provides students with key information to help them succeed on the path toward completing a degree. All students should become familiar with the General Academic Information section of the Catalog as well as specific college and departmental program requirements. Being unaware of these regulations and requirements does not exempt a student from complying with the requirements.

### APPLIED CRITICAL AND CREATIVE THINKING (ACCT)

The ACCT is a program-directed University baccalaureate degree graduation requirement intended to showcase the unique experiential and applied components of all undergraduate degrees at EKU. The goal of the ACCT is to ensure that students integrate into their degree program experiences and/or courses that demonstrate applied critical and creative thinking skills. Any course or experience used to meet this requirement may also be used to satisfy program requirements. Options to satisfy this requirement vary by degree program and will be determined by the program. The ACCT experience is expected to be at least a 3 credit hour course, or an experience that requires equivalent effort. Students should refer to the program requirements for their majors, as listed in this *Catalog*, or listed on their DegreeWorks degree audit, for specific information on the ACCT requirement.

### ACADEMIC BANKRUPTCY

#### ACADEMIC BANKRUPTCY OF EKU WORK

Academic bankruptcy allows undergraduate students who are returning to Eastern Kentucky University after remaining out for an extended period of time to remove from their GPA a portion of the work attempted during prior college enrollment(s). EKU offers this option of academic renewal because it recognizes that some students fail to perform satisfactorily due to immaturity or to other factors that interfere with their academic performance.

Students considering academic bankruptcy should make careful note of the following policy conditions:

- The student must not have attended Eastern Kentucky University or any other institution of higher education for a period of at least two consecutive years sometime after attempting work to be bankrupted.
- The student must be currently enrolled as a degree-seeking student at EKU.
- The student must not have previously declared bankruptcy of EKU work. Bankruptcy can only be declared once.
- Only semesters where the term GPA is below 2.0 will be considered for bankruptcy.
- Within eligible terms (see d. above), only courses with grades of "D" or "F," or the equivalent, may be bankrupted.
- During his/her first semester after being readmitted a student requesting bankruptcy must attain a minimum of a 2.0 term GPA. The student must earn no grade lower than a "C" on at least 12 hours of 100-level (or higher) EKU coursework, and pass any college readiness courses. All courses and grades, including repeated courses, will be counted in the qualifying term GPA. (\*If it takes more than one semester to complete the necessary 12 credit hours, the student must maintain a

- constant 2.0 term GPA since being readmitted.) For the purpose of determining bankruptcy a grade of "S" is acceptable.
- A student who does not enroll in 12 credit hours of 100-level or higher coursework during his or her first term back at EKU will have his/her enrollment in the subsequent semester combined with that of the first to determine bankruptcy. All academic work attempted in the term that includes the twelfth credit hour is affected by the above grade restrictions.
  - Before formally requesting consideration for bankruptcy, the student must confer with bankruptcy experts in the Registrar's Office to determine which semesters may qualify for bankruptcy and what the impact to the student's GPA will be. The student will then complete and sign the Academic Bankruptcy form.
  - Any academic work used to complete a baccalaureate degree is not eligible for bankruptcy once the degree has been awarded.

If bankruptcy is granted, the bankrupted class(es):

- Will remain visible on the transcript, but with a "\$" designation.
- Will not be counted in the student's GPA.
- Will not count as earned hours. (Note that Financial Aid will continue to count bankrupted hours as attempted hours.)
- Will be included in the separate GPA calculation which is done when determining graduation honors.
- Will be prevented by DegreeWorks from meeting any degree requirements (including the 42 hour upper division requirement). However, the dean of the college of the student's major may waive major, supporting, and general education requirements met by bankrupted courses. Note that this does not add back any credit hours from bankrupted courses, the student may be required to complete additional elective courses to obtain the minimum number of credit hours required to graduate.

#### ACADEMIC BANKRUPTCY OF TRANSFERRED WORK

Academic bankruptcy of transfer coursework undergraduate students who have been out of higher education for an extended period to void a portion of their earlier work attempted at other institutions. EKU offers this option because it recognizes that some students fail to perform satisfactorily due to immaturity or to other factors that interfere with their academic performance.

To qualify for transfer bankruptcy, a student must meet the following conditions:

- The student must not have attended Eastern Kentucky University or any other institution of higher education for a period of at least two consecutive years sometime after attempting the work to be bankrupted.
- Students may request to bankrupt prior work. However, all EKU bankruptcy restrictions and rules listed in the general academic bankruptcy section of this catalog apply.

- c. After being admitted to EKU, the student must attain a minimum of a 2.0 GPA with no grade lower than a “C” on at least 12 hours of college-level (i.e., 100 or above) EKU courses and pass any attempted college readiness courses. All courses and grades, including repeated courses, will be counted when determining eligibility for academic renewal. A grade of “S” is also acceptable for meeting academic renewal eligibility. All work attempted in the academic term that includes the twelfth hour is affected by these grade restrictions.
- d. The transfer student must submit a completed Academic Bankruptcy request form to the Office of the Registrar. All students should consult with a bankruptcy expert in the Registrar’s Office. Together, they will identify the transfer institutions from which work is to be bankrupted, as well as the specific semesters that are to be bankrupted.
- e. The student may not have previously declared transfer bankruptcy at EKU.
- f. Academic work earned before completion of a baccalaureate degree is not eligible for bankruptcy once the degree has been awarded.
- g. The student must be currently enrolled as a degree-seeking student at EKU.
- h. If transfer bankruptcy is granted, the bankrupted work:
- will remain on the transcript.
  - will not be counted in the student’s GPA.
  - will not count toward degree requirements, including the upper division hours requirement. However, the dean of the college in which the student is enrolled may waive major, supporting, and general education requirements met by bankrupted courses. Note that this does not add back any credit hours from bankrupted courses; the student may be required to complete additional elective courses to obtain the minimum number of credit hours required to graduate.
- i. Grades for course work approved for academic bankruptcy will be included in the separate GPA calculation performed to determine students who will graduate with Latin Honors.
- j. Transfer students who have participated in academic bankruptcy (or academic renewal) at a previous institution, and have not yet earned a baccalaureate degree, may petition through the University Exception process to either have the affected transfer coursework brought into EKU as it was recorded by the previous institution, or have the coursework applied through EKU’s academic bankruptcy policy.

## ACADEMIC INTEGRITY

EKU students are expected to adhere to the highest standards of academic integrity. Students who are found guilty of academic dishonesty will be sanctioned in a manner that is appropriate to the infraction. Sanctions may range from receiving a failing grade on the assignment to being assigned a failing grade in the course. Stronger sanctions are possible in the event a case is assigned to the Student Disciplinary Council. Students who are assigned a grade of “F” or “FX” in a course due to academic dishonesty will not be permitted to withdraw from the course.

For a full description of academic dishonesty, including plagiarism, cheating, and fabrication, refer to the section entitled Academic Integrity Policy in the University Handbook for Students.

## ACADEMIC READINESS

The Developmental Education and College Readiness Program at Eastern Kentucky University helps students achieve academic success in college-level courses by developing or enhancing skill level proficiencies in the areas of reading, writing, and mathematics. Proficiencies in these areas are measured by student performance on the ACT, SAT, and EKU placement tests. In addition, students may earn developmental proficiency in English composition, reading, or mathematics via KYOTE (Kentucky Online TESting) scores. Students needing additional preparation, identified through testing, are required to enroll in college readiness or developmental education coursework. College readiness is defined by minimum ACT subscores of 18 in English, 19 in mathematics, and 20 in reading.

Developmental Education and College Readiness courses offered at Eastern Kentucky University include:

- ENG 095R Introduction to Reading, Writing and Rhetoric
- ENG 101 Reading, Writing and Rhetoric.
- ENG 101R Reading, Writing and Rhetoric (Supported)
- ENR 115 Learning Dynamics (Eastern Summer Bridge only)
- MAT 090A, 090B, 090C Prealgebra
- MAT 095A, 095B, 095C Developmental Algebra I
- MAT 098 Algebra II (Summer only, through 2018)
- MAT 105E Mathematics with Applications – Enhanced (Pilot program)

Each zero-level developmental course is, or has modules which add up to, three-hours of institutional credit. The credit hours for courses beginning with a zero course number, like 090, 095, or 098, do not apply toward graduation but do count toward enrollment status for purposes of financial aid eligibility and full-time student status.

Students transferring to Eastern Kentucky University with an Associate of Arts, Associate of Science, Associate of Applied Sciences, and Associate of Science in Nursing degree, or equivalent will be considered proficient in the three basic skill areas of English (writing), mathematics, and reading. Please see Section Six of this Catalog for descriptions of these courses.

### DEVELOPMENTAL AND COLLEGE READINESS ENROLLMENT AND COMPLETION REQUIREMENTS & DEVELOPMENTAL DISMISSAL

Following are the policies concerning developmental enrollment and completion requirements for degree seeking students:

- 1) All full- or part-time students with developmental needs in two or more areas are *required* to take GSD 101: Foundations of Learning in the first semester of enrollment.
- 2) All full-time students, including transfer and online students, with developmental level college reading requirements as identified by the ACT, SAT, COMPASS, KYOTE, or EKU placement testing are *required* to enroll in the specified developmental course(s) during their first *and* each subsequent semester of enrollment, until all developmental requirements are completed, excluding the summer semester.
- 3) Part-time students, including transfer and online students, are *required* to enroll in any needed developmental course(s) during their first and each subsequent semester, until the developmental requirement is fulfilled. Completion of developmental coursework takes

precedence over attempting coursework which carries academic credit, other than GSD 101 or other required Student Success Seminars.

4) Students with developmental requirements are allowed a maximum of two consecutive terms of University enrollment per developmental course, excluding summer, to successfully complete each required course.

5) Students who fail to demonstrate continuous, progressive enrollment in required developmental courses will have a registration hold placed on their record and may face Developmental Dismissal. These students are required to meet with the Director of Academic Readiness to establish an academic plan toward completion of college readiness.

6) **Withdrawal from a developmental course counts as one semester of University enrollment toward the attempted completion of developmental requirements.**

7) **Each semester of enrollment at the University counts as an attempt toward completion of a developmental requirement, even if a student has not enrolled in the needed developmental course.**

8) Students with developmental or college readiness requirements must complete all required developmental or college readiness courses by the end of the term in which they attempt their 45th credit hour, including developmental hours. **Students not completing all developmental or college readiness requirements within 45 hours will be Developmentally Dismissed**

9) Students with developmental-level needs in English composition, math, or reading should consult with an academic advisor or academic program mentor to determine whether needs may be remediated via a credit-bearing, one-hundred level college readiness course.

#### Grades in College Readiness and Developmental Courses

- Grades in developmental courses numbered 090 or 095 are not included in the calculation of GPAs.
- Grades in developmental courses numbered 090 or 095 include the grades “A,” “B,” “C,” and “F.” There are no course grades of “D” in developmental courses or in ENG 101R.
- Students completing co-requisite coursework or credit-bearing-courses-with-support as a means of remediating developmental-level needs must earn a grade of A, B, or C in order to pass the class.
- 100-level college readiness courses with normal grading do count in the calculation of the GPA as free electives or general education courses that count toward degree completion (as appropriate).

### SUCCESS FIRST INITIATIVE

The **Success First Initiative** grants admission to students who may face challenges as new or returning students as indicated by their established academic record. This program applies to the following students:

- New first-time students (including transfers with less than 24 college credits) with high school GPAs between 2.0 and 2.49 (unweighted on a 4.0 scale) and ACT Composite scores between 15 to 19 or SAT equivalent.
- Readmitted students with an ECU GPA of between 1.0 and 1.99
- Veterans admitted through the Veterans Bridge to College

Success (VBCS) program.

- New first-time freshmen admitted through the Eastern Bridge program.
- The **Success First Initiative** is administered through a variety of programs across campus. **Success First** students work closely with their assigned advisors to achieve the following:
  - Sign a Student Success Agreement acknowledging the expectations and conditions for participation in the program and for continued enrollment at the University.
  - Obtain a minimum grade of “C” in all developmental or college readiness coursework and pass each within two attempts.
  - Meet with the assigned academic advisor *each semester* before registering for classes and enroll in courses only as agreed upon during this consultation. Note: Success First students are *required* to consult with their advisor before making *any* schedule changes. (A student who fails to involve an advisor and/or academic program coordinator in course schedule decision making may have an Advising or Developmental education hold placed on his or her account.)
  - Achieve satisfactory academic progress (SAP) in order to retain financial aid.

**Success First** students who drop below a 2.0 GPA are subject to university-wide rules for minimum academic standards (see page 41), and may receive consideration for dismissal from the University, as well. All Success First students will be placed in the Associate of General Studies (AGS) program until they obtain 30 college-level credit hours and demonstrate satisfactory academic performance, or until they are released by the program via the Office of Academic Readiness. Satisfactory academic performance is defined as two consecutive semesters with a term GPA of 2.0 or above and satisfactory completion of all developmental or college readiness-level coursework.

### EASTERN BRIDGE

Eastern Bridge is a high-school-to-college transition program designed to support the academic success of students entering the University with one or more college readiness needs in English composition, mathematics, and/or reading or entering the University with a high school GPA less than 2.49.

Eastern Bridge Students are required to:

- Work with the program coordinator to enroll in needed developmental education or college readiness courses. Course placement will be based on ACT, SAT, or KYOTE test scores.
- Enroll in needed developmental education or college readiness courses, in the appropriate sequence, during the first semester & subsequent spring and fall semesters of enrollment until all needs are remediated. (Students who fail to demonstrate continuous, progressive enrollment in required developmental or college readiness courses, or who fail to complete required developmental or college readiness-level coursework within 45 attempted hours of enrollment, will receive a Developmental Dismissal.)
- Enroll in specified sections of GSD 101: Foundations of Learning.
- Sign a Student Success Agreement acknowledging the expectations and conditions for participation in the program and for continued enrollment at the University.
- Obtain a minimum grade of “C” in all developmental or college readiness coursework and pass each within two

attempts.

- Meet with the assigned academic advisor *each semester* before registering for classes and enroll in courses only as agreed upon during this consultation. Note: Eastern Bridge students are *required* to consult with their advisor or Eastern Bridge academic mentor before making *any* schedule changes. (A student who fails to involve an advisor and/or Eastern Bridge academic program coordinator in course schedule decision making may have an Advising or Developmental education hold placed on his or her account, which will block the student's ability to register or make schedule changes.)
- Agree to meet with the Summer or Fall Eastern Bridge coordinator as requested throughout the first academic year of enrollment.
- Achieve satisfactory academic progress (SAP) in order to retain financial aid.
- Attend a minimum of four hours a week of *required* tutoring and other academic enrichment activities, as directed by the Eastern Bridge program coordinator and the assigned academic advisor, throughout the first year of enrollment. The first year of enrollment includes summer (for Summer Bridge students), fall and spring semesters. Summer and Fall Bridge students are required to log into tutoring and/or procure proof of attendance at academic enrichment events. Failure to adhere to mandatory tutoring and academic enrichment activities may lead to dismissal from the University.
- Continuously maintain a minimum college GPA of 2.0.
- Refrain from declaring a major during the freshman year. However, Bridge students may take entry-level major-area courses when possible or appropriate.

Depending on admission status, students may enter the Eastern Bridge program during the second session of the summer semester or during the fall semester. The Eastern Bridge program is offered only on the Richmond campus. For more information, contact the ECU Office of Academic Readiness at (859) 622-8860.

#### ACADEMIC RESTRICTIONS FOR STUDENTS WITH DEVELOPMENTAL REQUIREMENTS

- New first-time freshmen with college readiness needs in two or more developmental or college readiness areas (English composition, reading, or mathematics) will be enrolled in the Associate of General Studies Degree program. The Office of Academic Advising will assist these students in creating linkages to departments of academic interest.
- Students affected by the above policy who would be rendered ineligible for specific scholarship opportunities, or who would be denied entrance into academic programs with proven student retention success, may petition for permission to declare a baccalaureate degree program. Letters of petition should be sent to the ECU Office of the Registrar after the student has been admitted into ECU.
- Students with two or more developmental area requirements are permitted to enroll in up to 16 hours of University coursework. Advisors should work closely with these students to ensure that students have (a) taken ECU placement tests before registering; (b) received information on available tutoring and student support services; and (c) utilized the Academic Planner in DegreeWorks to prepare a progress-to-degree course map for completing required general education and major area courses.
- Notes: Students successfully completing 090-level courses in English composition, reading, or mathematics should take ECU

placement tests in an attempt to test out of the 095-level course sequence.

- 090-level developmental courses in English composition, reading, and mathematics are offered only during the summer, as part of the Eastern Summer Bridge program.
- Students enrolled in any MAT 090 section (Prealgebra) cannot enroll in any course with the following prefixes: AST, BIO, CHE, CIS, CSC, FOR, GLY, NAT, PHY, SCI, or STA.
- Students enrolled in ENR 090 or ENR 095 may be restricted in-course registration based on academic department course pre-requisites

## ACADEMIC STANDARDS

### ACADEMIC ACHIEVEMENT AWARDS AND RECOGNITIONS

**Dean's List:** The dean's list is one of several ways in which the University recognizes students who achieve academic excellence. The dean's list is published after each standard (fall/spring/summer) semester. Eligibility requirements for the dean's list are as follows:

Hours Earned with Regular Grading	Minimum Term GPA
12	3.75
12	3.65
14 or more	3.50

Students earning fewer than 12 semester hours under the regular grading system are not eligible for the dean's list. Courses below the 100 level will not be counted in determining eligibility for the Dean's List.

**Dean's Award:** As a further recognition of academic excellence, the University presents the Dean's Award to students who have achieved the Dean's List and/or the President's Award (see below) three times. Students receiving the Dean's award are presented with a recognition pin by the appropriate academic dean.

**President's Award:** The highest recognition of academic achievement for a semester (fall/spring/summer) is the President's Award. This award is given to students who complete a full time course load (minimum of 12 institutional credit hours earned) during a semester (fall/spring/summer), with normal grading (excluding developmental coursework), and who attain a 4.0 grade point average for that semester. Students receiving the President's Award receive a letter of recognition from the President. In addition, the division of Public Relations and Marketing distributes the names of the recipients to appropriate news media, including their hometown newspaper.

### GOOD ACADEMIC STANDING

#### MINIMUM ACADEMIC STANDARDS

**Satisfactory Progress:** Degree-seeking students shall be considered as making satisfactory progress so long as they remain in good academic standing (2.0 cumulative GPA) and enroll in courses required or allowed in their chosen academic program.

Students having difficulty meeting academic standards are strongly advised to reduce or eliminate part-time jobs and other extracurricular activities which may detract from their studies, or to reduce the number of hours for which they are enrolled. To make timely progress toward degree students are expected to earn at least

15 credit hours per fall/spring semester

**Good Academic Standing:** Students are expected to maintain at least a 2.0 cumulative grade point average (GPA) while enrolled at EKU. The actions described below pertain to students whose cumulative GPA falls below 2.0. Once a student's cumulative GPA returns to 2.0 or above, he/she is once again in good academic standing.

**Academic Probation:** Students who earn a cumulative GPA of less than 2.0 will be placed on Academic Probation after the close of that semester. While on academic probation, students may not enroll in more than 15 credit hours in either fall or spring terms or more than a total of six hours during a full (12-week) summer term. Students who are on Academic Probation and cease continuous enrollment, and subsequently wish to return to the institution, must apply for readmission and will be held to those readmission criteria (please refer to the Requirements for Readmission section of the Catalog).

**Intervention for New First-Time Freshmen on Probation:** Because a student's academic performance in his/her first semester at EKU is predictive of overall success and graduation, EKU is increasing the support given to students whose cumulative GPA is less than 2.0 at the end of the first semester. New first-time freshmen whose cumulative GPA is less than 2.0 will be required to participate in prescribed intervention strategies and will be placed on First Semester Probation, with a requirement of earning an cumulative 2.0 or higher term GPA in the second semester to prevent academic suspension.

**Academic Suspension:** At the end of a semester on academic probation, students must have earned a semester GPA of at least 2.0 or raised their cumulative GPA to 2.0. Students not meeting the semester or cumulative GPA requirement will be placed on academic suspension. Students may not enroll in classes at EKU while academically suspended. Students who are academically suspended for the first time may not enroll in classes at EKU for one full semester (summer is counted with the next fall semester if a student is academically suspended at the end of the spring term). Students may be academically suspended up to three times during their academic career at EKU. The second academic suspension is for one calendar year and a third academic suspension is for two calendar years. An academically suspended student will return to EKU on academic probation if his/her cumulative GPA is less than 2.0 at the time of his/her return. Suspended students are subject to EKU requirements for readmission after they have sat out their mandatory suspension period (please refer to the Requirements for Readmission section of the Catalog).

**Academic Dismissal:** Students who have been academically suspended three times must maintain a semester GPA of 2.0 or better each semester after they return. Students who have been academically suspended three times, and after returning are unable to maintain a semester GPA of 2.0, will be academically dismissed from EKU for a period of five calendar years and are subject to EKU requirements for readmission (please refer to the Requirements for Readmission section of the Catalog).

**Attending Another School While Suspended or Dismissed:** During the time a student is academically suspended or dismissed from EKU, course work earned at another regionally accredited college or university will be considered for transfer credit when the student returns to EKU. Students are responsible for requesting that an official transcript of any transfer course work be sent to the EKU Office of Admissions when they apply for readmission to EKU. Students should consult with their advisor or college for the applicability of course work taken at another institution to their degree program at EKU. In some circumstance acceptance of

transfer work may be subject to requirements of prior approval by the department chair of the student's major.

**Appealing Academic Standing:** Students may appeal an academic suspension if they believe that catastrophic circumstances beyond their control prevented them from being academically successful. They may appeal their academic suspension to the University Admissions Appeal Committee. For their petition to be considered, students must provide a written appeal with appropriate supporting documentation. Students may not appeal an academic dismissal.

#### FIRST-TIME FRESHMEN MID-TERM GRADE REVIEW PROCESS

The first semester for first-time freshmen is pivotal to academic success and graduation. All first-time freshmen will have their mid-term grades reviewed by the Office of University Advising and the Registrar during their first semester at EKU. If all reported mid-term grades are F, FN, U, or UN (indicating non-attendance and/or failure to meet course requirements) the student will be required to participate in an intervention program that includes the following:

- a study skills workshop
- a student success agreement
- a registration hold
- students will be moved from a baccalaureate program into the Associate of General Studies major until they have earned a 2.0 term GPA.

First semester new students who fail to attend the required workshop, fail to respond to communication from the University, and/or to comply with their success agreement will be academically suspended at the end of the semester. First-time students who cease participation in courses during their first semester at EKU, and as a result are failing all classes at midterm, will be considered to have withdrawn from the University. Accordingly, these withdrawn students will have any future course registration cancelled and their student record inactivated.

#### ACADEMIC STANDING NOTED ON TRANSCRIPT

A student's academic standing (good standing, academic probation, academic suspension, or academic dismissal) is determined at the conclusion of each semester and is notated term by term on the student's transcript.

Expulsion is the permanent separation of a student from the institution. Expulsion at EKU is restricted to the most egregious academic or disciplinary offenses. Expulsion, due to its permanent nature, is notated on the official transcript with the comment, "Expelled – ineligible to return".

Details of due process that can lead to expulsion of a student can be found in the Eastern Kentucky University Handbook for Students. For process and sanction details refer to the Office of Student Conduct and Community Standards page <http://studentrights.eku.edu/student-conduct>

## CERTIFICATES

### EKU UNIVERSITY-AWARDED CERTIFICATE

At EKU a long-term certificate program that requires at least one year to complete and results in the awarding of a certificate is called a university certificate. Undergraduate-level university certificates require 24 or more hours, while graduate-level university certificates require 18 or more hours. University certificates are issued by the University and printed on diploma

stock. University certificates are automatically recorded on student transcripts. Students who complete a university certificate must apply for graduation at the dean's office of the college offering the university certificate, and pay applicable fees to cover certificate processing and mailing costs. University certificates are not awarded at the Commencement ceremony and certificate-only earners do not participate in Commencement.

#### EKU DEPARTMENT-AWARDED CERTIFICATE

A short-term certificate program that requires less than one year to complete and results in the awarding of a certificate is considered a department/college certificate. Undergraduate department/college certificates require 12-23 hours. Graduate-level department/college certificates require 12-17 hours. Department/college certificates are issued by the academic department or college; the student does not formally apply for graduation and no processing fee is required. Department/college certificates may be noted on student transcripts at the request of the department/college. Department/college certificates are not awarded at the Commencement ceremony.

#### CLASS ATTENDANCE

Students must be registered in a class in order to attend and participate. Individuals not registered are prohibited from doing so.

Research shows that students who regularly attend class are more likely to succeed. The University expects all students to be officially registered before the end of the add/drop period for each course, and to attend all class meetings. EKU students are responsible for course work covered during all class periods, specifically any work missed during any absence from class, including the first class meeting. Each instructor will record absences and deal with them in a manner consistent with departmental policy for that course. Since attendance policies vary among departments and for courses within departments, students must be familiar with the policy printed on the course syllabus.

If a student presents the instructor with an adequate and documented reason for an absence, the instructor normally will give the student an opportunity to make up the work missed, if this is feasible. Adequate reasons involve circumstances beyond the student's control, such as personal illness, critical illness, or death in the immediate family, or participation in an approved University activity. No absence of any nature will be construed as relieving the student from responsibility for the timely completion of all work assigned by the instructor. Initiating the request to make up class work is the student's responsibility.

**Absence from Class Due to Participation in an EKU Sponsored Event:** A student who participates in an EKU sponsored event should complete and process a Student Absence from Class form before the sponsored event. This form explains the student's absence, it does not excuse the student from responsibility for content covered during the approved absence.

**First Day of Class Attendance:** This process is designed to ensure clear reinforcement of the message that class attendance at EKU is important. Faculty are expected by the University to drop a student for being absent on the first day of class during the first week of the term. Students who know they will be absent should contact their instructor or the academic department office PRIOR TO THE 1st CLASS MEETING to explain their absence and request that the instructor not drop them from the class. However, students are responsible for monitoring their class schedule and should never

assume that missing the first day of class will automatically result in removal from that class. A student who never attends a class but remains enrolled will receive a failing grade in the course.

#### CLASSIFICATION OF STUDENTS

A student's classification is determined by the number of semester hours earned, as follows:

Freshman	0 - 29 semester hours earned
Sophomore	30 - 59 semester hours earned
Junior	60 - 89 semester hours earned
Senior	90 or more semester hours earned

#### GRADUATION & COMMENCEMENT INFORMATION

##### APPLICATION FOR GRADUATION

EKU is dedicated to all students making timely progress toward their desired degree. The EKU baccalaureate degree standard is a completion timeframe of 4 years for a 120 credit hour program. After declaring their desired baccalaureate degree program, students are expected to create a semester-by-semester degree pathway in the Degree Works academic planner, and to have this academic plan reviewed and approved by an advisor. To make appropriate progress toward their degree, students are expected to earn at least 15 credit hours per term (or 30 hours per academic year) and take only those classes needed for their declared degree program as listed on their Degree Works planner. Students must be aware that changing majors is likely to prolong time toward degree, and they should make such changes only after serious discussion with an advisor or department or program chair (see Changing Major section of this catalog for more details). Due to specific program requirements, students who transfer into EKU with more than 60 hours may require more than two years at EKU to complete a baccalaureate degree.

##### APPLYING FOR GRADUATION: 90TH HOUR PRE-GRADUATION REVIEW Required Graduation Application and Evaluation

To assist students with completing their degree on schedule, EKU professional advisors/graduation experts will review the student's academic progress and Degree Works graduation plan to determine the earliest, reasonable graduation semester. Baccalaureate degree seeking students will apply for graduation, and thus trigger this official graduation evaluation, during the semester in which they enroll in their 90th credit hour. The timing of this pre-graduation review is designed to be early enough to allow students to make any needed changes and avoid a graduation delay. Once evaluation has been triggered, a registration hold will be placed on the student's record pending submission of their graduation application. This hold is lifted automatically after the student submits a graduation application, online, through EKUDirect.

Each degree and University certificate-seeking student shall apply for graduation using the online graduation application located within each student's EKUDirect secure student services account. At the time of application each student shall have created, and have approved by an advisor, a Degree Works academic plan for every semester up through the proposed graduation term.

During the graduation evaluation the student's current registration and Degree Works plan for future terms will be examined – to determine whether the student is on-track and efficiently headed toward graduation. The student will be informed if he or she cannot meet the graduation goal declared on the graduation application, advised how to get back on-track, and given a new graduation timetable.

Results from the graduation evaluation will be documented on the student's Degree Works. Students will receive reminders when it is time to apply for graduation and initiate the graduation evaluation. Students are expected to heed warnings and follow any instructions posted on their Degree Works audit as a result of this official graduation evaluation. Students who apply to graduate without having the appropriate academic plan in Degree Works will be expected to submit the plan before being evaluated and before registering for the next semester.

Each student's degree will be awarded by the University at the first opportunity to do so upon completion of requirements for the student's declared program, per the student's graduation application. Students are expected to earn their baccalaureate degree no later than 6 years after initial matriculation as a first-time degree-seeking student.

Final graduation clearance, degree certification on behalf of the University, and production of diplomas are completed by the Office of the Registrar.

#### **Changing Major after Applying to Graduate**

After applying to graduate and having a graduation semester confirmed by the University, students are expected to maintain their declared program of study, and thus graduate on schedule. Each student is expected to carefully review how any proposed change to a declared program of study would impact his or her approved graduation timetable and future financial assistance, if relevant. Given the gravity of such changes, only in extreme situations and after careful consultations with the student's professional advisor and/or written permission from a graduation evaluator would a change that would delay graduation be considered.

#### **Deferral of Graduation Date**

Students who are not successful in completing all graduation requirements by their approved graduation date, but for whom the University determines the graduation goal is still easily within reach, will have their graduation term automatically deferred to the next semester. Students can have their graduation deferred for a maximum of two sequential semesters. After that time the original graduation application will be cancelled and the student will be required to submit a new application for graduation, pay a new application fee, and have a revised Degree Works graduation plan approved by the graduation evaluator.

#### **Commencement Participation**

Commencement ceremonies are conducted at the conclusion of the fall and spring semesters, prior to final grade processing. The Commencement ceremony represents a celebratory gathering of all degree candidates who are expected to complete their academic requirements by the official degree-conferral date as established by the University. Attendance at Commencement is optional. Participation in the Commencement ceremony does not represent confirmation of degree completion ("graduation"). After final grades are processed and reviewed, degrees will be conferred. Students earning only a certificate, either university or departmental, may not participate in the Commencement

ceremony. For additional information regarding Commencement, please refer to the registrar's Web site at [www.registrar.uku.edu/graduationInformation/](http://www.registrar.uku.edu/graduationInformation/).

#### **GRADUATION FAIR (GRAD FEST)**

There is a graduation fair (Grad Fest) on campus each fall and spring semester. This is an important event for all graduating students. At Grad Fest, students will conclude all needed graduation tasks, including picking up pre-ordered academic regalia. For additional information, please refer to the Grad Fest website at <http://registrar.uku.edu/gradfest>

#### **GRADUATION FEE**

There is a graduation application fee for each diploma and/or university certificate sought; the appropriate fee is assessed to the student's EKU account upon receipt of the graduation application. This graduation fee only partially offsets the full cost of commencement celebrations and production and mailing of diplomas and certificates.

#### **GRADUATION ACADEMIC REGALIA**

Students order and pay for commencement regalia (cap, tassel, hood, and gown) through the EKU Barnes & Noble bookstore (<http://registrar.uku.edu/graduation>) Students earning University Latin Honors receive a complimentary Honors Sash; this regalia will be available at the Registrar's table during Grad Fest. Students graduating from the Honors Program will receive a complimentary maroon mortarboard from the Honors Program office. Refer to the Graduation Information website for more details regarding graduation fees and/or commencement.

#### **DEGREE CONFERRAL DATE**

The Board of Regents of Eastern Kentucky University approves the conferring of degrees four times per year. These conferral dates represent confirmation that all degree and/or university certificate requirements have been met by that date. The formal conferral date is posted to the student's academic transcript and is the date printed on the diploma and certificate. Below are the EKU degree/certificate conferral dates:

Fall	December 31
Winter	January 31
Spring	May 31
Summer	August 31

For information see the Graduation Information website at: [www.registrar.uku.edu/GraduationInformation/diplomas/](http://www.registrar.uku.edu/GraduationInformation/diplomas/)

#### **LOCKING ACADEMIC HISTORY (AFTER DEGREE HAS BEEN AWARDED)**

Once a degree has been conferred the academic record of all work contributed to the awarded baccalaureate, master's, or doctoral degree is locked. No course grades may be repeated or replaced for any classes used toward the conferred degree.

The Office of the Registrar takes great care to ensure that each student's academic record is accurate. Any student who believes an error has occurred should immediately bring this to the attention of the Office of the Registrar. Students have one calendar year after a degree is awarded to identify any item on their

academic record believed to be in error. After that time the record is considered to be permanent. Please note that grade challenges have a different timetable and must always be directed to the chair of the department which offered the course in question. For details regarding the timetable and process for grade challenges please refer to the student handbook at <http://studentaffairs.eku.edu/studenthandbook>

### DIPLOMA AND UNIVERSITY CERTIFICATE PRODUCTION

Diplomas and University Certificates are produced and mailed to students after all final grades are reviewed and it has been confirmed that all degree requirements have been met. The graduation confirmation process takes several weeks to complete. Therefore, students should expect to receive their diploma 6-8 weeks after the end of finals week. Students who are indebted to the University will not have their transcript or diploma released until the debt is paid. Any questions regarding student financial obligations should be directed to ECU Student Accounting Services.

### ASSOCIATE DEGREE HONORS

#### With Distinction and With High Distinction

Students earning an Associate Degree are graduated “With Distinction” if they attain a cumulative GPA of at least 3.5, but less than 3.7, on all semester hours transferred to and attempted at Eastern Kentucky University and if they complete a minimum of 30 semester hours at Eastern Kentucky University.

Students earning an Associate Degree are graduated “With High Distinction” if they attain a cumulative grade point average (GPA) of 3.7 or higher on all semester hours transferred to and attempted at Eastern Kentucky University and if they complete a minimum of 30 semester hours at Eastern Kentucky University.

For purposes of honors recognition, all semester hours transferred to and attempted at Eastern Kentucky University - including those which are subsequently repeated or bankrupted - shall be included when calculating the GPA used to award academic honors. Because of timing, honors GPA calculations (solely for the purpose of recognition at the commencement ceremony) cannot include the final semester’s course work. In-progress hours will be used to attempt to meet the 30 semester hours at Eastern Kentucky University requirement. Calculations for the permanent designation of honors on the diploma and transcript will include the final semester grades.

### BACCALAUREATE DEGREE HONORS

#### Latin Honors: Cum Laude, Magna Cum Laude, Summa Cum Laude

Eastern Kentucky University recognizes graduating baccalaureate degree students who have achieved distinguished academic records by awarding their degree with Latin Honors. There are three levels of Latin Honors: Cum laude (“with praise”), Magna Cum laude (“with great praise”), and Summa Cum laude (“with highest praise”). All students earning Latin honors must take at least 25% their of degree applicable course work at Eastern Kentucky University.

All semester hours transferred to and attempted at Eastern Kentucky University (including those which are subsequently repeated or bankrupted) will be used in calculating each Latin Honor grade point average (GPA). Latin honors GPA calculation—for purposes of designating which students may wear a Latin Honors sash at the graduation commencement ceremony—does not include the final semester’s course work as these calculations occur weeks before the term has finished. Once a student’s final semester has concluded and final grades are available, these grades will be included in the calculations to award the permanent designation of

Latin Honors on a student’s diploma and transcript.

**Cum Laude:** Students earning Cum Laude must attain at least a cumulative GPA of at least 3.5, but less than a 3.7, on all semester hours transferred to and attempted at Eastern Kentucky University. Additionally, a minimum of 25% of all degree applicable course work must be taken at Eastern Kentucky University.

**Magna Cum Laude:** Students earning Magna Cum Laude must attain at least a cumulative GPA of at least 3.7, but less than a 3.9, on all semester hours transferred to and attempted at Eastern Kentucky University. Additionally, a minimum of 25% of all degree applicable course work must be taken at Eastern Kentucky University.

**Summa Cum Laude:** Students earning Summa Cum laude must attain at least a cumulative GPA of at least 3.9, or higher, on all semester hours transferred to and attempted at Eastern Kentucky University. Additionally, a minimum of 25% of all degree applicable course work must be taken at Eastern Kentucky University.

### HONORS SCHOLARS PROGRAM

Students are graduated as Honors Scholars if they successfully complete Eastern Kentucky University’s Honors Program, satisfy all comprehensive and program requirements for an undergraduate degree from this University, and graduate with a cumulative GPA of at least 3.0. Honors Scholars are designated at commencement with a maroon mortarboard.

## COURSE TYPES

### COURSE BY SPECIAL ARRANGEMENT

A Course by Special Arrangement (CBSA) is a course that is a required part of an approved curriculum program but is being offered to a student during a term or at a time when circumstances prevent the course from being a part of the department’s regular class schedule. A CBSA will be approved only if it is within the last two semesters of a student’s pending graduation, and if the course meets a degree requirement that cannot be fulfilled by any other mechanism, including independent study. Prior to registration, students must file the CBSA Petition. This petition requires the signature/approval of the instructor, program chair, and dean. An independent study course cannot be a Course by Special Arrangement. Tuition and fees for CBSA courses are computed at the same rate as other regular on-campus courses.

### INDEPENDENT STUDY COURSE

Independent study courses, which are distinct from Course by Special Arrangement and special topics courses, are designed to provide an opportunity for a student to pursue a research/study interest not available through any of the courses offered in a program at ECU. To qualify to enroll in an independent study course, students must have a GPA of 2.5 or higher. Independent study courses must be under the supervision/direction of a faculty member with appropriate qualifications for the course content and must be guided by an approved research or project plan. Independent study courses must follow the prescribed Independent Study protocol and be approved in advance of enrollment. The independent study course must be

appropriately designated as such in the *Catalog*. Independent study courses should not be used as a mechanism to teach a course not offered in a given semester or as a substitution for program requirements, though they may, with appropriate approval, fulfill such requirements. Independent study courses are not intended to be a mechanism for enrolling in a course for which a student would otherwise be ineligible. Tuition and fees for independent study courses are computed at the same rate as other regular on-campus courses.

### SERVICE LEARNING

Courses that have been officially recognized as including service-learning within their curriculum are designated with the letter “S” following the course prefix and number. Service-learning is defined as:

An academic experiential educational method in which students participate in an organized service activity that meets identified community needs and reflects on the service activity in such a way as to:

- gain further understanding of course content,
- develop critical thinking skills, and
- develop an enhanced sense of civic responsibility

Students will be required to participate in at least 5 hours of community service per credit hour of course credit.

### SPECIAL TOPICS COURSES

Special topics courses are designed to offer the opportunity for students to study specialized areas within a discipline. These courses are created with normal class enrollment expectations. The topic of study is designated by the course section title, and may or may not vary with each offering. Students may repeat a special topics course (for the purpose of earning additional course credit) only if the specific course title is different with each subsequent enrollment.

### STUDENT SUCCESS SEMINARS

Every student seeking a baccalaureate degree or Associates Degree in General Studies (AGS) must complete a 1-3 credit Student Success Seminar.

- Full time students must complete the Student Success Seminar during their first semester.
- Part time students are strongly encouraged to complete the Student Success Seminar during their first semester, and must complete it within their first 18 credits.
- Students who earn a grade of “W,” “F,” or “FN” in a Student Success Seminar must repeat the course the following term.
- Transfer students who have 30 or more transfer credits upon admission to ECU may have this requirement waived. (Some majors require all students to take a Student Success Seminar, regardless of transfer status.)

## DECLARING A PROGRAM OF STUDY

### CHANGING MAJOR/MINOR/CONCENTRATION

Because changing majors generally lengthens students’ time to degree, students are limited to changing their major only one time per year.

Once a student has applied to graduate she/he is expected to follow her/his degree plan that has been certified by a college graduation expert.

Students may declare or change their currently declared major, minor, or concentration, after careful review and advisement by completing the appropriate form and obtaining the written approval of the department chair or advisor of their desired new program. (Read below regarding programs that have specific entrance requirements).

The “Declaration of Program of Study” form is available through [www.forms.eku.edu](http://www.forms.eku.edu), as well as the Registrar’s website. When the requested change is received by the Registrar’s Office it will be processed, and a new advisor will be assigned by the Office of University Advising within 10 business days.

Students who request a change of major will be moved into the current program for the desired major, per the Catalog in force at the time the request was received. The student will be subject to all program and University graduation requirements, including General Education, as listed in the current Catalog.

Some programs of study require specific admission criteria, and have a formalized admission process. These programs require a separate application for admission. Please refer to the program requirements section of this catalog to determine whether a program has a specific admissions processes or criteria.

When declaring a major, all degree-seeking students shall declare as a first major an ECU degree program, or a university certificate if that is the student’s only educational goal.

## DEGREE AUDIT

DegreeWorks is a degree audit report available to students and advisors online via EKUDirect (student web and faculty web). It is an audit which shows the requirements for a student’s program and how completed and in-progress courses apply to that program. Students should contact their academic advisor if they have questions concerning degree requirements or their DegreeWorks report. Questions can also be emailed directly to the Degree Works programmers at [reg.dgw@eku.edu](mailto:reg.dgw@eku.edu)

**Curriculum Guides-Academic Plans:** Curriculum guides for each program are printed in this catalog and part of the DegreeWorks Academic Planner. All students should create an academic plan in DegreeWorks, maintain and follow that plan. Completion of the program will vary according to student status (i.e. transfer students, developmental students) and student load each semester. To make timely progress toward a degree full-time students are expected to earn at least 15 credit hours per semester.

Colleges will make available to students through appropriate advising any additional non-curricular requirements that apply to the specified major.

## DEGREE INFORMATION AND REQUIREMENTS

### EKU ACADEMIC RESIDENCY REQUIREMENT

A minimum of 25% of coursework applied toward the completion of any major core requirements, minors, and/or ECU certificates must be earned at ECU.

### CATALOG

For all graduation requirements, including general education,

students will be governed by the Catalog in use at the time they enter the University or declare a new major. Each student has a catalog year associated with their student record, designating the academic year for the *Catalog* dictating their program, General Education, and University graduation requirements. The catalog year for each student may be found on the student's DegreeWorks degree audit. If in a subsequent year any graduation requirements change, students may elect to complete the later requirements by requesting the Registrar's Office move them to the current *Catalog*. Students who stop out for more than two years will meet all graduation requirements in place at the time they reenroll. Students who stop out for fewer than two years may elect to be returned to the graduation requirements in place at the time they declared their major by submitting a request to the Registrar's Office.

The above refers only to curricular requirements. With respect to policy requirements, all students are governed by current University policies that have been approved by appropriate University committees.

### COMPREHENSIVE ASSOCIATE DEGREE REQUIREMENTS

To qualify for an associate degree, students must satisfy the following requirements:

1. Complete all requirements in the degree program as established by appropriate University committees.
2. Complete University academic requirements, including basic skills proficiencies in English, reading, and mathematics; any applicable PCC<sup>a</sup>; general education<sup>b</sup>; and a student success seminar, as established by appropriate University committees for each degree program.
3. Complete a minimum of 60 semester credit hours.
4. Earn a minimum grade point average (GPA) of 2.0 on all college-level work taken at Eastern Kentucky University. In addition, transfer students must earn a minimum GPA of 2.0 on the combined transfer work and Eastern Kentucky University work.
5. Earn a minimum of 15 semester hours through Eastern Kentucky University.
6. Earn the credits applicable to major and supporting degree requirements within eight years prior to the date the degree is awarded. Credits more than eight years old may be used to meet general education, upper division, and free elective areas. The college dean of a student's major may validate individual eight-year-old (or older) coursework as meeting major and/or supporting requirements.
7. Students enrolled in MAT 090 are not permitted to enroll in any course with the following prefix: AST, BIO, CHE, CIS, CNM, CSC, FOR, GLY, NAT, PHY, SCI or STA.

#### Degree Requirement Notes:

<sup>a</sup>The Kentucky PreCollege Curriculum (PCC) is defined and prescribed by the Kentucky Council on Postsecondary Education (CPE). Six hours of the same World Language must be completed within 24 credit hours of enrollment. Applies to students under 21 when first admitted, and/or transferred into EKU fewer than 24 credit hours. See Degree Works to confirm whether a student has a PCC requirement. PCC deficiencies must be remediated within the first 24 hours of enrollment, excluding developmental hours.

<sup>b</sup>General Education Requirements for Associate Degrees: Students in associate degree programs must earn a minimum of 15 hours in courses approved for general education. These hours must include ENG 101 and ENG 102 or their equivalent. The nine additional hours must include one course in each of the following General Education Elements: 3A, or 3B (Arts and Humanities); 5A, or 5B (Social and Behavioral Sciences); and 2 (Mathematics), or 4 (Natural Science with Lab).

### COMPREHENSIVE BACCALAUREATE DEGREE REQUIREMENTS

To qualify for a baccalaureate degree, students must satisfy the following requirements:

1. Complete all requirements in the degree program as established by appropriate University committees.
2. Complete University academic requirements, as established by appropriate University committees for each degree program, that includes:
  - A) Basic skills proficiencies in English, reading and mathematics<sup>a</sup>, and any applicable PCC<sup>b</sup>,
  - B) Student Success Seminar (if applicable)
  - C) A writing-intensive course,
  - D) One of the university approved Wellness courses,
  - E) General Education,<sup>c</sup> and
  - F) The Applied Critical and Creative Thinking (ACCT) requirement<sup>d</sup>.
3. Complete a minimum of 120 semester credit hours, with at least 42 hours at the 300 level or above.<sup>e</sup>
4. Earn a minimum grade point average (GPA) of 2.0 on all college-level work taken at Eastern Kentucky University. In addition, transfer students must earn a minimum GPA of 2.0 on the combined transfer work and Eastern Kentucky University work.
5. Earn a minimum of 30 semester hours through EKU if the student is pursuing a 120 hour degree program. If the degree program sought requires greater than 120 semester hours, the minimum EKU residency credit shall be no less than 25% of the total program hours.<sup>f,g</sup>
6. Earn the credits applicable to the major and supporting degree requirements within eight years prior to the date the degree is awarded. Credits more than eight years old may be used to meet general education, upper division and free elective requirements, as well as major requirements for the General Studies degree. The college dean of a student's major may validate individual 8-year-old courses to count for non-General Studies major and supporting requirements.<sup>h</sup>

#### Degree Requirement Notes:

<sup>a</sup>Students enrolled in MAT 090 are not permitted to enroll in any course with the following prefix: AST, BIO, CHE, CIS, CNM, CSC, FOR, GLY, NAT, PHY, SCI or STA.

<sup>b</sup>The Kentucky PreCollege Curriculum (PCC) is defined and prescribed by the Kentucky Council on Postsecondary Education (CPE). Six hours of the same World Language must be completed within 24 credit hours of enrollment. Applies to students under 21 when first admitted, and/or transferred into EKU fewer than 24 credit hours. See Degree Works to confirm whether a student has a PCC requirement. PCC deficiencies must be remediated within the first 24 hours of enrollment, excluding developmental hours.

<sup>c</sup>General Education Requirements for Baccalaureate Degrees: The General Education Program consists of 36 hours of course work in six Elements: 1. Communication, 2. Mathematics, 3. Arts and Humanities, 4. Natural Sciences, 5. Social and Behavioral Sciences, and 6. Diversity of Perspectives and Experiences. Students must earn the specified number of hours in each of these course categories. See the General Education section in this Catalog for more detailed information about general education requirements.

<sup>d</sup>Individual major programs decide which courses or experiences can be used to satisfy the ACCT requirement. Refer to program descriptions in Section 5 of this catalog for more information.

<sup>e</sup>Hours Required for a Baccalaureate Degree: The University requires a minimum of 120 semester hours to earn a baccalaureate degree. In most cases this minimum is also the maximum. While there is no upper limit beyond 120 semester hours which may be set as a particular major program's requirements, each program or program change is approved through the University's committee system and any program requiring beyond 120 semester hours will require substantiation of additional requirements.

<sup>f</sup>According to AACSB International business accreditation standards, students enrolled in University baccalaureate degree programs, other than those within the School of Business, will not receive credit toward their degrees for more than 25

percent of their undergraduate programs in credit hours in courses offered through the School of Business and/or business courses (courses commonly taught in school of business) transferred from other colleges and universities or taken from other units within Eastern Kentucky University. Students who desire to take business courses are encouraged to enroll in the Business minor.

<sup>g</sup>Degree programs offered by the College of Business and Technology have more stringent residency requirements. Please refer to degree requirements in the College of Business and Technology section of this Catalog.

<sup>h</sup>The college dean of a student's major may validate individual 8-year-old courses to count for non-General Studies major and supporting requirements.

## DEGREE PROGRAM DEFINITIONS

**A. Major (Baccalaureate):** Thirty semester hours is the minimum requirement for a baccalaureate degree major. A course that meets a core program requirement for a major may also fulfill, at the same time, a University graduation requirement; with the exception that a course cannot be used to meet both a major core requirement and a general education area.

**B. Concentrations (Baccalaureate):** A concentration (synonymous with an option, emphasis, specialty or track) represents a collection of courses offering a student the opportunity to develop a focus within the broader area of their major program. There will be a common grouping of courses (a minimum of 21 semester hours) shared by the major core and its associated concentration. The concentration adds onto the major core an additional 12-18 semester hours of specified coursework to develop the desired expertise. Concentrations may, or may not, be a required component of the program of study. Deviations from the 12-18 hour concentration may be granted by the Council on Academic Affairs when unusual program requirements dictate.

**C. Minor (Baccalaureate):** Minors require a minimum of 18 semester hours. A list of specified courses may be added for students seeking a teaching certification extension in the minor. A student may not declare a minor with the same subject matter (course prefix) as his/her declared major program of study. Students seeking only an associate degree may not declare a minor. The same course credit may be applied for both major core or supporting requirements and a student's minor. A minor course that is a required part of major core cannot also be used to fulfill a general education requirement.

**D. Supporting Courses:** Supporting courses are courses that are outside the degree program that provide necessary skills or knowledge. A course cannot be listed as a supporting course if it is offered by the home department of the degree program, unless it is tied by prefix to a different degree program. Supporting courses that are approved as general education courses may be used to fulfill both supporting and general education requirements.

### CONCURRENT (DUAL DEGREES) AND SUBSEQUENT DEGREES

**Concurrent Degrees:** A student may qualify to earn two degrees concurrently (dual degrees) by completing all requirements for both degrees, including major, supporting, and general education requirements. Courses used in one degree program may also be used in the other. The student has the responsibility to file a separate graduation application for each degree being sought. If the two degrees are in the same college, the student must file two applications in the office of the college dean. If they are different colleges, one application must be filed in each dean's office. Please refer to the "Application for Graduation" section of this catalog for more details.

**Concurrent Associate Degrees:** If two 60 credit hour associate degrees are pursued concurrently, a minimum of 75 credit hours must be earned. If one or both of the associate degrees has program requirements in excess of 60 hours, the degree program

with the highest number of required hours will be considered the student's first associate degree, and the hours required to earn the second associate degree shall be 25% of the second program's total hours. Students seeking only an associate degree may not declare a minor.

**Concurrent Baccalaureate Degrees:** If two 120-credit-hour baccalaureate degrees are pursued concurrently, a minimum of 150 credit hours must be earned. If one or both of the baccalaureate degrees has program requirements exceeding 120 hours, the degree program with the highest number of required hours will be considered the student's first baccalaureate degree, and the hours required to earn the second baccalaureate degree shall be 25% of the second program's total hours.

**Concurrent Baccalaureate and Associate Degree:** The minimum number of hours required for concurrently earning an associate and a baccalaureate degree is the number required by the baccalaureate degree. Associate degree earners are expected to complete that degree prior to completion of their baccalaureate degree. Specifically, Associate of General Studies (AGS) seekers must declare, and earn, the AGS before graduating with any baccalaureate degree.

**Subsequent Degrees:** Students having earned one degree, either from Eastern Kentucky University or from another regionally accredited institution, may subsequently pursue an additional degree, either associate or baccalaureate, by completing all requirements of the subsequent degree, including major, supporting, and general education requirements. For students who earn their first degree at ECU, hours earned prior to the awarding of a first baccalaureate or associate degree may be counted toward the minimum required to earn a subsequent baccalaureate or associate degree.

Students must earn at least 16 approved semester hours at ECU for an associate degree beyond those required for the earlier degree. A subsequent baccalaureate degree requires at least 32 approved hours earned at ECU beyond those required for the earlier degree.

Students who have completed a previous degree elsewhere and apply to Eastern Kentucky University, should have official transcripts from the institutions previously attended sent to Eastern Kentucky University's Admissions Office.

### MULTIPLE MAJORS/MINORS

Students pursuing baccalaureate degrees other than General Studies may consider more than one major and/or minor. All requirements for the declared major and/or minor must be completed by the time the initial degree is awarded. Associate degrees are not eligible for minors or second/multiple majors.

Students are required to declare a primary degree program (specific baccalaureate degree and first major). This program of study is that which will be recorded on the diploma, and which will determine the degree awarded by the University. A second or additional major represents a further emphasis of study and shall be designated on the student's academic transcript. Earning a second or other major, however, is not to be considered as completion of an additional or distinct degree program.

**Double Majors vs. Dual Degrees:** A student pursuing one degree, but two major areas of study, is said to have a "double major". To complete a double major the student must earn all hours required by the degree program of their first major plus any additional course(s) needed to fulfill only the major and supporting requirements of the second major. A student who fulfills all requirements for two complete degree programs, earning no fewer than 150 credit hours is said to be a "dual degree candidate". Students who wish to earn two baccalaureate degrees (dual degrees) should refer to the Concurrent Degree policy. Note that associate degrees are not eligible for minors or second/multiple majors.

**Awarding Subsequent Majors/Minors:** ECU does not

award a subsequent major/minor/concentration after an initial degree is conferred unless the student completes a subsequent degree program. While multiple majors, minors and certificates earned by a student are formally posted to the student's academic transcript, only the degree earned and one major will be printed on the diploma. Students interested in pursuing multiple majors, minors, certificates and/or concentrations should contact the Office of Academic Advising and Retention, a college advising office, or the department of interest for additional information.

## ENROLLMENT AND CLASS SCHEDULE

### ACADEMIC LOAD

The limitations below apply to all enrollments or combinations of enrollments for the term specified, including campus classes, regional campus classes, online study, and enrollments at other institutions. The Registrar will not record credits beyond these maximums.

**Enrollment in Fall/Spring Terms:** To make timely progress toward their degree, **full-time students are expected to earn 15-16 credit hours each fall/spring semester or 30 credit hours per academic year (Fall/Winter/Spring/Summer).** Full-time student status requires a minimum of 12 credit hours during a fall or spring term. Students carrying fewer than 12 credit hours are considered part time. A student who has established a superior record may be permitted to enroll for more than 18 hours by the dean of the college of the student's first major. The absolute maximum load for an undergraduate student is 21 credit hours.

**Enrollment in Summer Term:** For enrollment verification and financial aid during the summer semester, an undergraduate student must be registered in at least 12 credit hours to be considered a full-time student. Enrolling in more than 12 credit hours is restricted to students who have established a superior academic record. Permission to enroll in more than 12 credit hours during the summer must be granted by the dean of the college of the student's first major. The absolute maximum summer enrollment is 15 hours.

**Financial Aid and Enrollment Verification:** Please note that, for financial aid, enrollment verification, and loan consideration, full-time status requires a minimum of twelve semester hours in any academic term.

Note: Students who are not on good standing academically have lower maximum enrollment limits. Please refer to the section on Minimum Academic Standards.

### CLASS SCHEDULE CHANGES

**Dropping a Class - 1st Week of Class:** If students wish to add courses to their schedule, they must do so by the date published in the Colonel's Compass for that term. If a student drops a course by the end of a term's Schedule Change Period (add/drop), the course will not appear on the student's grade report or transcript. Course drops are executed online through EKUDirect.

### Late Enrollment

Students who wish to add a class to their schedule after the published deadline to do so, must secure the permission of the instructor of the course, the department chair, and the dean of the college offering the course. The student shall complete the Request for Late Enrollment and submit it to the instructor of the class.

If enrollment is approved, the instructor passes the form onto the appropriate department office for further processing. The Request for Late Enrollment form is available on the Registrar's website.

NOTE: University holds preventing registration do not constitute an excuse for attending class without being officially enrolled. Students are expected to communicate with the office which placed the hold on their account and secure permission to be enrolled – BEFORE the deadline to add a class online.

### WITHDRAWING FROM A CLASS

See Withdrawal section on page 63.

### FINAL EXAMINATIONS

If a student is scheduled for more than three final examinations on the same day, the student may request, through the college dean, that the fourth examination be rescheduled.

### FIRST DAY OF CLASS ATTENDANCE

All instructors are expected to participate in the First Day Attendance-Faculty Drop process. For information regarding faculty dropping students for missing the first day of class, see Class Attendance section on page 45 of the Catalog.

### FEE FOR INITIAL REGISTRATION AFTER CLASSES BEGIN

Students whose initial registration for the term does not occur until on or after the first day of class will be assessed a non-refundable \$50 late initial registration fee.

## GENERAL EDUCATION REQUIREMENTS

The mission of general education is to promote learning that is central to the intellectual pursuits associated with our educational programs and to enable students to make informed choices about matters of public and personal significance in a diverse, democratic society and global community. The general education program helps students to become informed, independent thinkers by developing competencies in communication, quantitative analysis, and critical thinking by helping them understand and appreciate the diversity of culture, individuals, the natural environment, and the global society. Courses that are used to satisfy the program's Major Requirements cannot also be used to satisfy General Education requirements.

The General Education Program consists of 36 hours of course work in six elements: 1. Communication, 2. Mathematics, 3. Arts and Humanities, 4. Natural Sciences, 5. Social and Behavioral Sciences, 6. Diversity of Perspectives and Experiences. Students must earn the specified number of hours in each of these Elements.

Some courses may be listed in more than one General Education category. However, no single course can be used to satisfy more than one General Education requirement.

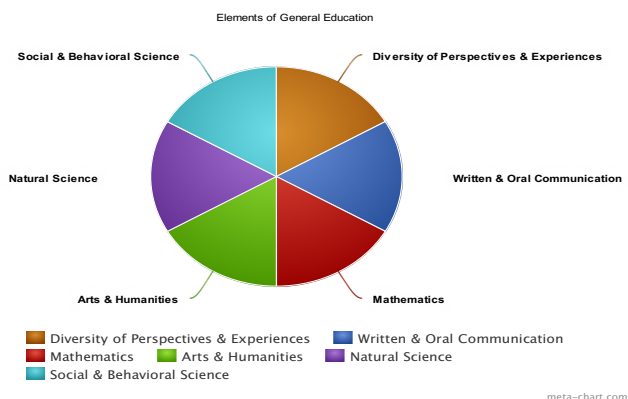

### Changing General Education Requirements

The following General Education program is highly integrated with University requirements, therefore students moving into the newest catalog will be held to these General Education and University graduation requirements, as well as major requirements as listed in this Catalog.

## SECTION FIVE - GENERAL ACADEMIC INFORMATION

Students will have one catalog year governing all graduation conditions. To see how a Catalog change will impact their progress toward degree, students are expected to first run a “What-If” DegreeWorks audit and study the impact of a Catalog change. Once a student has moved forward to a new catalog year they cannot move back to a previous year.

The courses listed award three hours of credit, unless a number appears in parentheses following the course name. This number represents the hours awarded for such courses. Courses with an “L” are laboratory classes and one credit hour unless otherwise noted. Course numbers followed by (^) have prerequisites or other restrictions on enrollment. Refer to Course Descriptions in Section Seven of this Catalog for specific restrictions.

## GRADES

**Auditing Courses:** A student may audit a course (i.e., take it without credit) with the permission of the instructor and the dean of the college involved if the course has been approved to be taken Audit. The Registrar's Office can verify whether a course is approved to be taken as Audit. After registering for the course as usual, students must obtain the "audit a course" form from the Registrar's Office, obtain the appropriate signatures and return it to that office, Whitlock 239. Fees are the same as for courses taken for credit. Students enrolled for audit must comply with the attendance policy of the instructor or no course entry will be made on their academic record.

**Changes to Transcript:** Once a degree has been posted to the transcript, changes will not be made to courses or grades that were earned prior to the posting of the degree. Students have one

calendar year in which to bring to the Registrar's attention an error on their transcript. This does not include any challenge based upon an unsatisfactory grade. Refer to the student handbook for the appropriate process for grade challenges (<http://studentaffairs.eku.edu/studenthandbook>).

**Credit/No Credit (CR/NC) Coursework:** The grade of "CR" (credit) is awarded as recognition of appropriate scores on AP, IB, CLEP or other proficiency exams and prior learning assessment. International coursework transferred to EKU will be recorded as CR/NC. Existing EKU students who complete an EKU-approved/sponsored study abroad program, and have a completed Study Abroad Pre-Approval form on file in the EKU Office of International Student and Scholar Services, may receive a regular letter grade for the international coursework taken while participating in the sanctioned study abroad experience.

Undergraduate course work with CR grades may be used to fulfill major, minor, certificate, supporting program, and/or concentration area requirements, (unless explicitly prohibited by the appropriate academic department), to a maximum of 20% of the credit hours required for the academic program. Exceptions to this limit may be authorized by the Dean/Associate Dean of the college offering the program. There is no limit to the number of CR credit hours used to meet general education areas or to serve as free electives.

**Developmental College Readiness Coursework (Zero-Level):** Each developmental course is numbered 090 or 095. These are institutional-credit courses. Credit hours for a zero-level course do not apply toward graduation; however, zero-level courses do count toward enrollment status for purposes of financial aid eligibility and full-time student status. Grades for 090 and 095 developmental courses include A, B, C, and F. (Note: MAT 098 is a zero-level course but is not a developmental course.)

**Equivalent Courses:** Equivalent or cross listed courses are those in which credit will be earned for just one course. Equivalent courses may or may not be cross-listed in the schedule. Should there be a second enrollment in an equivalent or cross listed course, the student will either be disenrolled from the course or have credit removed at the end of the semester. Upon a change of major, permission for enrollment and credit for the second course, when required in the new major, must be obtained in advance from the college dean of the new major. In that instance, credit for the first taking will be removed.

**Failure Due to Academic Dishonesty (FX):** This grade is a sanction for repeated violations of the Academic Integrity (AI) Policy. The "FX" grade denotes failure in the course due to academic dishonesty and is a permanent grade reflected on the student's transcript. A student assigned an "FX" grade will not be permitted to drop or withdraw from the course. A student who wishes to repeat a course in which an FX grade was applied may do so for the purpose of rehabilitating his/her GPA. The course may only be repeated at EKU. Repeating an FX course will not remove the FX grade from the student's transcript.

**Grade Appeals:** If a student believes that the final grade assigned in a course is unjustified, that student should consult the instructor seeking a satisfactory explanation. If, after doing so, the student still feels that the grade is unjustified, the student may appeal the grade, in writing, to the department chair. A written appeal must be filed with the chair within 30 days after the beginning of the next semester (exclusive of summer session).

Refer to the University Handbook for Students for the complete policy concerning grade appeals.

**Grade Changes:** All grade changes must be made by the following deadlines: for fall semester grades—the last day of regular classes (prior to finals week) for the following spring semester; and for spring and summer semester grades—the last day of regular classes (prior to finals week) for the following fall semester.

**Grade Point Average (GPA):** The GPA is a calculation of the sum of total quality points earned, divided by the total attempted course credits. Quality points are determined by multiplying the numerical value for each grade earned, times the credit hours for the course.

Each student has a cumulative GPA reflecting his/her overall academic performance, as well as a term GPA indicating achievement for the current semester. Grades for all non-zero level EKU and transfer courses are included in a student's overall GPA calculation. The GPA is used to measure a student's academic standing. Successful completion of any degree or certificate program requires a minimum of a 2.0 overall as well as institutional GPA. The official EKU GPA is truncated at two decimal places; GPAs are never rounded numbers.

Each student can view his/her GPA through his/her secure online EKUDirect self-service account. In EKUDirect the GPA appears on the Official Grade Report, the student transcript, and on each student's DegreeWorks degree audit. Each student is expected to monitor their GPA through these sources. Note that a separate GPA calculation is done for determining University graduation honors (also referred to as Latin Honors). Refer to the Latin Honors section of this catalog for rules regarding Latin Honors GPAs.

**In-Progress Grades:** Instructors may assign a grade of "IP" in certain approved courses in which it might reasonably take students more than a single semester to complete all requirements. A student assigned an "IP" grade for internship, practicum, or self-paced courses must complete requirements within the calendar year after the "IP" is awarded to receive credit. If requirements are not completed by the deadline, the Registrar will change the "IP" grade to "NC" (NO CREDIT), and the student must register again for the course to receive credit.

**Incomplete Grade Contract:** When a student has extenuating circumstances that impede him/her from completing a course, an incomplete grade may be awarded. The incomplete grade cannot be used simply because a student has failed to complete the work in the course or as a means of raising the student's grade by doing additional work after the grade report time. An Incomplete Grade Contract may be initiated by a student (undergraduate and graduate) or faculty member prior to the last day of class when a student wishes to pursue an incomplete grade. If the instructor agrees that the student has extenuating circumstances beyond his/her control and the instructor agrees to assign an incomplete grade, the instructor will identify on the Incomplete Grade Contract all outstanding assignments and/or conditions needed to complete the course.

A degree cannot be awarded to a student with any incomplete EKU courses on his/her record. Any student who is a pending graduate with unresolved EKU incomplete grades ("I") will be given the choice of either accepting an "F" for the course (or "NC" for unresolved "IP" grades) or being deferred to the next term for graduation consideration.

The following procedure applies when an instructor has agreed to assign a grade of "I" for students who are unable to complete the course because of extenuating circumstances.

1. On the Incomplete Grade Contract, the instructor will identify all outstanding assignments and/or other conditions needed to complete the course. The instructor will secure all the necessary signatures. The student's signature is not required for the contract to be enforced.
2. The Incomplete Grade Contract must be received by the Registrar's Office no later than 30 days past the deadline for final grade submission. While the faculty will be able to submit the "I" grade through the online grade submission process, any "I" grade that is not accompanied by an Incomplete Grade Contract within 30 days of the advertised final grade submission deadline will be converted to an "F."
3. A copy of the contract will be mailed to the student by the Registrar's Office, giving the student a 10 day window in which to decline the incomplete grade.
4. Any student receiving a grade of "I" must coordinate with the instructor to satisfy all outstanding work. However, all outstanding work must be completed by the student and a Grade Change form must be submitted by the instructor to the Registrar's Office by the last day of classes of the regular semester (fall/spring) immediately following the term in which the incomplete grade was originally assigned. If a grade change is not submitted by the established deadline, the incomplete will automatically default to a failing ("F") grade.
5. If, due to extenuating circumstances, a student is unable to complete the contracted course work to fulfill the incomplete course by the established time line, the student has the option of requesting a one-time, one semester extension to the incomplete deadline. The student must initiate the request through the instructor before the established deadline. Approval of the extension of an incomplete grade is not automatic and depends on the student's unique circumstances.

**Letter Grades:** Grades, which are represented by letters, are given point values as indicated:

GRADE	MEANING	GRADE POINTS PER HOUR
A	Excellent	4.00
B	Good	3.00
C	Average	2.00
D	Poor	1.00
F	Failure	0.00
FN	Failure-Student Stopped Attending Class	0.00
FX	Failure-Academic Dishonesty	0.00
I	Incomplete	0.00
IM	Incomplete Due To Military Activation	0.00
P	Passing	0.00
S	Passing	0.00
U	Failure*	0.00
UN	Failure*-Student Stopped Attending Class	0.00
W	Withdrawal (Official)	0.00
WM	Withdraw Due To Military Activation	0.00
AU	Audit	0.00
CR	Credit Only	0.00
IP	In Progress	0.00

NC	No Credit	0.00
NR	Not Reported	0.00

*\*FN/UN: Students who stop attending/participation in online courses and do not resume participation have unofficially withdrawn from the class. This act may have significant financial aid repercussions. EKU is required by the U.S. Department of Education to provide a last date of attendance/participation for such students.*

Throughout this Catalog, specific grade requirements are to be interpreted precisely as stated. Thus, if a requirement specifies that a grade of at least “C” is required, a “C-” will not satisfy the requirement. If it is intended that “C-” is to be allowed, “C-” will be listed rather than “C.” This applies to all specific grade requirements.

The grade point average (GPA) is based on those courses in which a student earned grades of “A,” “B,” “C,” “D,” “F,” or “U.”

**First-Time Freshmen Mid-Term Grade Review:** See Academic Standards, 45.

**Submission of Mid-Term Grades:** Faculty will provide mid-term grades via the Banner (EKU Direct) system for all students in undergraduate-credit, full-semester courses by the end of the eighth week. In the case of non-standard courses, faculty will enter mid-term grades by the mid-point of the course and before the last day to withdraw from the course, as published on the Colonel’s Compass.

Mid-term grades are not required for the following types of classes: non-gradable laboratory sections, co-op, practicums, and internships.

**Military Activation:** A student who is called to active duty or whose spouse/legal guardian is called to active duty may be unable to complete courses in which they enrolled. If military activation affects the ability of a student to complete a course, the University provides several options, including withdrawal from the course and/or University or taking an incomplete and completing the course(s) following completion of active duty.

A student who volunteers for military service during a semester makes the decision to join the military instead of being a student, and does so while the semester is in progress, (instead of completing the semester and then joining), is not eligible for Military Withdraw, Military Incomplete, or to receive a grade early in the semester. The spouse of a student who volunteers for military service and cannot complete a semester will not be eligible for Military Withdraw, Military Incomplete, or to receive a grade early in the semester.

Students with military status (Active, Reserves, National Guard) at the beginning of the semester, or spouses of such students, finding it necessary to leave the University because of required active military duty must complete one (1) of the following:

Option 1– Receive a Grade

1. When military activation occurs after the 12th week of the semester, the instructor has the option of assigning the student a grade in the class based upon work completed. That grade would be submitted during normal final grade submission, and no additional work would be required of the student.
2. The request for assignment of a grade based on coursework completed must be made in writing and must be approved by the Chair of the Department and the Dean of the College in which the course(s) is offered. A copy of activation papers must be attached.

Option 2 – Receive an Incomplete Due to Military Activation

1. The affected student will petition the faculty members

to request an assignment of a grade of “IM” in course(s) currently enrolled.

2. If the instructor feels that the portion of the semester remaining, and volume of uncovered material is such that it can be made up in a reasonable amount of time and effort, a grade of “Incomplete for Military Activation” may be given.
3. The instructor completes an Incomplete Grade Contract and notes on the contract that this is due to military activation. The student shall provide a copy of the military orders and the instructor must ensure that a copy of the student’s military orders is attached to then Incomplete Grade Contract. Without a copy of these orders the student cannot receive the “Incomplete for Military Activation” grade.
4. The Incomplete Grade Contract shall be processed as normal.
5. Once the Registrar’s Office receives a copy of the military orders an “IM” grade will be recorded.
6. The student has two (2) years from the date of military discharge to complete an “IM” grade. The student, upon completion of active military duty, must follow up with the faculty member. If the faculty member is no longer with the University or is on leave from the University, the student should contact the Department Chair for determining how to fulfill the Incomplete Grade Contract. If the student does not make contact within 2 years of leaving the University, the “IM” turns to a “W.”
7. Upon completion of coursework, the instructor will submit a change of grade form.

Option 3 – Receive a Military Withdrawal from the Course or from the University

1. Students choosing to withdraw from specific courses or from the University must send a letter requesting a withdrawal and enclose a copy of the military activation notification. The letter must include the following information:
  - Student name and Student EKU ID Number
  - A statement that the student wishes to withdraw completely from the University OR listing the individual courses for withdrawal.
  - Student’s signature (mandatory) and the date
2. The Office of the Registrar staff will process the withdrawal which also triggers a 100% refund in all tuition and course fees. Room and board fees will be prorated.
3. If a student requests an incomplete and the faculty declines to grant an “IM,” then the student will have to withdraw. For additional information regarding Military Incomplete status please see the Military Activation Web site at: <http://www.registrar.eku.edu/registration/military/>.

**Pass-Fail (“P” - “F”) Option:** The Pass-Fail option encourages students to take courses they might otherwise avoid because of lack of background or concern for lowering their grade point average (GPA). Not all courses are approved to be taken Pass-Fail. The Registrar’s Office can verify whether a course is approved to be taken as Pass-Fail.

Students who have earned 30 or more semester hours of credit with a minimum GPA of 2.0 may choose the Pass-Fail (“P” - “F”) option for a total of 15 hours of free electives. These hours must be exclusive of general education, major, minor, and other course requirements for graduation. Eligible courses must belong exclusively to the category, free electives. Hours passed under the Pass-Fail option will not be used in the computation of GPA’s; however, hours failed (“F”) will be used.

Students may choose the Pass-Fail option for one course per semester with a maximum of five credit hours per semester.

Students may repeat a course using the Pass-Fail option only if the previous taking was also Pass-Fail.

Students may select the “Pass-Fail” option by completing the Audit/Pass-Fail registration form, available from the Registrar’s Office. Students may change to or from the Pass-Fail option by the date specified each semester in the Colonel’s Compass. The student must submit to the Registrar’s Office the completed form as authorization to change their registered course to Pass/Fail.

**Repeating Courses:** Students may repeat college-level courses. In those courses, the highest grades earned will replace a lower grade in calculations of the student’s term and cumulative GPA. This grade replacement occurs irrespective of whether the lower grade was earned in the original taking of the course or in a repeat enrollment.\*

The repeated course and grade will still appear on the transcript but with a notation indicating whether the grade is included in, or excluded from, the student’s GPA. If a student attempts to repeat a course and replace the grade but then withdraws from the course, that course attempt will not be counted among those for which grade replacement is available.\*\*

Students who repeat a course in which they earned a failing grade, and fail the course again, will have the most recent failing grade included in the GPA.

A student may enroll in the same course for a third time (second repeat) only under extraordinary circumstances and with permission of the dean of their major. Students seeking permission for a third enrollment shall first meet with an academic or college advisor to review why they have not previously been successful in the course, and to assess whether the student is in an appropriate major.

For GPA calculation, a grade of “S,” “CR,” “NC” or “P” will not replace a grade of any “C,” “D,” “FN,” “F” or “FX” (earned in normal grading) grades. A “P” will replace an “F” only when the “F” was earned under the Pass-Fail option. An “S” will replace a “U” or “UN” when earned under the Satisfactory-Unsatisfactory grading option.

*\*Some professional programs (e.g. Nursing and Occupational Science) have licensure, regulation, and accreditation requirements with restrictive time limitations for applying a course toward a degree. In those programs the best grade for a course may be excluded because it is outside the required time frame. Students should speak with a major advisor or refer to the relevant portion of this catalog to determine if such time restriction apply to any required course for their major.*

*\*\*Some courses may not allow the best grade to stand if the student has been required to repeat a corequisite lecture, clinical, or lab experience. In those situations it is the most recent grade earned from both co-requisite courses that will be used to calculate the term and cumulative GPA. Courses with these requirements will be identified as such in individual course descriptions found in the back of this catalog.*

#### **Satisfactory-Unsatisfactory (“S” - “U”) Grading System:**

Some courses are approved to be taught exclusively on a “Satisfactory” (“S”) or “Unsatisfactory” (“U”) basis. Each student enrolled in the class will receive either a grade of “S” or “U.” Hours passed under the Satisfactory-Unsatisfactory option will not be used in the computation of GPA’s; however, hours failed (“U”) will be used.

#### **NON-TRADITIONAL ACADEMIC CREDIT**

Students who have educational experiences other than university instruction may attempt to earn academic credit through the following learning assessment mechanisms.

#### **A. ACE CREDIT**

Based upon recommendation of the American Council on Education (ACE), EKU will award credit to individuals who have completed certain non-university experiences, such as workplace or military training. Work evaluated on an ACE transcript as Lower Division will be recorded as 100- or 200-level only. Work evaluated on an ACE transcript as Upper Division will be recorded as 300-level credit. EKU will not award credit from an ACE transcript unless the work has been evaluated as Lower Division or Upper Division. Submit appropriate paperwork to the Registrar’s Office. Students can have a copy of their ACE transcript sent to the Registrar’s Office, Whitlock CPO 58, 521 Lancaster Avenue, Richmond, KY 40475-3158. Students can petition for specific course credit by first contacting the Student Outreach & Transition Office.

#### **B. CREDIT-BY-EXAMINATION**

1. Credit-by-examination is credit given through documentation and evaluation of learning, knowledge, or skills-based experience.
2. Following are the conditions which apply to receiving credit-by-examination:
  - a. Only admitted and active degree seeking EKU students may have credit-by-examination recorded onto an EKU Transcript.
  - b. Academic credit earned by external examinations and challenge tests (such as AP, IB, CLEP®) shall not be considered as credit earned at EKU and will not apply toward the residency credit requirement for an associate or baccalaureate degree.
  - c. Only credit earned and recorded within a five year window will be considered for EKU academic credit.
  - d. Credit-by-examination earned at a prior institution and submitted to EKU for review within five years of the exam date will be considered for academic credit.
  - e. Credit awarded through credit-by-examination which is general in nature, not course-specific, has no inherent guarantee of meeting specific EKU degree requirements, since these are program and college specific decisions.
  - f. Credit earned by examination is recorded as “CR” and is not assigned a letter grade; it has no effect upon the overall GPA.
  - g. Proficiency examination credit recorded on an official transcript is eligible for transfer to EKU if it is from a nationally-recognized standardized test, earned at a college or university from which EKU accepts transfer credit, or earned at an EKU-recognized testing site.
  - h. Departmental or institution specific challenge tests presented on the official transcript of an institution from which EKU accepts transfer credit may be accepted in transfer - upon the review and approval of the academic department most closely related to the subject matter.
  - i. A student may attempt to earn credit-by-examination in a course only once in a six-month period.
  - j. A student will not receive academic credit for a course-specific College Level Examination Program (CLEP®) or departmental examination in an area in which advanced course work has already been completed, and EKU credit recorded.
  - k. EKU students attempting a foreign language CLEP exam at the 100-299 level in their native tongue will not have academic credit awarded by EKU.
  - l. Special fees are assessed for credit-by-examination and must be paid prior to taking an examination. Refer to the Testing

SECTION FIVE - GENERAL ACADEMIC INFORMATION

Office website for fee information ([www.testing.eku.edu/fees](http://www.testing.eku.edu/fees)).

m. Students seeking to have AP or IB credit recorded on their EKU academic record should have score reports sent to the EKU Office of Academic Testing before they have earned their first 30 credit hours at EKU. AP or IB scores submitted for credit will not be given consideration after students have earned 30 credit hours.

3. Eastern Kentucky University credit-by-examination may be earned through any of the following methods:

a) **Advanced Placement Program (APP):**

The Advanced Placement Program consists of courses of study and special examinations open to students in high school. The courses are presented during the student's junior and senior years; and are administered during the month of May. The chart below indicates the manner in which EKU accepts Advanced Placement Program examinations as credit. **b) College Level Examination Program (CLEP®):**

The College Board offers a College-Level Examination Program (CLEP®) that includes tests for various subject areas. These tests recognize a student's comprehensive subject knowledge acquired through independent or prior study. EKU accepts credit for these examinations according to the following guidelines. No credit is given for exams without equivalent courses at EKU. In order to receive credit, a student must complete the Credit-by-Examination form available from the Office of Academic Testing, Whitlock, Room 340. Information about the College Level Examination Program (CLEP®) can be found at [www.testing.eku.edu/lep](http://www.testing.eku.edu/lep). The Office of Academic Testing administers CLEP® tests for currently enrolled EKU students. Please contact 859-622-1281 for testing information. Test administration fee is \$25. (Note: the student will pay a \$80 fee by credit card to CLEP as they take the online test in the Academic Testing Center.). Updates on fees may be found online at [www.testing.eku.edu](http://www.testing.eku.edu).

Eastern Kentucky University recognizes and awards academic credit to admitted active EKU students, per the following table of CLEP examination scores. For more details on CLEP credit-by-examination, and how to register for such exams please refer to [www.testing.eku.edu](http://www.testing.eku.edu).

**c) DANTES (Defense Activity for Non-Traditional Educational Support):**

EKU allows credit-by-examination for some course work through DANTES testing. Credit will be awarded for those examinations listed below when scores are obtained at the indicated levels. Students need to send their official DANTES score report to the Office of Academic Testing in the Whitlock Building, room 327 for processing of credit. A processing fee is required. Information about DANTES examinations is available at [www.testing.eku.edu](http://www.testing.eku.edu).

**d) Departmental Examinations:**

A number of academic departments at Eastern Kentucky University have developed their own examinations for credit as an extension of the CLEP® program. These examinations are similar in nature to the CLEP® exams. EKU does not accept transfer credit coursework given credit through academic department proficiency exams. Enrolled Eastern Kentucky University students interested in attempting to earn credit through departmental examinations should contact the Office of Academic Testing, Whitlock 340. For information on available departmental challenge exams, fees, and procedures for registering may be found at [www.testing.eku.edu](http://www.testing.eku.edu).

**e) International Baccalaureate Credit:**

The International Baccalaureate Organization’s Diploma Programme was created in 1968. It is a demanding pre-university course of study that leads to examinations. It is designed for highly motivated secondary school students aged 16 to 19. The program has earned a reputation for rigorous assessment, much like the Advanced Placement (AP) Program. For information regarding the IB program, please visit the website at [www.ibo.org](http://www.ibo.org). IB credit is awarded by earning the required score in a specific subject area. To receive credit a student must furnish the Office of Admissions with an official IB transcript issued directly from the International Baccalaureate Organization. Course credit awarded through the IB program will apply toward degree requirements. There will not be a specific letter grade associated with the credit earned through IB course work. A designation of CR (credit) will be awarded, and the grade point average will not be affected. Eastern Kentucky University awards credit for IB course work in the following manner:

**C. CREDIT FOR PRIOR LEARNING**

1. Belief that college-level learning can occur outside of the university/faculty interactions has been firmly established within higher education.
2. Workplace, community, volunteer activities, and military training can supplement and augment a student’s preparation for EKU academic courses and provide a valuable lead into the adult student’s program of study.
3. Portfolio assessment, co-op credit, nationally standardized exams (e.g. College Level Examination Program (CLEP), DANTES Subject Standardized Tests), ACE evaluation, and departmental challenge exams can target specific EKU courses where adult learners can demonstrate course subject mastery and gain academic credit for prior learning experiences.

**D. CREDIT FOR PRIOR LEARNING THROUGH PORTFOLIO ASSESSMENT**

1. Belief that college-level learning can occur outside of the

university/faculty interactions has been firmly established within higher education.

2. Workplace, community, volunteer activities, and military training can supplement and augment a student's preparation for EKU academic courses and provide a valuable lead into the adult student's program of study.
3. Portfolio assessment can target specific EKU courses where adult learners can demonstrate course subject mastery and gain academic credit for prior learning experiences.

To create a portfolio, students align their acquired knowledge and skills with specific student learning outcomes, as stated on a course syllabus. Students complete a course, CAEL 100, to learn how to document their learning of required outcomes. Students who successfully complete CAEL 100 earn 3 credits toward free electives. After completion of CAEL 100, students may submit a portfolio for additional academic credit. Faculty members evaluate the student's portfolio and determine whether or not the student has offered sufficient evidence that the learning outcomes have been met. If the portfolio is evaluated as acceptable, students earn additional credits for the course on which they based their portfolio.

Students may learn about EKU's portfolio process at (<http://finish.eku.edu/>)

## E. MILITARY CREDITS

EKU will award credit to individuals who have successfully completed military service school courses, as well as award credit for Military Occupational Specialties (MOS's), based upon recommendation of the American Council on Education (ACE). To receive academic credit at EKU, military credits must be evaluated by ACE with a lower level or upper level college equivalency.

Students may receive Military Science and Leadership course credit and/or credit for PHE 180 for having completed Basic Training (BT) and Advanced Individual Training (AIT). PHE 180 may be used to satisfy the Wellness graduation requirement. Students must submit a copy of their military transcripts or DD Form-214 (Discharge Verification Certificate) through the EKU Veterans Center.

Students can have a copy of their ACE transcript sent from their respective service education centers to the EKU Office of Military & Veteran Affairs, Burnam House, 521 Lancaster Avenue, Richmond, KY 40475.

Army, Navy, USMC, and Coast Guard Veterans can order transcripts online at: <https://jst.doded.mil/official.html>

Air Force Veterans must request transcripts by letter. Include student's full name (former name if appropriate), date of birth, social security number, service component, current address, Eastern Kentucky University Veterans Center address and the student's signature. Send transcript request to: CAF/RRR, 130 West Maxwell Blvd., Maxwell AFB, AL 36112-6613.

## PRE-PROFESSIONAL PROGRAMS

EKU has a number of programs that will help prepare students for professional schools following graduation. These schools generally do not require a specific major, provided that their prerequisite courses are taken. All professional schools are highly

competitive in their admissions process. Thus, students should aim for strong GPA and professional school admission test scores. Students are encouraged to seek a major that they feel comfortable with, that they have a strong aptitude for, that is interesting and challenging, and that provides additional career options. Students should contact the Center for Pre-Professional Advising as early as possible after enrolling at EKU. The Pre-Professional Advisor will assist the pre-professional student with selecting a major and provide information and advice regarding professional school admissions and requirements.

Descriptions of the following pre-professional programs may be found on the pages noted:

Pre-Dentistry .....	89
Pre-Law .....	88
Pre-Medical Science .....	88
Pre-Optometry .....	89
Pre-Pharmacy .....	88
Pre-Veterinary .....	89

**Transfer-Back Curricula:** In addition to standard pre-professional curricula, Eastern Kentucky University may approve specially arranged combined curricula. Students approved for these curricula complete the first three years of requirements at EKU. At the end of these three years, they enroll in one of several highly rated professional schools. After the first year of professional study, they transfer the work back in order to secure a Bachelor of Arts or a Bachelor of Science degree from Eastern Kentucky University. This plan may shorten by one year the time needed for obtaining both a baccalaureate and a professional degree.

## STUDY ABROAD CREDIT

### DUAL DEGREE AGREEMENTS BETWEEN EASTERN KENTUCKY UNIVERSITY AND FOREIGN EXCHANGE INSTITUTIONS

The following policies and procedures shall govern arrangements to award dual degrees to foreign students who attend Eastern Kentucky University and to EKU students who attend foreign exchange institutions under the auspices of exchange agreements or other agreements:

1. The dual bachelor's degree agreement shall be developed by the deans of participating colleges in cooperation with appropriate representatives from foreign exchange institutions and shall be submitted to the Provost for final approval.
2. The deans and department chairs shall determine exactly which courses need to be taken by the foreign candidates to complete the major in each given field of study, and these courses must be specified. Likewise, they shall determine which courses EKU students must take at the foreign institution to complete their EKU degrees.
3. Dual degree agreements will normally require at least one full academic year in residence at the host institution (25% of the total semester hours) and three years at the home institution (75% of the total semester hours). However, other variations may be approved by the deans of the colleges for their respective colleges.
4. Each institution shall accept all course work from the other either as elective credit or as credit for required courses, based on transfer equivalency evaluations.
5. If dual degrees are awarded concurrently, the program must at a minimum meet SACS, CPE, and the college, departmental, and

program requirements for general education, either by taking the general education courses or by transfer credit or by a combination of these means. If the foreign degree is awarded a year or semester in advance, then the candidate will be awarded post-baccalaureate status and the general education requirement will no longer be applicable.

6. A copy of each dual degree agreement approved by the Provost shall be kept on file in the International Education Office, and that office shall also maintain a file of EKU students who are attending foreign exchange institutions under dual degree agreement as well as foreign students who are attending EKU under dual degree agreement.

### STUDY ABROAD PROGRAMS

Eastern encourages all students to take advantage of study abroad opportunities. All EKU students planning to participate in a study abroad experience should complete the Course Pre-Approval Form. This form must be completed and endorsed by the EKU Education Abroad Office (Keith 129) before the student is approved to participate in a study abroad program. Students have several options for study abroad at EKU, varying in place, field of study, duration of stay, and cost.

Students may study in English-speaking countries abroad through the Cooperative Center for Study Abroad (CCSA), a consortium of colleges and universities through the US. CCSA offers two-week programs during the winter break and two- and four-week programs in the summer, mid-May through August. Programs are offered in Australia, Belize, England, Ireland, Scotland and South Africa. CCSA also offers eight-week internships and a full semester program at the University of East Anglia in Norwich, England. The web address for CCSA is [www.ccsa.cc](http://www.ccsa.cc).

The Kentucky Institute for International Study (KIIS), a consortium of Kentucky, Indiana, and Ohio colleges and universities, offers courses in non-English speaking countries. KIIS offers five-week summer programs in Austria, Chile, China, Costa Rica, Cuba, Denmark, Ecuador, France, Germany, Greece, Italy, Japan, Mexico, Spain, Tanzania, and Turkey. The web address for KIIS is [www.kiis.org](http://www.kiis.org).

For students who are interested in additional semester-long study abroad options EKU is affiliated with Arcadia University, Knowledge Exchange Institute, CISabroad, SOL Education Abroad, University Studies Abroad Consortium, and The School for International Training. In addition, EKU has multiple exchange partners worldwide. Students should visit <http://studyabroad.eku.edu/> for more information.

## TRANSFER STUDENT INFORMATION

### CREDITS ACCEPTED IN TRANSFER

Eastern Kentucky University accepts credits transferred from regionally accredited postsecondary institutions, credits earned by examination from nationally recognized tests that meet EKU standards, and it awards credits for certain types of military experiences. Additionally, EKU will award credit for non-collegiate training experiences provided the training occurred under a University approved articulation agreement.

International transfer credits from institutions with which Eastern Kentucky University does not have an articulation or exchange agreement are recorded as free elective credits at the

lower division level after they have been evaluated by an outside accrediting agency (e.g. World Education Services or Silney and Associates). Students may present supporting documents from transfer courses recorded as free electives to appeal to department chairpersons for departmental credit.

### KENTUCKY GENERAL EDUCATION TRANSFER AGREEMENT

In an effort to promote a seamless transfer between Kentucky two-year and four-year public institutions, the Kentucky Council on Postsecondary Education (CPE) developed a policy to facilitate the transfer of credits from one Kentucky public college or university to another. This policy, implemented in 1996, and revised in 2011, is called the General Education Transfer Agreement and allows for the automatic transfer of a block of courses to satisfy general education degree requirements, in addition to articulating individual courses as meeting statewide general education categories.

Students transferring to EKU from another Kentucky public college or university may be (1) category certified, or (2) core certified, or (3) fully certified in general education by the Registrar of the school where the course work was taken. EKU will honor any of these designations and is guaranteed to apply the KY public school transferred general education courses into EKU's General Education curriculum in a manner that best serves the transferring student.

The General Education Transfer Agreement also applies to students transferring from EKU to another Kentucky public university. For additional details regarding this agreement please refer to the EKU Student Outreach & Transfer Office (SOTO) (<http://soto.eku.edu/transferstudents>) or the CPE website (<http://www.cpe.ky.gov/policies/academicinit/Transfer/>)

*NOTE: After initial transfer to EKU students may not transfer in further general education certifications unless they earn a subsequent AA or AS degree at a KCTCS institution. Students may transfer in further general education certifications after their initial enrollment at EKU, only if they return to a KCTCS institution for a period of at least one semester.*

### TRANSFERRING GENERAL EDUCATION COURSES FROM A PRIVATE OR OUT-OF-STATE SCHOOL

EKU will honor transfer general education courses from regionally accredited out-of-state or Kentucky private colleges and universities. Students may bring in documentation (school catalog listings of courses with relevant general education designations) to the EKU Registrar's Office. The transfer general education courses will then be applied toward the student's EKU general education requirements where needed and as appropriate

### TRANSFER CREDIT EVALUATION PROCESS

When an acceptable transfer course, which has never been evaluated before, is presented to EKU for consideration, EKU records the course as acceptable for credit but unevaluated. The Transfer Center contacts the student and requests course descriptions and syllabus information for review. The Transfer Center forwards the course description to the appropriate academic department for their review and consideration. The academic department determines whether an exact equivalency, a subject/discipline elective, or a generic free elective is appropriate depending on course content and learning objectives. In some instances the department will request that the student provide a

syllabus in order to evaluate the course. The academic department or Transfer Center can recommend that a course be considered for general education applicability even if an exact equivalency is not awarded. Students wishing to appeal the evaluation of transfer credit should consult with the Student Outreach and Transition Office.

### TRANSFER CREDITS/COURSES

Currently enrolled students who desire to take courses elsewhere and transfer them back to Eastern Kentucky University should consult with the EKU Transfer Center and also obtain the approval of their college dean prior to enrolling. The University will not take responsibility for courses transferred without prior approval. Students should be aware that there are limits to the number of credit hours a student may earn in any one term (see Academic Load, page 50).

Eastern Kentucky University accepts credit in transfer from other institutions with regional accreditation status. EKU also participates in and subscribes to the principles of the Kentucky Council on Postsecondary Education statewide transfer agreements. EKU accepts credits transferred from all public institutions in Kentucky accredited by SACS, or similar regional accreditation bodies, and will apply them to the general education and program requirements to the maximum extent specified in these agreements. Credits not identified in these agreements will be applied to degree requirements as deemed appropriate. Lower division courses taken at a community or junior college are accepted in transfer as the coursework is evaluated by the EKU content expert.

Eastern Kentucky University will also award credit to students for non-collegiate sponsored instruction and training programs provided an articulation agreement exists between the University and the institutions or organizations providing the instruction. Articulation agreements must be officially approved according to the University policy for such agreements and must be signed by both EKU and the collaborating institutions/organizations. A copy of the signed agreements must be on file in the Office of the Senior Vice President for Academics and Provost (original), the Office of the Registrar, and the Dean's office of the College which initiated the agreement. Articulation agreements must be in place prior to the non-collegiate instruction or training in order for credit to be considered. In all instances, consideration will only be given to those courses/training programs whose content provides competencies equivalent or comparable to courses and educational experiences offered by EKU.

Credit and grades earned in transfer are posted to the student's EKU transcript. Students with transfer credit should note that they must successfully complete all their curriculum requirements as well as earn a cumulative and institutional (EKU) GPA of 2.0 in order to graduate with a degree or University certificate from EKU.

Degree-seeking transfer students who have already attained a post-secondary or graduate-level degree will have that earned degree noted in their EKU academic record.

Details of the academic work counting toward a degree earned at another institution will not be posted, course by course, onto the EKU transcript; only the earned degree is recorded from the official transfer school transcript.

### INTERNATIONAL STUDENT TRANSFER CREDIT PRE-APPROVAL

It is an institutional expectation that once international students are admitted into EKU they are expected to complete their

program of study using credit earned only at EKU.

Each EKU international student may submit official transcripts and have recorded in transfer all previously earned appropriate credit from other institutions of higher education, at the time the student is admitted into EKU. After initial admission into EKU an international student, who subsequently wishes to enroll at another institution, for the purpose of earning additional transfer credit, must have prior approval from EKU before accumulating additional transfer coursework.

The Registrar will not record onto an existing international student's EKU academic record any transfer credit for which the student has not secured prior approval. This prior-approval form serves to notify the College of the student's major and the Office of International Student and Scholar Services of the international student's intention to enroll at another institution, and to establish the applicability of the anticipated transfer credit toward the student's major – before the student enrolls at the non-EKU institution.

A maximum of 21 credit hours may be earned by any EKU student, (through any means), in any fall or spring term; dean's approval (secured on a different form) is required for a student to enroll in 19 through 21 credit hours. During the summer 15 credit hours is the absolute maximum an EKU student may earn; dean's approval (secured on a different form) is required to enroll in 13 through 15 credit hours.

### EXPLORATORY STUDENTS

If students are academically exploring and are not ready to declare a major, they will be enrolled as an exploratory student. A major should be declared as soon as students decide on their field of interest. Students must officially declare a major prior to registration during the semester in which they register for their 45th hour. Until a major is declared, students' curriculum will include general education courses appropriate for most baccalaureate programs. In addition, students will be encouraged to take exploratory electives that will allow them to sample disciplines they may like to select as a major.

### WITHDRAWAL

#### WITHDRAWING AND FINANCIAL AID

Federal Financial Aid regulations require students to earn credit from classes funded by financial aid. Financial aid regulations do not distinguish between receiving a "W" in a course, or an "F" in a course. In both cases tuition is paid with financial aid funds and in both cases the student did not earn credit.

Students, advisors, and instructors should note therefore that multiple withdraws can impede appropriate progress toward degree and thus negatively impact a student's ability to retain financial aid.

**IMPORTANT:** Withdrawing from a class may result in the student being responsible for both tuition charges and a late withdrawal fee. Refer to the Colonel's Compass for tuition refund dates. A class with a "W" grade will count as an attempted class for Federal Financial Aid calculations.

#### WITHDRAWING FROM A CLASS

Students are allowed to withdraw from classes through the

12th week of a full semester. Partial semester classes have pro-rated withdrawal deadlines. See the Colonel's Compass for all withdrawal deadlines. Whether withdrawing from a single class, a few individual classes, or , all withdrawals are executed online through EKUDirect. A student will be assigned a grade of "W" for each withdrawn course, and a "W" will appear on the grade report and transcript.

**1. Withdrawal between 2nd Week – 12th Week:** A student may officially withdraw from a full-semester course online through EKUDirect from the close of the Schedule Change Period, also called the Add/Drop Period (for full-semester classes the add/drop period is the 1st week of class), through the end of the 4th week of a regular (fall/spring) semester with no withdrawal fee applied.

Beginning with the fifth week of the term, and until the end of the twelfth week of full-semester classes, students will be assessed a \$50 per credit hour fee after withdrawing from a course (up to a maximum of \$150 for a typical 3 credit hour course).

**WARNING:** The Add/Drop Period and the withdrawal period for partial-semester classes can be significantly shorter. Always refer to the Colonel's Compass website for all drop and withdrawal deadlines.)

**2. Late Withdrawal Petitions:** After the withdrawal deadline has passed only students who are the victim of extraordinary circumstances may request a late withdrawal. The deadline for filing a petition for withdrawal under extraordinary circumstances is the last day of the full semester following the term from which the student is seeking withdrawal. The student should complete a withdrawal petition form (available from the Registrar's website) and should include justification and documentation for the withdrawal. If approved, the Registrar will assign the grade of "W" and will notify the instructor of the class. For details refer to the Registrar's website ([www.registrar.eku.edu](http://www.registrar.eku.edu)).

All course withdrawals approved by the Compassionate Withdrawal Committee will be assessed a \$50 per credit hour fee, to a limit of \$150 per course. The Compassionate Withdrawal Committee is not authorized to consider any appeals of the \$50 per credit hour course withdrawal fee. Only the Office of Student Accounting Services may consider late withdrawal fee appeals.

Students who are assigned a grade of "F" or "FX" in a course due to academic dishonesty will not be permitted to withdraw from the course.

**3. Withdrawal Deadlines for Partial Semester and Summer Classes:** Specific calendar dates for withdrawal deadlines for partial semester and summer classes are available on the EKU Web site (see Colonel's Compass). The withdrawal deadline for all courses should be printed on course syllabi, are published in the Colonel's Compass, and also may be obtained by contacting the Registrar's Office. Refer to Section 3 of this Catalog for the University's Tuition Refund Policy.

#### WITHDRAWING FROM THE UNIVERSITY

Eastern Kentucky University (EKU) is strongly committed to supporting students in achieving success in their intellectual and extracurricular endeavors. Students finding it necessary to withdraw from the University may withdraw from all courses online using EKUDirect up to the twelfth week of a full semester.

Students are not allowed to withdraw from a course or from the University after the twelfth week of a regular term; after that time students must appeal to the Compassionate Withdrawal Committee for an official withdrawal. A grade of "W" is assigned for each withdrawn class. Students who leave the University without an official withdrawal are subject to the grade of "F."

#### Dining Services Refund for Students Withdrawing from the University:

For Colonel Card dollars or meal memberships please refer to the Student Accounting Services refund page:  
<http://colonelscompass.eku.edu/deadlines-adddrop-refunds>

#### Housing Refund for Students Withdrawing from the University:

For Housing refunds, please submit a written request to the Director of Housing, Whitlock CPO 51, Eastern Kentucky University, 521 Lancaster Avenue, Richmond, Kentucky 40475-3151. Housing refunds are only applicable for a limited period of time at the beginning of the semester.

#### WITHDRAWALS DUE TO EXCEPTIONAL SITUATIONS

When physical or mental illness, or other extraordinary circumstances, intrude upon a student's ability to successfully meet the requirements of his or her course of study, such that the student is unable to avail themselves of standard methods for withdrawing from the University, per the above described timeframe, the student may complete a request for a Medical Withdrawal or a Compassionate Withdrawal.

#### COMPASSIONATE WITHDRAWAL

After the twelfth week, a student who is the victim of extraordinary circumstances which do not qualify him/her for a Medical Withdrawal may petition for a late withdrawal from the University. The student must appeal to the Compassionate Withdrawal Committee through the Registrar's Office. The deadline for filing a petition for withdrawal under extraordinary circumstances (Compassionate Withdrawal) is the last day of the full semester following the term from which the student is seeking withdrawal. The student must complete a Withdrawal Petition Form and should include *justification and documentation* for the withdrawal. If approved by the committee, the Registrar will assign grades of "W" and will notify the instructors of the class.

If the Committee denies the petition, the student has 30 calendar days to appeal the denial, in writing or in person. The decision of the Committee after consideration of the appeal is final.

For forms and more details, refer to the Registrar's website ([www.registrar.eku.edu](http://www.registrar.eku.edu)) or email [registrar@eku.edu](mailto:registrar@eku.edu)

#### MEDICAL WITHDRAWAL

##### Voluntary Medical Withdrawal

Students may request a Medical Withdrawal from EKU when serious physical or mental health issues prevent the student from continuing with coursework in the current semester. The severity and duration of the medical problems must be such that it would be unreasonable to expect the student to make up missed class work. A Medical Withdrawal is appropriate only when "incompletes" or other arrangements with instructors are not possible. A request for a medical withdrawal can only be considered when the request is

to withdraw from all classes in the current semester and will not be granted if final exams have been taken for that semester. This policy does not address withdrawal from individual classes.

Requests for a Medical Withdrawal requires thorough and credible documentation by the appropriate healthcare provider. Details regarding the process and standards for approval are found on the Registrar's website; <http://registrar.eku.edu/withdrawal-information>. The deadline for filing a petition for a Medical Withdrawal is the last day of the term from which the student is seeking withdrawal.

If the request to take a medical leave of absence is due to physical issues, the appropriate documenting healthcare provider is a licensed medical practitioner with knowledge of the student's past medical history and who is presently working with the student to resolve current physical health issues. The medical practitioner should be the student's primary health care provider at the time of the request for Medical Withdrawal, and should not be a family member. If the medical situation involves emergency hospitalization, documentation from the emergency room physician or hospitalist is required in lieu of the preceding information.

If the request is due to mental health reasons, the appropriate documenting healthcare provider would be a licensed psychiatrist, psychologist or counselor with knowledge of the student's past mental health history and who is presently working with the student to resolve the current mental health problems and should not be a family member. Taking a Medical Withdrawal of at least one full semester away from the University will enhance the likelihood of success upon the student's return.

The student will be obligated to adhere to the requirements for returning from a medical leave (see details on Registrar's website: <http://registrar.eku.edu/withdrawal-information>). The student is expected to provide documentation that the physical or mental health condition has been treated and symptoms that required withdrawal from the University are sufficiently resolved to allow the student to return to the University.

A Medical Withdrawal is designed for academic purposes, not financial purposes; it allows the student the opportunity to protect his/her academic standing with the University by preventing the student from failing all courses for that semester. Providing that the requested withdrawal is approved, tuition charges will be adjusted if applicable and based on the regular, published, refund guidelines for all classes, effective as of the date the completed withdrawal form was received by the Registrar's Office.

For details on the process to request a Medical Withdrawal refer to the Registrar's website at [www.registrar.eku.edu](http://www.registrar.eku.edu).

#### INVOLUNTARY MEDICAL WITHDRAWAL

Eastern Kentucky University may place a student on an Involuntary Medical Withdrawal for reasons of personal or community safety. The University may require a student to take medical leave of absence, if in the judgment of the Student Assistance & Intervention Team (SAIT), and in coordination with the Director of Student Health Services and/or the Director of the ECU Counseling Center, the student, (a) poses a threat to the lives or safety of himself/herself or other members of the ECU community or (b) has displayed behaviors associated with a medical or mental health condition that seriously interferes with the student's ability to function and/or seriously interferes with the educational pursuits of other members of the ECU community. Detailed information regarding the process for determining the necessity of an Involuntary Medical Withdrawal can be found

on the Registrar's website: [www.registrar.eku.edu](http://www.registrar.eku.edu).

#### MILITARY WITHDRAWALS FROM THE UNIVERSITY

See Military Activation section on page 56.

#### STOPPING OUT AND RETURNING TO ECU

Students who either *stop out*\* or officially *withdraw*\*\* and are academically eligible to return to the University, may return to the University without reapplying if they have been gone for 24 or fewer months and have an overall GPA of 2.0 or higher. Students who have stopped out or withdrawn and have a GPA of less than 2.0 must apply for readmission and will be held to ECU readmission criteria (please refer to Requirements for Readmission section of the *Catalog*). All regular registration deadlines apply to stop-out students, and they should contact their last assigned advisor, or department chair of their major, to schedule an advising appointment in preparation for their return to ECU. To register for classes, students can log in to their ECU Direct account. Students with a registration hold must contact the office that applied the hold and have the hold removed before they will be able to register.

Students who stop out or are withdrawn for more than 24 months must be formally readmitted to the University by submitting a readmission application to the Office of Admissions. Refer to Section Two of this Catalog for details regarding readmission. The academic record for withdrawn students must be reactivated before they can once again register for classes.

All students who have attended another college/university since attending Eastern Kentucky University, regardless the length of their absence, must submit college transcripts.

\*A student who completes a semester at Eastern Kentucky University but does not return for the following term is considered to have "stopped out." Students must be on good academic standing to qualify for stop out.

\*\*Students who have received a "W" grade in all classes during a semester are considered to have "withdrawn" from the University.

#### WELLNESS REQUIREMENT

Every student seeking a first baccalaureate degree must successfully complete the Wellness Requirement. Students who enter the University with a baccalaureate degree from a regionally accredited university are exempt from the Wellness requirement.

The goals of Wellness courses are: for students to comprehend basic wellness concepts and facts; demonstrate the ability to evaluate health information and resources; analyze interrelationships among wellness dimensions (psychological, social, physical, spiritual), and among societal, cultural, economic and environmental factors and wellness; integrate wellness knowledge and make informed wellness choices. Physical education activity courses do not fulfill the above Wellness learning goals and therefore will not meet the Wellness requirement.

Students who are Veterans can satisfy their Wellness Requirement and obtain credit for PHE 180 by submitting their military service transcripts to the ECU Veterans Affairs Office. For further information contact [EKUVeteransAffairs@eku.edu](mailto:EKUVeteransAffairs@eku.edu) or

call 859-622-2345.

The Wellness course options are listed on each student's degree audit report. Wellness courses available each semester may be viewed via the online schedule by selecting all courses in the "Subject" box and Wellness courses in the "Attribute" box.

## WRITING INTENSIVE COURSES

Every student seeking a first baccalaureate degree must successfully complete one writing intensive course following completion of General Education Element 1B. Writing intensive courses may be general education courses as well as major or supporting courses. Students who enter the University with a baccalaureate degree from a regionally-accredited university are exempt from the writing-intensive requirement.

Writing-intensive courses are designated with the suffix "W" following the course prefix and number (e.g., HUM 300W). W and non-W versions of the same course (e.g., HUM 300W and HUM 300) are considered equivalent for the purposes of satisfying course requirements for prerequisites, major courses, minor courses, and supporting courses. Credit will not be awarded for W and non-W versions of the same course. A previously-taken non-W version of a course will not be used to satisfy the writing intensive baccalaureate degree requirement.

### **Writing Intensive Courses Available:**

Writing intensive course options are listed on each student's degree audit report. The writing intensive courses available each semester may be viewed via the online schedule by selecting all courses in the "Subject" box and writing intensive courses in the "Attribute" box.

(See Section 7 of this *Catalog* for complete course descriptions.)

### CHAUTAUQUA LECTURE SERIES

Dr. Eric Liddell, Coordinator  
Case Annex 157  
(859) 622-2267

Imagine that none of the following Chautauqua Lecturers had ever visited our campus: Kwame Anthony Appiah, Chuck D, Angela Davis, Richard Dawkins, Michael Eric Dyson, Sylvia Earle, Daniel Ellsberg, The American Spiritual Ensemble, Eric Foner, Robert George, Carol Gilligan, Temple Grandin, Brian Greene, Tyrone Hayes, Deidre McCloskey, Irshad Manji, N. Gregory Mankiw, Eric Metaxas, Richard Muller, R. Carlos Nakai, Martha Nussbaum, Richard Rodriguez, Peter Singer, Ben Sollee, Nadine Strossen, Ron Suskind, Trinh T. Minh-Ha, and Kenji Yoshino. The intellectual life of our campus and community would have been less vibrant. Our program provides campus and community

members an opportunity to interact with some of the leading thinkers and activists of our time. As is often the case, these thinkers and activists inform us, engage us, challenge us, infuriate us, move us, and entertain us. With our minds refreshed and our intellectual curiosity renewed, the experience is potentially transformative. At Chautauqua events, members of the audience see how speakers from various professions and disciplines tackle provocative but vital issues. And they are encouraged to do so themselves. They see how it is possible to engage in creative, critical, but civil discourse. And they are encouraged to do the same. Our program aims to address both local concerns and global imperatives, and extend the students' liberal arts education beyond the classroom. By striking a balance between the local and the global, we help serve the students' regional needs. By sharpening their critical and creative thinking skills, expanding their liberal arts education, and adding an international dimension to it, we enhance their chance for success beyond Appalachia. For more information, visit [www.chautauqua.eku.edu](http://www.chautauqua.eku.edu) or contact Chautauqua Lecture Coordinator Dr. Minh Nguyen at [minh.nguyen@eku.edu](mailto:minh.nguyen@eku.edu).

## **HONORS PROGRAM**

Dr. David W. Coleman, Director  
University Building 137  
(859) 622-2924

The mission of the ECU Honors Program is to provide its students with the best intellectual resources available at the university in order to empower them to attain their highest academic and professional goals. We develop the whole student by way of our interdisciplinary, small classes, our support of student research and travel to regional and national conferences, and our offering of a wide variety of cultural and out-of-classroom experiences.

Regardless of the student's major, the courses taken in the Honors Program will apply to the student's general education and university requirements; participation in the ECU Honors Program should not delay a student's progress to degree. Any honors student who successfully completes the minimum required hours of honors coursework and graduates with a cumulative grade point average of at least 3.20 will qualify as an "Honors Scholar." The University will recognize this achievement at commencement, on the academic transcript, and on the student's diploma, where the phrase "Honors Scholar" will appear.

For information about eligibility and admissions to ECU Honors, consult our website ([www.honors.eku.edu](http://www.honors.eku.edu)) or contact us at (859) 622-2924.

### **EKU Honors Curriculum**

Students enter the ECU Honors Program under one of three curriculum tracks. Students entering ECU Honors in their first semester of college will complete either the Honors Flex or the Honors Core curriculum. Students who enter their first semester of college with six or more credit hours of AP, IB, or dual credit, or those students who declare certain majors, will be placed in the Honors Flex curriculum. Students entering their first semester of college with fewer than six credit hours of prior coursework or who are not declaring an applicable major will be placed in the Honors Core curriculum. Honors Program advisors will assist students in making this distinction.

The Honors Flex curriculum requires 25 hours of Honors coursework, designed to complement the credits the student is bringing into ECU. The Honors Core curriculum requires 34 hours of Honors coursework and allows students to complete their General Education and University Requirements (excluding the Wellness requirement) in six fewer hours than other students. Both curriculum tracks begin with Honors Seminar (HON 100) and Honors Rhetoric (HON 102/103) and end with the Honors Thesis (HON 420).

Students entering ECU Honors as a currently enrolled ECU student or as a transfer student are placed in the Current & Transfer curriculum track. This requires 18 hours of Honors coursework, designed to complement the credits the student has already completed, and also ends with the Honors Thesis (HON 420).

All Honors Program students will receive an Honors advisor in addition to their major advisor, who will assist students in creating individualized plans as to how they will fulfill their

general education, university, and ECU Honors requirements.

### **EKU Honors Courses**

All students entering ECU Honors in their first semester will complete:

HON 100 Succeeding in Honors..... 1 hr.  
HON 102 Honors Rhetoric ..... 6 hrs.

*(HON 102 and HON 103 are linked courses and are only taught together; the total classroom contact hours for HON 102 and HON 103 is 6 hours.)*

All students in ECU Honors have the option of fulfilling General Education requirements with Honors Seminars. The following list includes Honors Seminars and the General Education elements they fulfill.

### **Annual Review of Students, Honors Probation, and Honors Dismissal**

At the end of each spring semester, the academic records of all ECU Honors students are reviewed. Students will be notified at their local permanent address listed in the Banner system of the university and at their official ECU student email address if they

are placed on Honors Probation or dismissed from ECU Honors.

If it is determined that a student is not making progress toward completing Honors coursework requirements, that student will be dismissed from ECU Honors for being inactive.

Students entering ECU Honors in Fall 2015 and thereafter will be notified and placed on probation if their cumulative GPA falls under the following thresholds:

- 3.00 for up to 60 completed hours
- 3.20 after 60 completed hours

Students who entered ECU Honors before Fall 2015 will be notified and placed on probation if their cumulative GPA falls under the following thresholds:

- 2.50 for 24 or more hours attempted
- 3.00 for 36 or more hours attempted

Students will be placed on Honors Probation for one semester (not including summer). At the end of the probationary semester, a student's academic record will be reviewed. If the student's GPA does not improve during the probationary semester, the student may be removed from ECU Honors.

Students who are on Honors Probation should not enroll for more than 15 hours of coursework and should plan to meet with the Honors Program Coordinator to discuss a plan to improve their academic performance.

Exceptions to these eligibility policies may be recommended by the Honors Director but must be approved by the Honors Advisory Committee.

The Department of Agriculture offers Bachelor of Science and Associate of Applied Science degrees in Agriculture and Horticulture. Concentrations in the Agriculture degree program include Agribusiness Management, Pre-Veterinary Medicine, Animal Sciences, Agriculture Energy Systems Management, and Agronomy, Soils and Natural Resources. Concentrations in the Horticulture program include Agribusiness Management, Fruit and Vegetable Production, Landscape and Nursery, and Turfgrass Management. The Department also offers a joint degree program for Career and Technical Education - Agriculture Education Concentration. Minors are offered in agriculture and horticulture. Students may receive the Associate degree and then continue for a Bachelor degree with no loss of credit. Students must obtain a

“C” average in Department classes. The Pre-Veterinary Medicine program has an excellent veterinary school acceptance rate. More detailed information can be obtained by reading the section on Pre-Veterinary medicine.

Students have ample opportunities to personalize their education. Academic credit can be earned for Cooperative Education. Students may receive up to eight hours of Co-Op credit for the Associate Degree and 12 for the Bachelor of Science Degree. Students can also obtain credit for experiential learning in the Department’s facilities through practicum courses. In addition, students are encouraged to participate in Independent Studies with faculty mentors.

### DEPARTMENT GOALS

The Department of Agriculture’s vision is to be the first choice of students interested in addressing issues relating to food, energy and the human environment within a sound economic framework.

The mission of the Department of Agriculture is to provide programs designed to develop leaders, entrepreneurs and educators for the global challenges in which agriculture plays a significant role. Areas of study include Pre-Veterinary Medicine, Agriculture Education, Agricultural Business, Food Production, the Human Environment, and Energy Production and Management.

Programs in the Department stress the latest technical information with applications through required laboratories and practicums at the University farms or through cooperative education. The Department operates greenhouses, a plant nursery and specimen garden and turf plots to support the instructional program in horticulture. The University owns and operates approximately 1000 acres devoted to the programs in agriculture. This includes state of the art facilities for beef, dairy, swine, sheep and crop enterprises used in our laboratory.

The Department will also provide service to the University, community, region, profession, and industry; provide opportunities for faculty/staff/student collaboration in scholarly and creative activities; and engage in continuous improvement processes to ensure its programs, services, and infrastructure are current and relevant.

EKU Farms will provide a technologically current, high quality learning environment for instruction. It will demonstrate agricultural practices and techniques that are consistent with the instructional program, are environmentally sound and have practical application. Information will also be disseminated to the regional agricultural community. EKU Farms will also promote and conduct service activities such as field days, tours, seminars, demonstrations, meetings, and open houses to serve the needs of diverse consumer groups.

### PROGRAM OBJECTIVES

#### AGRICULTURE

Graduates in the agriculture program are well trained for careers in many diverse aspects of agriculture such as government agencies (Kentucky Department of Agriculture, USDA, Cooperative Extension Service, NRCS), 4-H programs, soil conservation, farm management and operations, agribusiness including agriculture financial agencies/institutions, sales, feed sales, food plant supervision, retail-store management, technical service, Career and Technical Education, and the livestock industry, to name a few. Students can also continue their education in graduate school or in veterinary medicine.

#### HORTICULTURE

With the abundance of hands-on practical experiences graduates in the horticulture programs pursue careers in the regional and local food industry, the turf industry as golf course superintendents, sports turf managers, sales and service areas, professional landscape industry, the nursery industry, and in the greenhouse industry.

#### CAREER AND TECHNICAL EDUCATION - AGRICULTURE EDUCATION CONCENTRATION

Graduates of the BS degree program in Career and Technical Education - Agriculture Education Concentration are prepared for teaching careers in secondary schools. They are prepared to lead programs in horticulture and agriculture and to advise their chapter’s FFA members in carrying out their annual program of activities.

Numerous opportunities are available for extracurricular activities to complement the academic training. These include the Agriculture Club, Horticulture Club, Delta Tau Alpha (honorary society), student chapter of the Golf Course Superintendents Association of America, Agronomy Club, and Pre-Vet Club. Numerous local and national trips are taken to expand students’ learning experiences.

**PRE-PROFESSIONAL**

**Pre-Veterinary Medicine Pathways**

For students who have a strong interest in veterinary medicine, the Department of Agriculture offers two concentrations in this program of study. Each concentration is tailored to meet the entrance requirements for either Auburn University School of Veterinary Medicine or Tuskegee Institute School of Veterinary Medicine.

These schools have seats specifically designated for Kentucky residents. The student may be advised differently when applying to other veterinary schools since entrance requirements vary. Upon completion of the degree, the student is also awarded a Minor in Chemistry.

**Pathway 1: Pre-Veterinary Transfer Concentration – B.S. in Agriculture**

The student intends to apply and hopes to transfer to a school of veterinary medicine after their 3rd year at EKU. Students who intend to follow this pathway declare a B.S. in Agriculture as their major and the pre-vet transfer option as the concentration.

Students can then complete the B.S. degree from EKU by transferring credits from the first year of veterinary school back to EKU. Students not accepted after the junior year may elect to stay at EKU and change to the concentration below and then reapply to a school of veterinary medicine.

**Pathway 2: General Pre-Veterinary Concentration – B.S. in Agriculture**

Student intends to earn a B.S. degree in Agriculture at EKU and applies for admission into a school of veterinary medicine. Students will typically apply to a school of veterinary medicine during the fall of their senior year at EKU. Students who intend to follow this pathway declare

a B.S. in Agriculture as their major and the general pre-vet option as the concentration.

**Admission into Auburn or Tuskegee Schools of Veterinary Medicine**

Kentucky is a member of the Southern Regional Educational Board Plan under which legal Kentucky residents attend Auburn University School of Veterinary Medicine or Tuskegee Institute School of Veterinary Medicine. The program is funded by an appropriation of the General Assembly to the Kentucky Council on Post-Secondary Education. A limited number of students who have completed pre-veterinary requirements are selected on a competitive basis by Auburn or Tuskegee each year and are exempt from out-of-state tuition. Both veterinary schools have similar entrance requirements, including a GRE examination.

Students should have a grade point average of 3.4 to be competitive. Students need to pass all pre-veterinary required courses with a grade of “C” or better. Courses in organic chemistry and physics must have been completed within six years of entry into the school of veterinary medicine. Students applying to Auburn use the Veterinary Medical College Application Service (VMCAS). Students apply directly to Tuskegee. Application deadlines for both are October 1. Students are expected to gain veterinary experience by working directly with a D.V.M.

Candidates earning a degree that leads to pre-service teacher certification must take the PRAXIS Series (Professional Assessments for Beginning Teachers) and PLT (Principles of Learning and Teaching) exams as a requirement for graduation. Candidates are encouraged to review the schedule for PRAXIS and PLT registration deadlines prior to beginning the senior year (<http://www.kyepsb.net/assessment/index.asp> AND [www.ets.org/praxis](http://www.ets.org/praxis)). Specialty exams are required for each certification area sought and it may take more than one test date to complete all requirements. Candidates should confer with their education advisor/counselor to determine the most optimal time to take required exams. Career and Technical Education concentrations require all pre-service students to meet the general education knowledge for initial teacher preparation requirements (see College of Education section of this Catalog).

The Department of Applied Engineering and Technology offers Bachelor of Science degree programs in: Applied Engineering Management, Aviation, Construction Management, Network Security and Electronics and Career and Technical Education.

**DEPARTMENT GOALS**

The Department of Applied Engineering and Technology seeks to provide an educational experience relevant to current and future societal needs to meet global economic and industrial trends. Programs in Applied Engineering and Technology prepare professionals for careers in Applied Engineering Management,

Aviation, and Network Security and Electronics through the Bachelor of Science degree programs; prepare technicians for careers in Applied Engineering and Computer Electronics Technology through concentrations in the Associate of Applied Science in Technology degree program; prepare professionals for careers in Career and Technical Education through certification, Associate of Applied Science, Bachelor of Science and Master of Science degree programs; prepare professionals for advanced career opportunities in Applied Engineering and Technology Management through the Master of Science degree program; and to provide programs of quality instruction and professional services to the University and to the community.

**Federal Aviation Administration**

**AVIATION**

The EKU aviation program offers a Bachelor of Science degree in Aviation with three concentrations: Aerospace Management, Aerospace Technology, and Professional Flight. These concentrations combine courses in business management, communication, math, computer science and general education. The Aerospace Management Concentration prepares students for exciting professional careers in all aspects of the aerospace industry from a management perspective whereas the Professional Flight Concentration prepares students for careers as pilots. The Professional Flight Program is an FAA Part 141 approved Flight School and the only university program to offer 100 hours of multi-engine flight coupled with the 1000 hour restricted ATP certificate.

The Aerospace Technology (AT) degree is a degree-completion concentration. By adding upper division aerospace management and operations studies, the Bachelor’s degree AT concentration is specifically designed to complete a two-year community college degree with a heavy technical aviation course load. Examples of aviation technical degrees include Airframes & Power Plants (A&P), a two-year helicopter and/or airplane proflight degree, any two-year career technical (CTE) degree partnered with a local flight school, any two-year air traffic control program, and/or any two-year aerospace management program, and/or two-year Unmanned Aircraft Systems (UAS) programs. Additionally, non-degreed airline pilots with the Airline Transport Pilot (ATP) certificate may complete their bachelor’s degree with this concentration.

**American Council for Construction Education**

**CONSTRUCTION MANAGEMENT**

Graduates of the Construction Management program are prepared for careers with general contracting firms, starting in a variety of management positions. Typical entry-level positions include: assistant project manager, estimator, superintendent, project scheduler, cost engineer, and field engineer. The Construction Management program is accredited by the American Council for Construction Education. Graduates of this program will

Students using GI Bill® benefits must repay to the VA the cost (including a portion of stipends for living expenses) related to any course in which a grade of NC is earned.*

**Note: Students must take an Aviation exit examination, AVN 467, before graduation.** Also, one 3-credit course from the Gen Ed requirements must be a Writing Intensive course with a suffix of "W." **Reserve Officer Training Corps (ROTC)**

Getting a degree does not necessarily guarantee employment, however, taking Army ROTC will. The Reserve Officer Training Corps (ROTC) is a premier leadership-training program that prepares you to be a leader in any organization or business. ROTC enhances any Bachelors or Masters Degree program by making you better at time management, setting goals, making decisions, building teams, influencing others, and achieving success. The skills you develop in ROTC give you an advantage over your job-seeking peers; and at the end of the program you will have a full-time job waiting for you as a Commissioned Officer in the United States Army or part time in the Army Reserve or National Guard.

**Career Opportunities**

Students who graduate from Eastern's Army ROTC program are commissioned as Second Lieutenants and serve with other dedicated young men and women in our nation's defense. As new Lieutenants, officers serve in a variety of branches, such as Aviation, Armor, Infantry, Transportation, Military Police, Engineers, as Army Nurses, to name but a few, and have the opportunity to travel worldwide. Starting salary for an active duty Lieutenant is over \$40,000, plus full individual and family medical coverage and 30 days paid vacation annually. For those who desire only a part-time commitment, the Guaranteed Reserve Forces Duty option gives students assurance they will be able to serve their country from home, adding stability to their chosen civilian career.

**Leadership Development**

EKU's Department of Military Science and Leadership has a proud reputation dating back to 1936. The program has commissioned over 2,200 officers. The program's unique approach to leadership development gives each student multiple opportunities to refine their own leadership skills and receive individualized performance feedback. Training is designed around a hands-on, experiential learning curriculum. Besides learning how to lead, students build their confidence by learning to rappel, negotiate ECU's Challenge Course, fire the M-16 rifle and/or M-4 Carbine, complete water survival training, and other adventure type activities. Students also learn to live the seven Army Values – Loyalty, Duty, Respect, Selfless Service, Honor, Integrity, and Personal Courage by demonstrating these values as they participate in the Cadet Battalion, the Pershing Rifles Drill Team/Color Guard, Ranger Company, and Raider Team.

**Scholarships and Simultaneous Membership**

Eligible students may compete for a variety of ROTC Scholarships available on-campus and through the Army Reserves and Army National Guard. These fully funded scholarships pay 100% tuition, a \$1,200 annual book allowance, and a \$300-\$500 **monthly** tax-free living allowance. Four-year scholarship students also receive free room and board. Members of the National Guard or Army Reserves who join ROTC under the Simultaneous Membership Program (SMP) may also receive a \$350 monthly SMP Kicker in addition to the tax-free ROTC living allowance, Montgomery GI Bill® benefits, and E-5 drill pay.

**Eligibility and Obligations**

Students may enroll in any of the MSL 100-200 level courses without obligation. Students who desire to seek a commission must sign a contract before entering the Advanced Leadership Course (MSL 300-400 courses); they must also meet

certain age, physical fitness, medical, citizenship, security clearance and military experience requirements. Military experience can be satisfied in a variety of methods (check with the ROTC Scholarship and Enrollment Officer at (859) 622-1215 for details). Students contracting into the Advanced Leadership Course will incur a military service obligation upon graduation.

**Scholar-Athlete-Leader**

Becoming an Army Officer doesn't just happen; it requires a level of commitment, determination, and selflessness that few civilian careers will ever demand. Army Officers are intellectually curious, mentally adroit, physically robust, and possess a willingness and passion to take charge and make the right things happen. If you are a Scholar-Athlete-Leader who wants to join the world's most sophisticated Army, then join ECU ROTC—*"Where Leadership Excellence Begins."*

However, by successfully completing the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. Students may enroll in some Aerospace Studies courses without joining the Air Force ROTC cadet corps. For more information, call (859) 257-7115.

#### AFROTC Curriculum

The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes.

- The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years.
- The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester, all cadets also take leadership laboratory classes.

In the GMC, there are four academic classes:

#### Freshman Semesters

- AFS 111 offered in Fall semesters
- AFS 113 offered in Spring semesters

#### Sophomore Semesters

- AFS 211 offered in Fall semesters
- AFS 213 offered in Spring semesters

These cover two main themes – the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any UK student.

In the POC, there are four academic classes:

#### Junior Semesters

- AFS 311 offered in Fall semesters
- AFS 313 offered in Spring semesters

#### Senior Semesters

- AFS 411 offered in Fall semesters
- AFS 413 offered in Spring semesters

These cover Air Force management and leadership and national security studies.

**NOTE:** Entry into the POC years is competitive and is based on

- Air Force Officer Qualifying Test scores
- Grade-point average
- Evaluation by the AFROTC Detachment Commander
- Only physically qualified students in good academic standing may compete for entry into the POC.
- Typically, these courses are for those cadets who have already completed the courses in the GMC, but the courses are open to any UK students.

Students enrolled as cadets are required to be involved once a week in a 1-credit-hour course in the cadet corps training program designed to simulate a typical Air Force organization and its associated functions. This course is known as Leadership Laboratory. Cadets are required to take all of the Leadership Laboratories each semester (fall and spring only) concurrent with

their AFS courses listed above. UK students taking the courses electively are not required to take Leadership Laboratory but are also welcome. If there are questions please refer to 859-257-7115 for further inquiries on the matter.

#### GMC Years:

##### Freshman Semesters

- AFS 112 (Fall)
- AFS 114 (Spring)

##### Sophomore Semesters

- AFS 212 (Fall)
- AFS 214 (Spring)

#### POC Years:

##### Junior Semesters

- AFS 312 (Fall)
- AFS 314 (Spring)

##### Senior Semesters

- AFS 412 (Fall)
- AFS 414 (Spring)

The leadership laboratories are largely cadet-planned and conducted under the concept that they provide leadership training experiences that will improve the cadets' capabilities as Air Force officers. This also involves three hours of physical training each week. Leadership laboratory is open to students who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Air Force ROTC Detachment Commander.

#### Field Training

Field training is offered at Maxwell Air Force Base in Alabama. Students receive officer training and leadership development with other students. Simultaneously, the Air Force has an opportunity to evaluate each student as a potential member of its officer corps. Field training courses include cadet orientation, survival training, officer training, aircraft and aircrew orientation, physical training, organizational and functional aspects of an Air Force base, career orientation, small arms familiarization, first aid, and other supplemental training.

## BACHELOR OF BUSINESS ADMINISTRATION AND BACHELOR OF SCIENCE IN RISK MANAGEMENT AND INSURANCE DEGREE REQUIREMENTS

General University requirements, as well as specific course requirements set forth in the description of curricula, must be met by students completing associate and baccalaureate business programs administered by the College of Business and Technology. See programs under each department for major requirements. Student Success Seminar (BTO 100) is required in all Business programs. The requirements for the **Bachelor of Business Administration (BBA)** and the **Bachelor of Science in Risk Management and Insurance** degrees are as follows:

1. A cumulative 2.0 GPA must be maintained in all work taken in the BBA and BS Risk Management and Insurance programs.
2. Hours earned by correspondence study are accepted upon written approval of the Dean. However, not more than 25 percent of the total hours applied toward a degree may be earned via correspondence or telecourse instruction, military credit, or credit by examination.
3. To ensure the integrity of business programs to provide a sound overall educational experience, not more than 50 percent of undergraduate course work shall be completed in the EKU's School of Business programs. However, up to nine semester hours of economics and up to six semester hours of mathematics/statistics will not be included in this 50 percent. Decisions to allow students to take more than 50 percent of undergraduate course work within EKU's School of Business will be made judiciously.
4. At least 50 percent of the business course credit hours required for the BBA and BS Risk Management and Insurance degrees must be completed at EKU.
5. The BBA and BS Risk Management and Insurance degrees will only accept credits for business courses at the upper

division level transferred from other colleges and universities accredited by the Association to Advance Collegiate Schools of Business International (AACSB). As completely as possible, it will apply these credits to the student's degree program. To ensure that they earn appropriate credits, students are strongly advised to see the College of Business and Technology Advising Office and also obtain the Dean's approval prior to enrolling in any course work they plan to transfer. The University will not take responsibility for courses transferred without prior approval.

6. A "C" or better is required for the BBA programs and the B.S. in Risk Management and Insurance degree in the following courses: (See specific degree requirements for each major)

#### BACHELOR OF BUSINESS ADMINISTRATION

**BBA Supporting Courses:** CIS 212 or INF 104, ECO 230 and 231, MAT 112 or 211, and PSY 200 or 200W or SOC 131.

**BBA Pre-Business Core:** ACC 201, 202, GBU 204, and QMB 200.

**BBA Core:** CCT 300W, CIS 300, FIN 300, GBU 480, MGT 300, 370, and MKT 300.

#### BACHELOR OF SCIENCE IN RISK MANAGEMENT AND INSURANCE

**BS Supporting Courses:** CIS 212, or INF 104; ECO 230, and MAT 112 or 211,

**BS Pre-Business Core:** ACC 201, 202, GBU 204, and QMB 200.

**BS Risk Management and Insurance Core:** CCT 300W, CIS 300, FIN 300, MGT 300, MKT 300, RMI370, and RMI374.

CCT 300W should be taken in first six hours of upper division course work. BBA students must complete all business core courses prior to taking GBU 480. Students are urged to review carefully all course prerequisites, including the 60-hour rule before scheduling 300-level business courses. Failure to satisfy prerequisites may result in the student being administratively withdrawn from courses.

7. At least 12 hours in the major must be earned at EKU. A grade of "C" or better is required for each course in the major.
8. Students must choose a major field at the time they enter a School of Business program. Students must meet with and have schedules approved by the academic advisor.
9. A second major can be completed in EKU's School of Business or in another program of the University. A third business major is not permitted. Because business students take the business core, they are limited to selected minors offered by EKU's School of Business. Free elective requirements for bachelor's degree programs in EKU's School of Business cannot be met by choosing courses taught in Business. (See No. 4, BBA and BS Risk Management and Insurance under degree requirements.)
10. Students choosing to double-major must declare the BBA or BS Risk Management and Insurance degree as the first major.

#### PREREQUISITE STRUCTURE IN EKU'S SCHOOL OF BUSINESS

EKU's School of Business curriculum is highly structured and carefully integrated. The content and methodology utilized in upper-division courses are based upon the assumption that students enrolled in these courses have matriculated through a specific series of lower-division courses which provide students with competencies needed for successful participation in upper-division business courses.

#### ENROLLMENT IN UPPER-DIVISION EKU'S SCHOOL OF BUSINESS COURSES

To enroll in the following upper-division **business-core** courses (CCT 300W, CIS 300, FIN 300, MKT 300, MGT 300, 370, and GBU 480) students must have:

1. completed ACC 201, 202, and ECO 230 with a grade of "C" or better in each course;
2. completed a minimum of 60 hours (or enrolled in enough additional course work to complete their 60th credit hour) with a cumulative 2.0 GPA; and
3. met all specific prerequisite(s) for each course.

To enroll in other upper-division business courses, students are required to have met the specific prerequisite(s) for each course and have earned an overall 2.0 GPA. Students majoring in other departments whose planned curriculum includes selected business courses (by virtue of agreements of sponsoring departments with a business program) must also adhere to all specified course prerequisites. Students majoring in programs other than business cannot earn more than 25 percent of their total degree requirements in courses with business prefixes.

#### Course Repeat Policy

Courses may be repeated *once*. Second or subsequent repeats (maximum of three enrollments) must be requested on a College Exception form approved by the Dean of the College. Exceptions will only be considered under unusual circumstances. An enrollment is counted as a repeat if a previous enrollment in the course resulted in a passing or failing grade or a "W" due to withdrawing from the course.

#### BACHELOR OF BUSINESS ADMINISTRATION AND BACHELOR OF SCIENCE IN RISK MANAGEMENT AND INSURANCE

The Department of Accounting, Finance, and Information Systems provides a Bachelor of Business Administration and a Bachelor of Science in Risk Management and Insurance which offer unique programs of study. The BBA and BS in Risk Management and Insurance are the only undergraduate insurance degrees in Kentucky. Students in these programs must meet prerequisites as noted.

#### BACHELOR OF SCIENCE IN BUSINESS AND MARKETING EDUCATION/TEACHING

The Department of Management, Marketing, and International

Business, in cooperation with the College of Education, provides programs leading to certificates qualifying graduates to teach business subjects in grades 5-12. For admission requirements, see **Admission to Teacher Education** and **Admission to Student Teaching** sections in the College of Education portion of this *Catalog*. Also see **Policies** and **Requirements** sections in the same portion of this *Catalog*. Students in these programs must meet the business prerequisites as noted. Students interested in business teacher certification should consult the Chair of the Department of Management, Marketing, and International Business.

Business and Marketing Education/Teaching requires all students to meet the general education knowledge for initial teacher preparation requirements (see College of Education section of this *Catalog*).

### TRANSFER STUDENTS AND STUDENTS FROM OTHER EKU COLLEGES

BBA and BS program requirements for transfer students are the same as those for students enrolling initially at EKU. Transfer students must have completed at least 60 semester hours of course work and all the requirements listed above to be eligible for upper-division business courses.

EKU's School of Business considers lower-division credits transferred to EKU as lower division, even if EKU offers what appears to be a comparable course at the upper-division level. However, the dean of the College of Business and Technology may accept individual courses at EKU if the courses are validated using acceptable validation techniques. CLEP® and departmental exams are examples of possible validation techniques. With specified courses in real estate and accounting, the successful completion of advanced courses in the subject field for which the transfer course is a foundation or supporting requirement is an acceptable validation method. A successfully validated lower-division transfer course may not be utilized to fulfill the 43-hour upper-division graduation requirement.

### CERTIFIED PUBLIC ACCOUNTANT (CPA)

The Kentucky legislature has mandated that students taking the CPA exam in the year 2000 and thereafter must have completed 150 semester hours. Therefore, accounting graduates seeking the CPA designation will need to complete additional undergraduate or graduate hours.

**EKU: A LEGACY OF PREPARING EDUCATIONAL PROFESSIONALS SINCE 1874**

**COLLEGE OF EDUCATION STRATEGIC PLAN 2016-2020**

**Vision**

The College of Education will be a premier college dedicated to innovative student engagement and success, advancing Kentucky, and impacting the world.

**Mission**

As a school of opportunity, the College of Education prepares and empowers learners to become dynamic partners in diverse communities.

**Values**

The College of Education's values permeate the mission and allow the college to achieve its vision:

- *ethical decision-making*, which is characterized by integrity, intentional stewardship of resources, and social responsibility;
- *intellectual vitality*, which is characterized by quality instruction & research, critical and innovative thinking, and on-going assessment;
- *equity*, which is characterized by sensitivity, respect, fairness, accommodation, and impartiality for all;
- *collaboration*, which is characterized by respectful, reciprocal accountability and service to local & global communities; and
- *reflective practice*, which is characterized by goal setting, self-evaluation, and a deep understanding of critical concepts and principles within one's discipline.

The College of Education is well known for preparing effective professionals for the disciplines within our college. At Eastern Kentucky University we strive to continuously learn and develop the most effective ways to prepare teachers, leaders, and other professionals for the variety of school and professional settings that exist today.

In order to achieve our **Vision for 2016-2020**, the College of Education will focus on four Strategic Goals.

- **Academic Excellence** - We will achieve academic excellence through **investing in students, staff, and**

**faculty to support their professional growth.**

- **Cultural Competency** - We will demonstrate our commitment to cultural competency through recruiting diverse candidates, faculty, and staff and providing structured opportunities for education and interaction with people from diverse backgrounds.
- **Stewardship of Place** - We will demonstrate our commitment to the development of stewardship of place through collaboration within the College, University, and community through advocacy, civic engagement, and stewardship.
- **Experiential Education** - We will achieve experiential education through infusing clinical experiences throughout our programs.

**Strategic Initiatives and Strategies** define the primary goals, outline our work for the next five years, and ensure we achieve our primary goals.

**Ongoing Commitment** is to prepare every candidate to be successful in all aspects of his/her professional career.

**Ongoing Commitments**

- Our curriculum is designed by faculty to meet educational goals of all candidates and is focused on candidate outcomes integrated in a clinical model.
- Our programs are focused on embracing individual differences in every aspect of the educational process.

**EDUCATION AS THE NEW "CLINICAL" PROFESSION**

"Teaching as a clinical profession means that education candidates are expected to become knowledgeable and to the fullest extent possible experts in the school learning sciences. Similarly, teacher education candidates are expected to become competent and also to the fullest extent possible excellent diagnosticians in the academic development of their school age students. Drawing from a scholarly knowledge base, more than adequate in scope and depth, teacher education candidates study with seasoned expert faculty in the College Education including MODEL to refine diagnostic skills

and learn to prescribe instructional strategies that will improve school age student performance in Kentucky and beyond.” Dr. James Bliss

Since its founding in 1906, Eastern Kentucky University has maintained a strong interest in and commitment to the preparation of teachers.

*The Professional Education Programs at Eastern Kentucky University are dedicated to preparing the highest quality educators and related professionals for Kentucky and beyond. Our graduates integrate content, effective pedagogical skills, and dispositions that foster life-long growth and learning. Being true to our heritage as a school of opportunity, Eastern Kentucky University provides a climate that supports, challenges, and enriches students aspiring to careers in a diverse society.*

Professional Education at Eastern Kentucky University is a university-wide function. The programs of elementary education (P-5), middle grades education (5-9), special education, interpreter training, deaf and hard of hearing, and communication disorders are located in the College of Education. The college also has graduate degree and licensure programs in most of these areas, as well as in Counseling and Educational Leadership. Candidates in these programs are advised in the College of Education. Secondary 8-12, Grades 5-12, Birth – Primary (interdisciplinary early childhood education), and P-12 teaching programs are located in their respective colleges with candidates receiving academic advisement from the college of their major as well as a supplemental advisor from the College of Education.

**MODEL LABORATORY SCHOOL**

Model Laboratory School is one of the few remaining lab schools nationally, and the only one in Kentucky, EKU’s Model offers a full P-12 educational curriculum. Model is one of only a handful of lab schools left that serves a P-12 population. When the current building for Model was completed in the 1960s, it was a state-of-the-art facility allowing for individual and small group observations, demonstration teaching, and student teaching. Today, teacher educators agree not only that clinical teaching experiences are crucial in preparing teachers, but also that they should begin early in preparation programs. High standards in clinical teaching experiences require the kinds of settings only laboratory schools like Model can provide.

Universities are changing preparation programs for all school personnel significantly to include a variety of clinical experiences that are developmental in sequence and provide opportunity for shaping the knowledge, skill, and disposition sets of future educational professionals. Kentucky’s Education Professional Standards Board enacted a regulation requiring 200 clinical hours for initial teacher preparation prior to the professional semester

or student teaching. In addition, clinical hours have been initiated for graduate or advanced preparation programs. As a result, a lab school, such as EKUs Model, plays a vital role in serving this new clinical preparation model for all educators. Additionally, it provides a site for research-based practices to prepare those planning to enter the profession and to retool currently practicing educators to enhance student engagement, learning, and achievement at all P-12 levels.

## **POLICIES AND PROCEDURES**

### **Professional Education Majors**

To be recommended for certification, all candidates must meet the requirements for admission to professional education, complete a College of Education approved teaching curriculum, and pass the required PRAXIS II tests, PLT exam, or Kentucky test as established by the Education Professional Standards Board.

### **Credits**

To be applied to degree programs, credits more than eight years old must be validated by the Dean.

### **Credit for Transfer Work**

Allowance of transfer credit by the University Office of Admissions and/or the Office of Academic Advising does not necessarily mean that all such credit will be applied toward

admission to professional education or a degree from the College of Education. Therefore, candidates should read and follow closely the transfer credits/courses section in Section Five of this *Catalog*.

### **Credit for Transient Work**

Undergraduate students or students (candidates) pursuing initial certification in programs housed in the College of Education who wish to take course work at another higher education institution must have approval from the Dean of the College if they wish to apply that credit to their degree program. Candidates must be in good academic standing at EKU. Transient forms are initiated with the Tracking Specialist, Office of Education Services ([coeadvising@eku.edu](mailto:coeadvising@eku.edu)).

### **Overload**

In the College of Education, overloads must be approved by the candidate's department chair. Requests for overloads must contain the student's overall GPA and the number of hours being attempted, including those to be taken at other higher education institutions. Send requests to [coeadvising@eku.edu](mailto:coeadvising@eku.edu).

### **Planned Curriculum**

Planned curricula in the College of Education are maintained in Degree Works, a comprehensive set of web-based academic advising, degree audit, and transfer articulation tools that help candidates and their advisors negotiate program requirements. Changes in the planned curriculum, initiated on the College Exception form, must include a recommendation for change by the advisor and be approved by the department chair and the Dean of the College. Changes approved verbally by phone or otherwise will not be honored unless the planned curriculum is officially altered to reflect such approval. It is the candidate's responsibility to register for the proper courses so that all requirements are satisfied at the time of expected graduation. Completion of all course work on the candidate's planned curriculum is required for graduation.

### **Progressing in Professional Education**

Candidates shall not enroll in any educator preparation program courses restricted to admitted candidates.

### **Application for Graduation**

Candidates must file an application for graduation in accordance with university policy found in the Graduation and Commencement Information section of this catalog. Applications for graduation are available online through EKU Direct.

### **Student Teaching**

Since student teaching is especially demanding, candidates are encouraged to avoid taking any other courses during CED 499 The Professional Semester.

### **Admission to the College of Education**

#### *Preparing a Community of Exemplary Professionals*

- Upon admission to the College of Education, students are assigned an advisor. Candidates must enroll in Academic Orientation, EDO 100, during the first semester. Candidates are advised to enroll in EDF 203, Schooling and Society, during their freshman year. EDF 310 will be required for students who have an equivalent transfer course for EDF 203 or EDF 219.
- Secondary education majors will follow the prescribed curriculum and requirements of another academic college and the policies for professional education stated elsewhere in this *Catalog*. The College of Education cooperates closely with the

other colleges in matters pertaining to admission to professional education and clinical education.

### Preparing a Community of Exemplary Professionals

Clinically based professional education programs create varied and extensive opportunities for candidates to connect what they learn while being guided by skilled clinical educators. Performance-based assessments, at key points in the program, are designed to demonstrate candidates' development of the knowledge, skills, and professional dispositions associated with a positive impact on the learning and development of all P-12 students. [CAEP Standard 2]

The Clinical Model at Eastern Kentucky University is designed to meet the needs of learners in today's schools and provide teacher candidates with the content, pedagogy, and assessment skills needed to assure they meet the needs of all learners. Eastern Kentucky University's Professional Education Program provides a framework that supports our candidates' development of content knowledge, practice, and professional behaviors. This is accomplished through high quality instruction, engaging course-learning tasks, and clinical learning experiences requiring candidates to think critically and creatively, communicate effectively, and act fairly. Our candidates will be prepared to effect change in the culture of learning in their classrooms, in our region, and beyond.

**Clinical I: CED 100: Introduction to the Education Profession** (CED 150 is designed for all transfer students) (10 hours in laboratory clinical)

Clinical Experiences begin with the first semester of the program, Introduction to the Education Profession (Clinical 1). This laboratory based clinical includes guided walkthroughs at all levels of P-12 education. Candidates also spend 6 hours in a classroom assisting and helping a teacher. While teacher candidates are introduced to all levels of public school education, they are also introduced to the profession, expectations, and dispositions of professional educators including the ethics of educators. Teacher candidates are guided to consider whether this is the right career choice, and, if it is, what level or specific licensure area interests them.

**Clinical II: CED 200: Understanding the Learner (minimum of 10 school based clinical hours)**

Clinical II provides laboratory based clinical experiences in the co-requisite course(s). Teacher candidates are placed in a classroom for a minimum of 10 clinical field hours. Candidates assist the teacher, provide individual student help, and tutor students as needed. Teacher candidates are also expected to spend at least 2 of the 10 hours helping with an after-school event (Family Fun Night, Saturday School Festival, theater or dance events, art shows/exhibits, musical events, Odyssey of the Mind events or practice, rehearsals etc).

**Clinical III: CED 300: Curriculum and Instructional Design (minimum of 50 school based clinical hours)**

Clinical III focuses on curriculum and instructional design in a school based clinical, with a focus on using formative assessment in the classroom. Teacher candidates observe and assist their assigned cooperating clinical teacher while learning the principles of curriculum and instructional design. Teacher candidates plan, teach and reflect on a minimum of 3 formal lessons in their assigned classroom. It is recommended that teacher candidates and cooperating teachers begin this clinical experience using co-teaching strategies and working together. The clinical educator and cooperating clinical teacher provide feedback using a formal observation instrument. Teacher candidates in need of more mentoring are provided additional time and support to improve performance before advancing.

**Clinical IV: CED 400: Diagnosis and Prescription (minimum of 50 school based clinical hours)**

In Clinical IV, teacher candidates focus on diagnosis and prescription of student behavior and academic performance in this school based clinical. Teacher candidates develop and implement a student improvement plan for behavior using Applied Behavior Analysis and an academic improvement plan for achievement based on student learning data. In addition teacher candidates plan, teach and reflect on a minimum of three formal lessons observed by their clinical educator and cooperating clinical teacher.

**Clinical V: CED 450 Practice Teaching- Residency I (formerly Methods) (minimum of 80 school based clinical hours)**

CED 450, Clinical V, Residency I, requires a minimum of 80 school based clinical experiences. Candidates are expected to practice teaching for full days on their clinical schedules. This is the first part of the yearlong clinical or residency. Candidates will demonstrate expertise at planning, teaching, assessing achievement, writing units, developing professional growth plans, reflecting on outcomes, and collaborating with teachers at their assigned clinical placement school. Teacher candidates plan, implement and reflect on a minimum of 3 formal lesson plans during this clinical. All other lessons candidates are assigned to teach include lesson planning and writing. Candidates focus on improving student achievement while considering the student growth goals for their individual classroom. Monitoring and tracking student success with a plan for re-teaching throughout the duration of the year-long residency is required.

The ITP Interview Committee will determine the number of students admitted to the program in order to maintain an appropriate student-faculty ratio and based on available resources.

### **Application Information**

- Enrollment is limited.
- Application to the ITP does not guarantee acceptance.
- The ITP accepts students for the fall semester of all even years (i.e., 2018, 2020, etc.). Deadline for application is March 15th every even year.

### **Progression and Retention in the Program**

- A grade of "C" or higher is required for all ITP and lecture-based ASL courses (ASL 225, 325, 390, 425), and

**ADMISSION TO COMMUNICATION DISORDERS PROGRAM**

Any student who is accepted by Eastern Kentucky University’s Admissions Office may declare their major as communication disorders (CD). The student will be assigned to a program advisor and will be classified as a “Pre-CD” major. However, a Pre-CD status does not guarantee admission into the CD undergraduate program. Pre-CD majors will be restricted to enrollment in the following major CDS courses: CDS 275 and 360. To apply for admission to the CD undergraduate program, students must meet the following minimum criteria: (1) at least 27 credit hours earned on 100-level courses or higher, (2) at least a 3.0 GPA on a 4.0 scale, (3) at least a 21 composite score on the ACT, and (4) pass a speech/language/hearing screening. Once admitted to the CD program, the student must earn a grade of “C” or higher in CDS 275 or equivalent transferred course before registering for any CDS courses in the major requirements. Transfer students do not have to be enrolled in university courses at the time of submitting an application for admission. The CD program admits 30 new undergraduate students each year. Applicants are ranked by the GPA x ACT composite score. The most qualified applicants are admitted. Application forms are available from Wallace 245 or visit the CD program website at [cd.eku.edu](http://cd.eku.edu); telephone (859) 622-4442. Completed applications and all required documentation must be submitted by February 14 to the CD Program Coordinator.

It should be noted that enrollment in the graduate program in Communication Disorders is also limited. Admission into the undergraduate program does not guarantee admission into the graduate program. Refer to the *Graduate Catalog* for information on admission to the graduate program.

Students must purchase professional liability insurance prior to enrollment in CDS 374, 474, and 541. Further, that insurance coverage must be maintained throughout enrollment in these courses.

**ADMISSION REQUIREMENTS FOR COLLEGE**

The College of Health Sciences accepts applications from all persons who are qualified for admission to the University. All applicants must provide evidence of their ability to meet the academic standards established by the various programs. Due to enrollment limitations of some programs, applications should be made early. Applications received after the deadline of a program will be processed and admissions recommended on a space available basis. Specific entrance requirements for each program are shown in the departmental sections of this *Catalog*.

**ADMISSION POLICIES**

1. Students must meet requirements and be admitted by the University before being considered for enrollment in programs within the College of Health Sciences. Specific admission criteria are provided under each of the Health Sciences programs. The student is responsible for obtaining information for the application process including department deadlines.
2. Transfer work must be from an accredited institution and with a minimum grade of “C” in major and supporting courses. The applicant must be eligible to return to the last institution attended.
3. Work taken more than eight years previously must be approved by the Dean of the College.
4. In the event that a student is not accepted for a program, the student who wishes to reapply must submit a new application and related materials that will be considered when a new class is accepted.

Students desiring to complete collegiate work required for admission to professional programs may complete this work at any accredited college or university. Students are urged to carefully plan their course of study to be consistent with the individual program’s curriculum progression plan of study. Students who plan to complete coursework before declaring a major in a College of Health Sciences program should consult with the individual program directors or with the College of Health Sciences Advisors.

Students who have not reached a decision on a specific health science major may obtain counseling/guidance from individual program directors in the College of Health Sciences or from College of Health Sciences Advisors.

The programs in the College of Health Sciences are designed to prepare graduates for practice in health and human services professions. Most require licensure and/or certification after graduation and prior to practice. A criminal record (excluding minor traffic violations) may make a person ineligible for licensure or certification in these professions. Students with such a history should contact the licensing or certifying body prior to enrollment to determine whether this might be the case.

**CLINICAL AGENCY PLACEMENT REQUIREMENTS**

Placement in clinical sites for certain programs in the College of Health Sciences requires students to meet specific clinical agency placement requirements. Clinical agency placement requirements for certain programs (particularly those involving direct patient contact and/or practice with children) require a criminal background check and/or a urine drug screen. Students whose results from these screenings do not meet clinical agency placement requirements will be unable to participate in clinical experiences which are required for satisfactory progression and completion of the program. Other requirements may include documentation of tuberculosis screenings indicating student is free of disease, specific immunizations, certifications, student professional liability insurance purchased through the University [see Student Liability (Malpractice) Insurance], and individual health insurance. Specific requirements for individual programs may be obtained by contacting the departmental office.

**READMISSION POLICIES**

After being admitted to one of the programs in the College, students who withdraw or who are unable to progress due to being unsuccessful in one or more courses must submit application for readmission according to the guidelines for the specific program. **Readmission to the program is not guaranteed to any student.**

**READMISSION APPEAL PROCESS**

The student who has been denied readmission may appeal the decision following these guidelines:

1. Notify the chair of the program’s readmission committee of the desire to appeal the decision and to provide additional pertinent information to support the appeal. The committee chair will schedule a time for the student to appear before the committee to present the appeal. A student who has agreed to a time for a meeting of the departmental readmission committee and who does not appear at that meeting may forfeit the right to present evidence beyond that furnished in

- the original application for readmission.
- The student will be notified within five working days of the committee's decision.
  - If the student is not satisfied with the decision, the student shall schedule an appointment to present the appeal to the Department Chair. The student will be notified within five working days of the Department Chair's decision.
  - If the student is not satisfied with the decision of the Department Chair, the student shall submit a written appeal to the Dean of the College of Health Sciences. If the Dean determines there are extenuating circumstances surrounding the student's request for readmission and/or if the procedure for readmission has not been followed, a meeting of the College's Readmission Committee will be scheduled. A time will be appointed for the student to appear before the committee to present the appeal. A student who has agreed to a time for a meeting of the College Readmission Committee and who does not appear at that meeting may forfeit the right to present evidence beyond that furnished in the original application for readmission.
  - Decisions of the College Readmission Committee are binding. The student will be notified of the decision within five working days.

### STUDENT AGREEMENT STATEMENT

Programs in the College of Health Sciences may require a student to sign an agreement statement that encompasses professional expectations related to the program. This statement is to be signed when the student enters courses in the major.

### STUDENT LIABILITY (MALPRACTICE) INSURANCE

All students whose programs require participation in clinical learning experiences must purchase and maintain liability insurance through the University during the entire clinical experience. Proof of such insurance coverage must be furnished to the department before the clinical experience is scheduled to begin. The University has arranged for appropriate insurance coverage at a modest cost to the student. Further information may be obtained at the student's major departmental office.

### ACCREDITING AGENCIES

### CLINICAL FACILITIES

The University maintains formal contracts with many health care Human Services and Educational agencies located throughout Kentucky and the United States. Almost every specialty within the entire health care spectrum is available for use in providing high quality experiences for students enrolled in the programs. A list of cooperating agencies is available through the Office of the Dean.

The University is not liable for, nor is there a fund from which payment can be made for those who are inconvenienced or incur

expenses based upon canceled classes, assignments, or clinical placements, etc.

### BLOODBORNE PATHOGENS AND HEPATITIS B STATEMENT

The College of Health Sciences attempts to impart the principles and practice of infection control to its students who may have future occupational exposure to bloodborne pathogens. To this end, students majoring in medical laboratory science and technology, nursing, and occupational therapy are required to receive education in universal precautions and the Occupational Safety and Health Administration's (OSHA) Bloodborne Pathogens Standard Regulations. Students will be responsible for obtaining the Hepatitis B vaccination before participation in the clinical training phase of their respective programs when indicated. Students who may potentially be exposed to blood and body fluids are required by most of our clinical agencies to have obtained the Hepatitis B vaccine. If this requirement is placed upon the student, it will be strictly enforced. Please see the departmental student handbook for further clarification.

### DEGREE REQUIREMENTS

The students are responsible for selection and registration for courses needed for reasonable progress toward their degree or certificate that will enable the students to satisfy requirements for graduation.

General Academic Information described in Section Five of this *Catalog*, and specific course requirements set forth in the description of curricula, must be met by students completing associate and baccalaureate programs administered by the College of Health Sciences. See programs under each department for major and minor requirements. All first-year students in the College of Health Sciences must enroll in the Student Success Seminar (HSO 100).

#### Appeals

Appeals procedures are detailed in the Departmental and University Handbooks and in the department sections.

Students also have access to other resources such as anatomical models and charts, interactive video resources, professional articles, e-mail, the internet, literature searches, bibliographic manager, epidemiology mapping courseware and word processing. The Learning Resource Center is located in the

Rowlett Building, Room 310.

## DEPARTMENT OF ASSOCIATE DEGREE NURSING (RN)

**Chair**

#### Faculty

**J. Brown, M. Carlton, C. Frazer, B. Gamble, M. Gibson, C. Hubbard, S. O'Neal, K. Petrey, M. Powell, A. Potts, S. Sutherland and C. Hackney**

The Department of Associate Degree Nursing, established in 1965, is approved by the Kentucky Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN). The nursing program leading to an Associate of Science in Nursing (A.S.N.) degree is four semesters in length. The program prepares the graduate to function as a generalist registered nurse (R.N.) to practice in a variety of positions in various clinical settings in Kentucky and across the nation. Graduates of the program are eligible to apply for the national licensure examination NCLEX-RN; after successful completion of the exam, graduates are licensed as registered nurses.

The philosophy of the Department of Associate Degree Nursing guides the program of study.

The faculty believe Nursing is an art and science expressed through therapeutic and caring relationships which promote optimal physical, psychological and spiritual health and well-being. The core values of caring, diversity, ethics, excellence, holism, integrity, and patient centeredness are reflected in the curriculum. The curriculum promotes the attainment of the educational outcomes of Human Flourishing, Nursing Judgment, Professional Identity, and Spirit of Inquiry.

#### Student Learning Outcomes

Upon completion of the program, the ASN graduate will:

1. Advocate for patients and families in ways that promote their self-determination, integrity, and ongoing growth as diverse human beings. (Human Flourishing)
2. Using the nursing process as a critical thinking tool, make judgments in practice, substantiated with evidence, that integrate nursing science in the provision of safe, quality care and promote the health of patients within a family context. (Nursing Judgment)
3. Express one's identity as a nurse through actions that reflect integrity, a commitment to evidence-based practice, effective communication, caring, advocacy, and safe, quality care for diverse patients within a family context. (Professional Identity)
4. Examine the evidence that underlies clinical nursing practice to improve the quality of care for patients and families. (Spirit of Inquiry)

#### Admission Requirements and Procedures

All students who are admitted to EKU and declare their major as associate degree nursing are admitted as pre-associate degree nursing majors. However, admission to the University does not guarantee admission to the Associate Degree Nursing Program.

Students are eligible to be considered for admission to the Associate Degree Nursing Program only after having been admitted to the University. Applications for the Associate Degree Nursing program are available through the department office or online at [www.adn.eku.edu](http://www.adn.eku.edu).

Applicants are eligible to be considered for admission who have:

1. Met University requirements for proficiency in English, reading and mathematics.
2. Met the Pre-College Curriculum requirements.
3. A high school or college (cumulative and ECU) GPA of 2.5 on a 4.0 scale.
4. Grades of "C" or better in any supporting courses that have been completed.
5. Completed the Nursing Assessment (A2) exam with a minimum score of 75 in specified areas of Reading, Vocabulary, Grammar and Math. Students may contact the nursing office to schedule the Assessment Exam.
6. In addition to the academic criteria required for admission, applicants must meet the standards written into the Commonwealth of Kentucky Nurse Practice Act. Specifically, the Nurse Practice Act requires that each student be of good moral and ethical character, good mental and physical health, and be academically qualified to fulfill the role and responsibilities of a person licensed to practice as a professional nurse. Students must meet all clinical agency placement requirements.

Applications are considered for the fall semester (received by March 1) and for the spring semester (received by October 1). Applications received after the deadline will be processed on a space availability basis. The Department Admissions Committee will evaluate each applicant's academic history and select those applicants who are the most academically qualified. Should there be more qualified applicants than spaces available, admission becomes competitive and applicants will be ranked according to the admission scoring rubric found on the department's website. Admission to the program is limited and completion of eligibility criteria does not ensure admission into the program.

#### Students Transferring from Another Nursing Program

Transfer students must meet the following criteria in addition to admission criteria of Eastern Kentucky University and the Department of Associate Degree Nursing:

1. The nursing credits transferred must be comparable to Department nursing credits for a maximum of 16 semester hours credit.
2. A complete course outline and/or syllabi must be submitted for each nursing course being evaluated for transfer credit.
3. Transfer credits must meet passing standards of the nursing program from which they are transferred.
4. Transfer credits must be from a nationally accredited program.

Each transfer student's application will be evaluated on an individual basis by the Department Chair and the Department Admissions Committee.

#### Progression in the Program

In order for students to follow the established progression of the program sequence, they must:

1. Meet all prerequisites.
2. Maintain a cumulative and ECU GPA of 2.0 on a 4.0 scale.
3. Complete all major courses and supporting courses with a "C" or better.

#### Clinical Requirements

Transportation to all clinical experiences is the responsibility of the student. Students are expected to adhere to all Department and clinical agency policies and must meet all clinical agency placement requirements. To be compliant with Joint Commission regulations, clinical agency contractual agreements, and ensure a safe clinical environment the following items are required before a student can progress to a clinical experience:

1. Proof of professional liability insurance purchased through the University.
2. Proof of CPR for the Health Care Professional.
3. Proof of Rubella, Measles (Rubeola), and Mumps immunity.
4. Proof of Hepatitis B immunity.
5. Proof of negative Tuberculosis screening.
6. Proof of Varicella immunity.
7. Documentation of adult TDaP vaccine (Tetanus, Diptheria, Acellular Pertussis)
8. Documentation of annual influenza vaccine.
9. Documentation of the CHS-approved Criminal Background Check.
10. Documentation of the CHS-approved Drug Screening.
11. Proof of Personal Health Insurance.
12. Other documentation as required by specific clinical facilities.

#### Readmission Policies and Procedures

A student who fails to progress in the nursing curriculum is dismissed from the program and must apply and be processed through the Admissions/Progression Committee. This committee represents the Department of Associate Degree Nursing and has the authority in readmission decisions for the department.

**Readmission to a nursing course is not guaranteed to any student.** The student is advised to refer to the Department of Associate Degree Nursing Student Handbook for specific procedures concerning readmission.

### Faculty

**M. Adams-Johnson, B. Bentley, J. Brocato, A. Clark, A. Connell, D. Coffey, D. Corley, J. Cornelison, M. DeLetter, C. Edwards, S. Evans, S. Fister, R. Hovermale, A. Jones, L. Jones, T. Loan, P. Lusk, J. Pinheiro, K. Purcell, G. Purdue, F. Sands, S. Shumaker, I. Slusher, M. Whitaker, P. Woods, and L. Yonts.**

The nursing program leads to a baccalaureate degree. General education in the sciences and liberal arts provides the basis for and is correlated with the major in nursing. The collegiate program is devoted to a combination of physical, biological and social sciences, and humanities as deemed essential to the preparation of the professional nurse. The nursing component is composed of instruction in nursing theory and the application of nursing theory in the clinical setting under the guidance of nursing faculty. Thus, nursing is learned through a combination of formal classroom instruction and supervised experiences in hospitals, clinical agencies, and a variety of community settings. The nursing program prepares the individual to function as a generalist and lays the foundation for graduate study in clinical specialties, research, teaching, supervision, and/or administration. Graduates of the program earn a baccalaureate degree in nursing (BSN) and are eligible to make application to the national licensure examination (NCLEX). Graduates of the program who successfully write the NCLEX examination are licensed to practice as registered nurses.

The baccalaureate nursing program is based upon the belief that preparation for professional nursing encompasses a broad liberal, general, and professional education. The mission of the department is congruent with the mission of the college and university; to promote student success by providing high quality, accessible learning opportunities which encourage students to act independently, to think critically, to communicate effectively, and to practice professional or advanced levels of nursing with integrity, enlightenment and creativity; and to collaborate with regional partners to promote health.

### **Professional Nursing Practice Outcomes**

Upon completion of the baccalaureate nursing program the BSN graduate:

1. Treats patients as holistic, unique and self-directive with the right to make decisions for themselves concerning health matters.
2. Uses the nursing process to provide, manage, and evaluate culturally competent primary, secondary, and tertiary prevention for diverse clients across the life span in a variety

of settings.

3. Uses evidence-based nursing practice, critical thinking, research methodologies, informatics, and healthcare technology to provide therapeutic interventions, predict outcomes, and influence the delivery of health care.
4. Assumes a leadership role in health care by communicating and collaborating with patients, health care professionals, and health care systems.
5. Supports safe, quality, responsible, and economic interdisciplinary health care as a consumer and sociopolitical advocate within multiple health care systems.
6. Promotes the ethical and legal practice of professional nursing.
7. Demonstrates self-care, professionalism, accountability, and competence in nursing practice, with a commitment to advancing the profession of nursing.

### **Admission and Progression Requirements**

All students who are accepted by EKU's Admissions Office and declare their major as baccalaureate nursing (four-year nursing) are admitted to the University as pre-baccalaureate nursing majors. However, admission to the freshman year does not guarantee admission to the laboratory nursing courses. Students seeking to enter NSC 232, 242, and 252 in the third semester of the curriculum must meet minimum program GPA requirements of 2.5 and have department chair approval. Spaces in these courses are limited and are reserved for students whose academic record indicates they are more likely to be eligible to be considered for and admitted to the clinical nursing courses. To be eligible to be considered for admission to the clinical nursing courses, students must have completed the first three semesters of college work as outlined in the curriculum plan and have submitted a complete department application. All prerequisite courses must be completed with a grade of "C"/2.0 or better, and a minimum cumulative GPA of 2.5 on a 4.0 scale must be obtained. For the prelicensure nursing program, [Nursing Pre-RN (B.S.N.)], some prerequisite courses (BIO 171, BIO 273/MLS 209, BIO 301, CHE 105, NFA 201, NSC 232, 232L, 242, and 252) must have been taken within five years prior to the time application is made for admission to the clinical nursing courses unless an exception has been approved by the department. For the prelicensure Nursing (B.S.N.) Second Degree Concentration, the courses in BIO 171, BIO 273/MLS 209, BIO 301, and NFA 201 must have been taken within five years prior to the time application is made for admission to the concentration unless an exception has been approved by the department. Completion of eligibility criteria does not guarantee admission to the clinical nursing courses. Admission to the clinical courses is competitive and based on review of the applicants' academic history by the Baccalaureate Nursing Admission/Readmission Committee. Spaces are limited and the most qualified applicants will be selected for admission.

In addition to the academic criteria required for admission, the student must meet the standards written into the Commonwealth of Kentucky Nurse Practice Act. Specifically, the Nurse Practice Act requires that each student be of good moral and ethical character, good mental and physical health, and be academically qualified to fulfill the role and responsibilities of a person licensed to practice as a professional nurse. Students must meet all clinical agency placement requirements.

For progression, students must earn a grade of "C"/2.0 or better in all nursing and supporting courses. Students who fail to meet the requirements for progression must apply for readmission through the Baccalaureate Admission/Readmission Committee.

Readmission to a nursing course is not guaranteed to any student. Please refer to the Baccalaureate Nursing Student Handbook for specific information on readmission procedures. The program reserves the right to alter the suggested plan as necessary to enhance a quality educational program. Students interested in entering graduate study may apply to the Graduate School.

For additional admission information please refer to the Selection Criteria at <http://www.bsn-gn.eku.edu/bsn>.

**Transfers from Other Colleges and Universities**

Academic credits earned at other accredited colleges or universities are transferable upon approval of the appropriate department at Eastern Kentucky University. Official transcripts are to be submitted by the student to the Office of the Registrar. Credits more than eight years old must be approved.

Transfer students must submit copies of all transcripts along with their application to the program. These transcripts will be considered a part of the application process and are necessary to determine admission and placement.

Students wishing to transfer nursing courses from another accredited institution must have a grade equivalent of “C”/2.0 or better in any nursing course to be transferred. In addition, the applicant must submit complete course outlines and/or syllabi. This material should be submitted well in advance of expected matriculation to provide time for necessary evaluation.

**Specific Degree Requirements for Bachelor of Science in Nursing Degree**

In addition to the general requirements for the baccalaureate degree, students must earn a grade of “C”/2.0 or better in all nursing and supporting courses.

The Environmental Health Science program offers the Bachelor of Science degree. Established in the early 1970's, the program is currently the state's only accredited program and one of only 30 such programs in the United States accredited by the National Environmental Health Science and Protection Council. The program includes extensive study of the physical, chemical and biological threats to human health and focuses on both engineered barriers and behavioral changes required for protecting and enhancing human health. The program includes general education and support courses in biology, chemistry, and mathematics, plus a variety of environmental health courses dealing with air quality, water quality, wastewater disposal and treatment, hazardous and solid waste management, risk assessment and epidemiology, industrial hygiene, control of disease vectors, food hygiene, radiological health, environmental health program planning and law, and toxicology. During upper division study, the student must complete three credit hours of supervised field experience with appropriate agencies, industries, consulting companies, etc. Also, cooperative education opportunities are available to all students who may wish to gain experience in addition to credit hours.

Eastern Kentucky University's Environmental Health Science graduates are qualified for positions with federal, state, and local government departments of environmental health, as well as public health protection agencies such as the United States Public Health Service, the Environmental Protection Agency, Food and Drug Administration, Department of Energy, and Occupational Safety and Health Administration. Graduates are also qualified for employment in private industry and environmental consulting firms. This work may include quality control, industrial hygiene and safety, loss control and risk assessment, or many other facets of environmental health consultation. The demand for qualified environmental health practitioners is currently high and exceeds the number of graduates from accredited programs and projected to increase over the next decade.

**Progression Criteria**

A student majoring or minoring in environmental health science must achieve a grade of "C"/2.0 or better in all EHS and supporting courses.

Candidates earning a degree that leads to teacher certification must take the PRAXIS Series (Professional Assessments for Beginning Teachers) and PLT (Principles of Learning and Teaching) exams to be recommended for licensure in Kentucky. Candidates are encouraged to review the schedule for PRAXIS and PLT registration deadlines prior to beginning the senior year

(www.kyepsb.net/ AND www.ets.org/praxis). Specialty exams are required for each certification area sought and it may take more than one test date to complete all requirements. Candidates should confer with their education advisor/counselor to determine the most optimal time to take required exams. For additional information, candidates may also contact the EPSB Division of Professional Learning and Assessment at (859) 564-5778 or (888) 598-7667 (toll free).

**GENERAL DIETETICS PROGRAM**

The General Dietetics program leads to a Bachelor of Science degree in General Dietetics. The program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), an agency of the Academy of Nutrition and Dietetics, as a Didactic Program in Nutrition and Dietetics (DPND). Students completing the DPND earn a Verification Statement, which provides eligibility to complete an accredited Dietetic Internship. Acceptance to a Dietetic Internship requires application and program matching through a competitive process. A strong academic record, work experience, and service/leadership in extracurricular activities are essential for obtaining a dietetic internship. Dietetic internships are 6 to 12 months long and include supervised practice in various areas of the dietetics profession. After completion of the internship, the student is eligible to take the national registration exam to become a Registered Dietitian (RD). In most states, including Kentucky, RD status is sufficient to obtain a state license to practice as a dietitian.

Registered Dietitians (RD) work with individuals and groups of all ages to improve health and wellness. Dietitians find employment in a variety of professional settings, including hospitals, long term care facilities, outpatient clinics, health departments, food companies, wellness programs, public health and regulatory agencies, cooperative extension, food service (including hospital, long term care, school, college/university, and prisons), private practice, sales, and research. In these settings, RDs provide medical nutrition therapy; menu planning; recipe and product development; individual counseling related to nutrition and diet; nutrition education to groups and individuals; community nutrition program development, implementation, and evaluation; and research.

Graduates who do not complete a dietetic internship find employment opportunities in public health, food service, cooperative extension, sales, and research. With the DPND verification statement, graduates are eligible to take the national Dietetic Technician registration exam, and earn the credential Dietetic Technician Registered (DTR). Graduates of the DPND may also seek admission to graduate programs to earn an advanced degree.

The program’s mission, goals, and objectives can be found on the Department of Family and Consumer Sciences website. Also available on the website is information about costs related to the program.

**Admission and Progression Requirements**

All students who are accepted by EKU’s Admissions Office and declare their major as dietetics are considered for admission to the University as pre-dietetics majors. However, admission to the pre-dietetics program does not guarantee admission to the dietetics program. To be admitted to the dietetics program the following criteria must be met: (1) complete a minimum of 45 semester hours; (2) attain a minimum cumulative GPA of 3.0 on a 4.0 scale; (3) earn a “B” or better in CHE 101/101L, CHE 102/10L, ACC 201, STA 215, and BIO 171 or their equivalents if taken at

another school; (4) earn a “B” or better in NFA 121, 201, 202, and 317. In addition, a program application form must be submitted. Should there be more qualified applicants than spaces available, applicants will be ranked according to an admission scoring rubric. The application form, admission scoring rubric, and application deadlines are available on the Department of Family & Consumer Science website.

After admission to the dietetics program the student must meet the following criteria to receive a BS Degree and be granted a verification statement: (1) attain a minimum cumulative GPA of 3.0 on a 4.0 scale; (2) earn a “C” or better in all major and supporting courses (other than those courses in which a “B” or better is required per admission criteria).

The Department of Health Promotion and Administration is comprised of programs in: Ancillary Health Management, Health Care Administration and Informatics, and Public Health. Admission to all programs is based on the regular admission policies of the University. Specific policies related to each discipline can be found following the program heading as listed.

**BACCALAUREATE DEGREES**

**HEALTH SERVICES ADMINISTRATION**

The department offers a baccalaureate degree in Health Services Administration with concentrations in Ancillary Health Management and Health Care Administration and Informatics.

**Ancillary Health Management Concentration**

This degree progression concentration gives individuals with

a previously completed college degree the opportunity to obtain the management skills needed to become a healthcare supervisor or manager.

**Health Care Administration and Informatics Concentration**

This concentration gives individuals interested in the administrative aspects of healthcare an interdisciplinary curriculum designed to provide a balance between businesses, healthcare and information technology. This concentration is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

**Pre-HSA Curriculum**

All students who are accepted by the EKU Admissions Office and declare their major as Health Services Administration are initially placed into a pre-HSA curriculum. The curriculum includes: ACC 201; BIO 171, 301; INF 104 or CIS 212; INF 314 or CIS 230; CMS 100 or 210; HSA 100, 200; MAT 105 or 114; STA 215 or 270.

Students may apply for HSA program admission when the following requirements are met:

- Cumulative GPA of 2.75 or higher
- Completion of each course in the Pre-HSA curriculum with a grade of C or better after a maximum of two attempts.
  - **Exception:** The following courses are indicators of student success in the program. Therefore, no more than one of the following courses can be taken for a second attempt: BIO 171, BIO 301; MAT 105; STA 215; ACC 201; INF 314.
- Combined GPA of 3.0 or higher in the following courses: HSA 100, 200, 302, 303, 401; BIO 171, BIO 301; STA 215
- Completion of general education requirements (at least 75%)

Students who meet the minimum requirements will be accepted into the program within the enrollment limits determined by the faculty. The Program reserves the right to accept only the best qualified applicants who meet the minimum requirements.

**Admission/Progression Criteria**

All majors utilize the regular admission policy of the University for students taking courses offered during the first semester of the program. In order to continue in the program and to enroll in major courses, the student must meet the following criteria: (1) maintain an overall (cumulative) GPA of 2.5 on a 4.0 scale and (2) complete all major and support courses with a minimum grade of "C" after a maximum of two attempts.

A student who is not allowed to continue in the major may appeal the decision by presenting the reasons in writing to the Program's Admission and Progression Committee. The student may appeal this committee's decision to the College Admission Committee by submitting a written request to the Dean of Health Sciences. The decision of this committee shall be final.

**Professional Practice Experience**

An important part of the curriculum is professional practice experience in which the student is required to spend part of a semester at a hospital or other health care facility for observation and supervised practice of the skills required for entry into the profession.

Some sites may require health screening such as physical examinations and/or proof of immunizations. The student is responsible for these medical expenses and for living expenses and travel involved in relocation for these assignments.

**J. Baltisberger, R. Causey-Upton, M. Custer, E. Fehringer, A. Fleischer, L. Hardman, C. Hayden, J. Hight, D. Howell, K. Leigers, A. Marshall, S. O'Brien, R. Mullaney, K. Nicholas, D. Pierce, C. Privott, C. Schneck, C. Skubik-Peplaski, G. Spira, K. Splinter-Watkins, M. Tabor, and M. Thompson.**

The Department of Occupational Science and Occupational Therapy provides a continuum of educational experiences that prepare a student at the undergraduate level for a career as a non-credentialed health and human service professional and at the graduate level for a career as an occupational therapist. Undergraduate students can enter the Occupational Science program, receive a Bachelor of Science degree, and apply for admission to the master's program in Occupational Therapy. Individuals with a baccalaureate degree in another field and who have completed the required prerequisite courses can apply for admission to the transition program (See Graduate Catalog). After completing the Master of Science degree in Occupational Therapy, students are eligible to take the occupational therapy national certification examination.

The Occupational Therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449, (301) 652-2682, [www.acoteonline.org](http://www.acoteonline.org). Certification for the occupational therapy profession is provided through the National Board for Certification in Occupational Therapy (NBCOT), 12 South Summit, Suite 100, Gaithersburg, MD 20877-4150, [www.nbcot.org](http://www.nbcot.org).

### **Baccalaureate Degree in Occupational Science (BS)**

Occupational science, an evolving social science, is the study of human occupation. Occupational scientists study why and how we occupy our time through activity, organize ourselves through activity patterns and habits, respond to the context in which occupations occur, and create meaning through occupations.

Students may combine the study of human occupation with other areas of interest through electives or a minor, including but not limited to, Horses, Humans and Health, Psychology, Child and Family Studies, Biology, Community Health, Gerontology, and Business. While many graduates of the Occupational Science program apply for entry into the Occupational Therapy Master's program, some may choose other graduate education options or seek employment in non-credentialed health care, education or community positions. These careers may include case manager, independent living skills coordinator, activity coordinator, medical sales representative, senior citizen program coordinator, mental health associate, and job coach for persons with developmental disabilities.

The five themes of the occupational science curriculum are occupation, reasoning, diversity, communication, and professional identity. Interwoven are the curriculum elements of concepts and

knowledge, active community learning experiences, integrative seminars, and authentic assessment and portfolio development. A value inherent in the curriculum model is that learning is optimal when educators guide student immersion in personally meaningful challenges that are processed in a supportive environment. Graduates of the Occupational Science program meet the following outcomes:

1. Apply knowledge of occupational science to analyze self and others as occupational beings to promote health and wellness.
2. Analyze the dynamics of context and occupation across the lifespan.
3. Demonstrate the use of varied types of reasoning required of health professionals.
4. Analyze the purpose and demonstrate the methods of scholarly inquiry.
5. Examine dimensions of diversity.
6. Assess how diversity influences occupational opportunity and participation of individuals, populations and organizations.
7. Evaluate communication skills and abilities using the ideas and language of occupational science.
8. Demonstrate observation and interview skills.
9. Synthesize knowledge of societal health concerns and professional responsibilities.

### **Admission and Progression Requirements**

All students who are accepted by ECU's Admission office and declare their major as Occupational Science are admitted to the University as pre-Occupational Science majors; however, admission to the University does not guarantee admission to the Occupational Science program. Admission is competitive and based on a review of the applicants' academic history by the department's Admission, Progression and Retention Committee. Students seeking consideration for admission to the Occupational Science program must meet the following requirements by May in the semester preceding the Fall semester start of the junior year:

1. Completion of 60 hours of coursework, including prerequisites courses
2. Overall GPA of 3.0 or above
3. A minimum of 4 "B"s and 1 "C" in the following prerequisite courses or their equivalents (BIO 171, 301, HSA 200, STA 215, PSY 200)
4. No more than 1 repeat per course in the following prerequisites or their equivalents (BIO 171, 301, HSA 200, STA 215, PSY 200)

Application to the Occupational Science Program does not guarantee acceptance in to the program.

Students seeking admission to the Occupational Science program and progression to the junior year must follow this process:

1. By March 15th prior to progressing to the junior year of the Occupational Science program, all students must submit an Application for Admission to the Department Chair.
2. Transfer students must be fully admitted to the University by March 15th to be considered for admission to the Occupational Science Program. Students are responsible for submitting their official transcripts to the Office of the Registrar.
3. Based on a competitive admissions review, students will be

informed of admission to Occupational Science program after Spring semester grades are posted.

**4. Students admitted to the Occupational Science program will then be allowed to register for the junior year classes.**

To progress to senior year, all junior academic year required major and support courses must be completed with a grade of “C” or better.

To graduate, all senior academic year required major and support courses must be completed with a grade of “C” or better as well as completion of general education and university requirements for graduation.

For additional admission information please refer to the Selection Criteria at <http://www.ot.eku.edu/>

**Enrollment in the Master of Science program in Occupational Therapy is limited. Completion of the undergraduate program in Occupational Science does not guarantee admission into the graduate program in Occupational Therapy. Refer to the Graduate Catalog for admission requirements and procedures regarding application to the Master of Science program in Occupational Therapy.**

**MS Transition Program**

The Transition to Masters Program is an undergraduate program designed to prepare students who have completed a Bachelor’s degree, in something other than Occupational Science, for entrance into the MS in Occupational Therapy program.

This transition program is a one year undergraduate, post-baccalaureate program consisting of the following courses: BIO 271, 371, OTS 362, 402, 422, 430, 478W, and 499.

Admission to the MS Transition Program is competitive and acceptance to EKU undergraduate admissions does NOT mean acceptance into the MS Transition Program. If accepted as a candidate for the prerequisite transition year, students must be enrolled in all Fall transition courses (as an undergraduate) by July 1st of each year. To be eligible to take transition-year courses, students must be accepted as a potential student for the MS degree. If selected as a potential student you are guaranteed a place in the MS in Occupational Therapy program if you maintain a GPA of 3.0, complete all prerequisite courses with a “C” or better and are accepted by the graduate school. For more details refer to the EKU Occupational Therapy departmental website.

**Appeals**

Students may petition for a waiver of any regulations. Appeals regarding waiver of a regulation should be addressed to the Admissions and Progression Committee. Grade Appeals should be addressed to the Academic Practices Committee. See the University Student Handbook for details of the appeal procedures.

**Park Administration.**

Students who transfer from another college or university must earn a minimum of 12 hours at EKU in their major. Students who transfer from another college or university must earn a minimum of six hours at EKU in their minor.

Graduates of the Tourism & Resort Recreation concentration find career opportunities in local, state, federal and private agencies that promote tourism, travel agencies, convention services, resort supervision and management, cruise lines, amusement and theme parks, as well as other commercial recreation agencies.

Graduates of the Natural Resources & Recreation Management concentration find a wide variety of career opportunities such as park ranger, interpretive naturalist, camp director, recreation forester, fish and wildlife positions, and youth and adult outdoor recreation programming positions.

Graduates of the Recreation Management and Programming concentration find professional careers available in local, state, county and federal agencies, park management, golf course management, recreation supervision, aquatics, cultural arts programming, athletic programming, YMCA and YWCA, Boy Scouts and Girl Scouts, 4-H, and various other private and public agencies providing park, recreation and leisure services.

The College of Justice and Safety at Eastern Kentucky University is one of the largest of its type in the United States and is one of the six colleges that comprise the academic structure of the University. Within the College of Justice & Safety is the School of Justice Studies, and the School of Safety, Security, & Emergency Management. Faculty in the College are nationally and internationally known for their teaching, research and service.

The Commonwealth of Kentucky named the College of Justice & Safety as the first Program of Distinction at Eastern Kentucky University in 1998. The Program of Distinction has funded renovations for a new Stratton annex, Ashland Building and Perkins Building, new degree programs, upgraded classrooms and computer labs, provided additional research opportunities for faculty and students, as well as scholarship opportunities for students majoring in programs offered by the college.

Associate, baccalaureate, and master's degree programs are offered by the College of Justice and Safety. Many programs are also available online.

The College is committed to a career ladder concept by providing opportunities for students enrolled in or completing associate (two-year) degree programs to transfer to a corresponding baccalaureate (four-year) program with little or no loss of credit.

Most programs in the College are housed in the Stratton Building, an outstanding and unique facility which includes two annexes, a remodeled shared entrance; renovated student commons and classrooms with new technology, 250-seat auditorium, two computer labs and a cafeteria. The Fire Science programs have additional offices, classroom, and labs in Ashland Building and the Emergency Medical Care program has offices, classrooms and labs in the Stratton Annex.

## ADMISSION TO THE COLLEGE

Students seeking admission to the College of Justice and Safety must meet general University requirements and should indicate their intention to major in a program of the College.

After being admitted to the College, a student will be assigned to a professional advisor, in the Academic & Advising Center, who will assist in selecting the proper courses leading to the desired degree.

## DEGREE REQUIREMENTS

General University degree requirements appear in Section Four of this Catalog, and specific requirements for each of the degree programs offered by the College of Justice and Safety

appear below; both sets of requirements must be met by students completing associate and baccalaureate programs. Unless otherwise specified, all programs in the College of Justice and Safety require a grade of "C" or better for all required major and supporting courses. See the program descriptions under each department for specific major and minor requirements. Common to all programs is the Student Success Seminar.

## MAJOR AND MINOR CREDIT MINIMUM

Unless otherwise specified, regardless of the advanced standing under which the student may have been admitted or what credits have transferred, 18 hours of advanced course work (courses numbered 300 or above) applied for credit toward the major subject for a baccalaureate degree, nine hours of advanced course work applied for credit toward the major subject for an associate degree, and six hours of advanced course work toward major subject for a minor must be earned at Eastern.

### *College of Justice and Safety Residency Requirement*

*The College of Justice and Safety requires that students graduating with a baccalaureate degree from the School of Justice Studies, or the School of Safety, Security, and Emergency Management, must earn a minimum of 18 upper division credit hours in the home department of their major.*

### **Admission Procedure: Emergency Medical Care**

Students who have been admitted to the University and College of Justice and safety and declare a major in Emergency Medical Care are admitted to the Emergency Medical Care Program. Admission to the Emergency medical Care Program does not guarantee admission to the Advanced Emergency Medical (paramedic) sequence.

Emergency Medical Care students are accepted each semester. Students are selected for admission into the Advanced Emergency Medical Care Program once a year for the following fall semester. Selection is made based on the admission matrix. Criteria include: GPA, entrance exam scores, pre-requisite course grades and completion. Information meetings will be held. Please refer to the EMC webpage for additional information.

### **Additional Requirements**

1. Students must have a minimum grade of "C" in all advanced sequence, EMC pre-requisite courses, and in BIO 171, 301.
2. Students must maintain a minimum GPA of 2.0 on a 4.0 scale.
3. Students must purchase and maintain the student liability insurance prior to enrollment in EMC 110, 115, 270, 275, 280, 342, 352, 360, 362.
4. All transfer credit evaluation and program approval must be completed prior to the application deadline.

## NREMT-P TO ASSOCIATE OF PARAMEDICINE (ASP) DEGREE PROGRAM

### **Admission Requirements:**

Current holders of National Registry of Emergency Medical Technicians – Paramedic (NREMT-P or State credentialing as defined by the program) certification may earn the Associate of Paramedicine (ASP) degree through an accelerated program offered by the EMC department. Applicants for admission into this accelerated program are accepted each semester.

### **Program**

Students admitted into the NREMT-P to ASP program will be required to take all general education and supporting coursework for the Associate of Science Paramedicine (A.S.P.).

### **Core Courses:**

EMC 380 and 382.

After successful completion of both EMC 380 and 382, students will receive 18 credit hours which include EMC 335, 340, 342, 352, 360, 362.

EMC 105, 110, 225, 240.

Credit for EMC 105, 110, 225, 240 is available through successful completion of department proficiency examinations.

EMC 104, 310, 315, and 320.

Current and maintained certification in AHA CPR for Healthcare Professionals, ACLS-EP, PALS (and/or PEPP), and certification in PHTLS (or ITLS) may result in credit for EMC 104, 310, 315, and 320.

### **Supporting and General Education Courses are required:**

General Education Elements:

Element 1. ENG 101, 102; Element 3. Arts and Humanities (3 credit hours); and Element 5B and Social Behavioral Sciences ( 3 credit hours);

Supporting Courses:

BIO 171, 301.

A total of 64 credit hours are required to obtain the Paramedicine (A.S.P.). Students must also obtain a minimum grade of "C" in all EMC courses, and BIO 171, 301. Students must also maintain an overall ECU GPA of 2.0 on a 4.0 scale.

### **Transferring Paramedic Credit into the EMC Program**

Effective January 2013 the National Registry has instituted a policy requiring that all candidates for certification must complete coursework from a CoAEMSP nationally accredited paramedic program. The ECU EMC program therefore has instituted the following policy, effective with the 2012/13 academic year.

### **Time Limit for Program Completion**

To maintain ECU's status as a CoAEMSP nationally-accredited paramedic program students must progress through

their EMC advanced sequence of classes (200-level and 300-level courses, as well as the required BIO 171 and 301) within a specified time limit. Each student must successfully complete all of these courses before they are eligible to take the NREMT skill and didactic examinations to obtain the NREMT Paramedic card. National accreditation standards dictate that this must all be completed within a designated time window. The start of an individual student's time limitation ("advanced sequence and testing clock") will be determined by the student's program advisor.

**Credit from a CoAEMSP Accredited Paramedic Program**

Students with transfer credit from a CoAEMSP accredited paramedic program may have this credit used to fulfill a portion of their major and supporting program requirements. Such work will be evaluated by EMC faculty for comparability and content; students may be required to complete departmental exams to gauge subject mastery and to assist with appropriate course placement.

**Credit NOT from a CoAEMSP Accredited Paramedic Program**

Coursework accepted by EKU but earned through participation in a program that is not CoAEMSP accredited cannot be used to advance a student through EKU's nationally accredited EMC program. Such credit may fulfill general education and elective areas; but it cannot be applied toward the EMC major and supporting program requirements.

However a student who has earned a **National Registry Paramedic Card** may be allowed to use non CoAEMSP accredited transfer credit in partial fulfillment of major requirements. Earning the National Registry card validates use of the paramedic related transfer coursework. Students without this paramedic credential, and without CoAEMSP accredited transfer courses, must progress through the EKU EMC program by completing EKU coursework.

Welcome to the College of Letters, Arts, and Social Sciences (CLASS). CLASS provides education in the arts, philosophy, literature, languages, and social sciences—fields that help us to understand ourselves and others and provide meaning and richness to our world. CLASS represents EKU’s enduring commitment to a liberal arts education as the intellectual foundation for work, life, and citizenship.

In CLASS, we offer courses and academic programs that provide students with the foundation for success in a dynamic, fast-paced, and diverse world. These foundational skills help students excel and lead in any career, cultivate the creativity and critical thinking to adapt to diverse environments, and resolve society’s most challenging problems in a culturally competent and ethical way. CLASS is focused on cultivating skills that are vital to the contemporary workplace - teamwork, critical thinking, communication, and leadership.

CLASS houses the departments of Anthropology/Sociology/Social Work; Art and Design; Communication; Economics; English and Theatre; Government; History; Interdisciplinary Programs; Languages, Cultures, and Humanities; the School of Music; Philosophy and Religion; and Psychology.

Interdisciplinary Programs include academic minors in African/African-American Studies, Appalachian Studies, Asian Studies, Applied Creative Thinking, Environmental Sustainability and Stewardship, International Studies, Veterans’ Studies, and Women and Gender Studies. It also houses the interdisciplinary academic areas of Service-Learning and Education Abroad.

In CLASS, students can participate in EKU’s nationally-ranked mock trial program, which affords students the chance to learn about the legal process in a simulation format.

## DEGREES OFFERED

The College of Letters, Arts, and Social Sciences offers the following baccalaureate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Social Work, and Bachelor of Individualized Studies. The Associate of Arts is offered in Paralegal Studies.

## COLLEGE DEGREE REQUIREMENTS

General University degree requirements as set forth in Section Four of this *Catalog* as well as specific course requirements set forth in the descriptive curricula must be met by students

completing programs administered by the College of Letters, Arts, and Social Sciences. All students graduating with majors in the College of Letters, Arts, and Social Sciences must have a 2.0 GPA in the major exclusive of any supporting courses. Students pursuing a minor in the College must have a minimum 2.0 GPA in the minor. At least twenty-five percent of the courses in the major must be taken at Eastern Kentucky University. In addition, individual programs may have specific requirements that exceed College requirements. Students should consult with an advisor or department chair to learn the particular requirements of a program.

Pre-Law Advisor

Teaching and Learning

### PRE-LAW

The Center for Pre-Law Advising assists students who are considering law school after graduation. Students interested in going to law school or exploring the possibility of doing so should contact the Center for Pre-Law Advising for an appointment as early as possible during their academic career. A Pre-Law Advisor can identify courses that will help prepare students for law school, plus provide valuable information on law schools, the Law School Admission Test (LSAT), and typical admission procedures.

There is no specific major for pre-law students. A broadly-based liberal education will best prepare one to study law, and therefore no fixed pre-law curriculum is prescribed. Law schools generally are not swayed positively or negatively by a student’s choice of major; rather, they want to see that, whatever a student’s major(s), that student performs well as indicated by his or her academic transcript. Thus pre-law students should choose a major that interests them and in which they are likely to be academically successful. Admission to an accredited law school is dependent upon a good undergraduate record with an earned baccalaureate

degree and a competitive score on the Law School Admission Test. Further information for pre-law students can be found at <http://prelaw.eku.edu>.

**MOCK TRIAL**

Thomas C. Parker, J.D., Coordinator  
Teaching and Learning Center  
Keen Johnson Building  
(859) 622-7698

EKU’s nationally-ranked mock trial program affords students the chance to learn about the legal process in a simulation format. Students play the roles of witnesses and attorneys, competing against teams from other schools in tournaments held across the nation. Mock trial develops critical thinking and communication skills, teaches students to work as members of a team, and requires students to respond creatively to unexpected challenges during rounds of competition. Students receive two hours of academic credit (POL 466A and B) per term. Auditions for positions on the team are held each Fall.

**THREE-TWO CURRICULUM**

In addition to standard pre-professional curricula, Eastern Kentucky University may approve specially arranged combined curricula. Students approved for these curricula complete the first three years of requirements at EKU. At the end of these three years, they enroll in one of several highly rated professional schools. After the first year of professional study, they transfer the work back in order to secure a Bachelor of Arts or a Bachelor of Science degree from Eastern Kentucky University. This plan may shorten, by one year, the time needed to obtain both a baccalaureate and a professional degree.

**ANTHROPOLOGY**

Anthropology is the study of human diversity. It explores the meaning of being human – from the study of culture and social relations, to human biology and physical evolution, to language, to music and art and to vestiges of human habitation. Anthropology addresses fascinating questions such as how peoples’ behavior changes over time, how and why people from distant parts of

the world and dissimilar cultures are in many ways similar, how the human species has evolved over millions of years, and how individuals understand and operate successfully in distinct cultural settings. Anthropology includes four sub-fields: cultural anthropology, physical anthropology, archaeology, and linguistics. The Anthropology program at EKU offers exposure to all of these sub-fields, with the opportunity to specialize, if so desired. Two great reasons to study anthropology include: 1) study topics are intellectually exciting; and 2) Anthropology prepares students for excellent jobs and opens doors to various career paths. Anthropological study provides training particularly well suited to the 21<sup>st</sup> century. Anthropology is the only contemporary discipline that approaches human questions from historical, biological, and cultural perspectives. As a result, career opportunities exist in academic, corporate, nonprofit and government settings. Many anthropologists with bachelor’s degrees work for contract archaeology firms at archaeological sites, in physical anthropology laboratories, and in museums in a wide range of areas. International health organizations and development banks employ anthropologists to help design and implement a wide variety of programs. Governmental organizations use anthropologists in planning, research, and managerial capacities. Forensic anthropologists find work in university and museum settings along with police departments to help identify mysterious or unknown remains. Anthropology is a career that embraces people of all kinds. It is a discipline that thrives with heterogeneity – in people, ideas, and research methods. Anthropologists know the wisdom of listening to multiple voices and linking the work from researchers who bring different backgrounds and apply various approaches to their endeavors.

**SOCIAL WORK**

The Social Work Program prepares students for beginning generalist social work practice. The primary purpose of the social work profession is to enhance human well being. Social workers help meet the basic human needs of all people and empower those who are vulnerable, oppressed, or living in poverty. Social workers help identify and manage the environmental forces that create, contribute to, and address problems in living. Social workers are an integral part of most non-profit agencies and also offer their services and knowledge in private practice. The social work program has been continuously accredited by the Council on Social Work Education since 1977.

**ADMISSION AND PROGRESSION**

Any student who is accepted by the University Admissions Office and declares his/her major as social work will be classified as a pre-social work major. Admission to pre-social work does not guarantee admission to the Professional Social Work Program. Admission to the program is required for progression in the major beginning with SWK 350 and 354. To be admitted students must have earned at least 32 hours of college credit, meet the minimum program GPA requirement of 2.50, complete SWK 210 and other supporting course work with a minimum grade of "C," and successfully complete application procedures. Students choosing to double-major must declare social work as the first major. For admission requirements and procedures contact the Social Work Program office, (859) 622-1645.

**MISSION AND GOALS**

The Eastern Kentucky University Social Work Program provides a student-centered collaborative and dynamic environment that prepares students for competent and ethical social work practice in a diverse world. This is accomplished through self-reflection, rigorous academics, knowledge based on scientific inquiry and experiential learning in a safe and nurturing environment. We strive to graduate students who understand the complexities of the relationship between people and their environments, value human rights and believe in the dignity and worth of all human beings. Completion of EKU's generalist social work degree will provide the knowledge, values and skills to become practitioners who can think critically and creatively. Our mission is to graduate ethical leaders who advocate for social and economic justice in rural, urban and global communities, with an emphasis on EKU's identified service region. Program goals are to (1) provide a fluid curriculum, grounded in a liberal arts perspective that prepares students for competent and effective entry-level generalist professional social work practice with individuals, families, groups, organizations, and communities through mastery of the knowledge, values, and skills that inform the ten core competencies; (2) integrate into the program the values, knowledge and skills of the social work profession and to socialize students to the profession through self-assessment and self-awareness; (3) prepare students to deliver ethical social work practice through the development of critical thinking to guide

professional judgments and practice; and (4) prepare students for advocacy and service to diverse populations-at-risk and to advance economic and social justice.

**SOCIOLOGY**

The sociology program provides students with an advanced understanding of social structure, social institutions, human groups, social stratification, social interaction, social relationships, social deviance (crime, juvenile delinquency), and social change. Sociology faculty are skilled in teaching the theoretical foundations of sociology and methods of social research, while they teach students to think critically. The broad knowledge base of sociology, combined with basic skills in research methods and analysis, contributes to a person's flexibility in a rapidly changing economy where specialized jobs often become outdated. Students who major in sociology possess the advantage of a more general foundation upon which to adapt to changes in the labor market, because

they are taught to think critically, communicate effectively, and respond constructively to the challenges and opportunities they will encounter. A major in sociology provides a gateway to many different careers. Many sociology graduates move into professional careers in the following areas: social services, law enforcement, human relations, law and legal services, policy analysis, teaching, and health fields. Others find employment in management and administrative careers in government agencies as well as in a wide range of private sector firms. Still others work to achieve their goals in less traditional careers such as grassroots activism or private entrepreneurship.

**FINE ARTS**

Upon completion of a Baccalaureate of Fine Arts (B.F.A.) degree with a Concentration in Ceramics, Graphic Design, Jewelry and Metals, Painting, Photography, Printmaking or Sculpture, students will be able to apply elements and principles of art and design, be more aware of the influence of perception and observation, and be able to use a variety of media and techniques to communicate ideas effectively and expressively. Students will demonstrate critical and creative thinking through analysis and research, both verbal and written, of their own or others' art and design works, with an understanding of historical and contemporary concepts, theories, methods, periods and styles.

The B.F.A. degree prepares students for professional careers as artists and designers of listed Concentrations below. Students will demonstrate professional practice, writing, portfolio development and presentation for employment in art and design studios, companies, or freelancing, and for applications to graduate schools, exhibitions, competitions, grants, and fellowships.

**BFA Admission Requirements**

All students who are accepted by the Office of Admissions and seek a baccalaureate fine arts degree are admitted to the University as a pre-BFA major and must select from at least one pre-BFA concentration area in Ceramics, Graphic Design, Jewelry and Metals, Painting, Photography, Printmaking or Sculpture.

Pre-BFA students are eligible to apply to the BFA degree program after completing 15 credit hours of Studio Foundation courses.

When applying for the BFA program, pre-BFA students must have completed or be enrolled in the courses specified for their declared Pre-BFA concentration.

Students are also required to submit an application, statement of goals, and portfolio for review by the BFA Entrance Review Committee once the minimum requirements have been met, usually by the fourth or fifth semester, depending on the Concentration area (transfer students must meet equivalent minimum requirements and complete a minimum of 24 hours in Art and/or Design). Students will be notified of the results and can meet with their area supervisor. Students not accepted to the BFA degree program

may re-apply at a later date or seek another degree program. Portfolio requirements include examples of drawing, 2D and 3D works (from a variety of courses), as well as examples specific to a concentration area. Students wishing to pursue the BFA degree should average and maintain a 3.0 GPA and earn a grade of “C” or higher in all major and supporting course requirements in order to apply to, and complete the BFA degree program. Consult with a departmental advisor, area supervisor, or visit our website at [www.art.eku.edu](http://www.art.eku.edu) to obtain a copy of the “Entrance Criteria and Degree Requirements for the BFA in Art and Design.”

**Progression Requirements**

Once students are admitted to the BFA degree program, they are eligible to take upper division courses that require “admission to the BFA” as listed in the course descriptions of this Catalog and are expected to participate in all major and supporting course requirements, including a BFA exhibition and review. Any BFA student whose major GPA falls below 3.0, or who earns a grade lower than “C” in a major or supporting course requirement, will be placed on BFA probation. Once on BFA probation, students have one semester to either raise the major GPA to the required 3.0, or retake the course in which he/she earned a low grade and pass with a “C” or higher. If any student on BFA probation fails to meet either of the above conditions, he/she will be removed from the BFA program. Such students may reapply at a later date or seek another degree program.

**Bachelor of Arts in Political Science**

Political Science is the study of power, conflict, and war, and of the human endeavor to maintain peace, order, and cooperation, and of the principles and ethics that guide that effort. It is the study of governments, in the United States and in other countries, and of the making and carrying out of laws and policies, by Presidents and governors, legislatures, courts, and the administrative agencies and civil service they oversee, and of the media and journalists who observe them and inform us of their actions. It is the study of cities and counties, and of their efforts to maintain and develop communities, politically, socially, and economically. It is the study of public agencies and services, and the special ways they must be organized and managed. It is the study of human values and beliefs, how they are formed and expressed in the public arena, in voting and elections, in political parties, and in the activities of organized interests, both self-seeking and public-spirited. The ancient Greek philosopher, Aristotle, said that politics is "the master science" because it influences how all other knowledge is used in society.

The objective of the political science program is to develop graduates who understand political institutions and behavior, and who in the process become able writers, speakers, thinkers, and informed students of human conflict, organization, and governance. With such knowledge and skills, graduates are well prepared for a variety of careers. Professions to which such abilities are obviously relevant include public service in government and non-profit service agencies, law, education, journalism, and military command. But political science graduates have succeeded as well in careers in a variety of different areas of business, including banking, investment management, extractive and manufacturing industries, insurance, and sales. And political science is a natural minor to accompany other majors in which such knowledge and skills are important, including social work, public health and health administration, parks and recreation, business management, and all the other social sciences.

**Paralegal Program**

The paralegal programs offer a Bachelor of Arts degree and Post-Baccalaureate Certificate in paralegal science and an associate of arts degree in paralegal studies. The objectives of the programs are: (1) to create, implement, and maintain a strong, flexible program directed to the quality education of occupationally competent paralegals; (2) to provide a paralegal education program that leads to employment of its graduates by a wide range of employers; (3) to provide paralegals with a well-rounded, balanced education founded on a beneficial mix of general education, theory,

and practical courses stressing understanding and reasoning rather than rote learning of facts; (4) to support the general principles of ethical legal practice, professional responsibility, and the prohibitions against the unauthorized practice of law by a lay person; (5) to provide an educational program that is responsive to the varied needs of the state of Kentucky and the region and contributes to the overall advancement of the legal profession; (6) to provide a program which instills respect for the legal profession and its foundations, institutions, and quest for justice; and (7) to maintain equality of opportunity in the educational program without discrimination or segregation on the grounds of race, color, religion, natural origin, or sex.

Paralegals are paraprofessionals who must work under the supervision of an attorney. The laws of Kentucky and other states prohibit paralegals from engaging in the practice of law or providing legal services directly to the public, except as permitted by law. Therefore, completion of a major, minor, or certificate in Paralegal Studies/Sciences does not entitle one to practice law, provide legal services directly to the public, or render legal advice, except as provided by law.

**Paralegal Degree Requirements**

Paralegal majors, minors, and certificates must attain a minimum grade of “C” in all major and supporting courses, a minimum grade of “C” must be earned in LAS 210 before taking LAS 220. A minimum grade of “C” must be earned in LAS 220 before being admitted to any of the other upper division requirements.

Paralegal majors, minors, and certificates must take a minimum of ten (10) semester credits of courses from Major/Minor requirements in a traditional in-person or ITV format. No courses taken in an online or web-based format can count toward this ten (10) semester credit requirement.

**Paralegal Transfer Students**

Transfer students must take a minimum of 15 semester hours of paralegal (LAS) courses at EKU to earn a paralegal degree. Please see the EKU Paralegal Program website ([www.paralegal.eku.edu](http://www.paralegal.eku.edu)) or contact the Paralegal Program Director for more information on the transfer policy for paralegal specialty courses.

**Pre-Law Program**

A broadly-based liberal education will best prepare one to study law, and therefore no fixed pre-law curriculum is prescribed. Admission to an accredited law school is dependent upon a good undergraduate record with an earned baccalaureate degree and a competitive score on the Law School Admission Test.

Students interested in going to law school or exploring the possibility of doing so should make an appointment with the Pre-Law Advisor in the Center for Pre-Professional Advising as early in their academic career as possible. The Pre-Law Advisor can guide the student in selecting courses that will help prepare the student for law school, plus provide valuable information on law schools, the Law School Admission Test, and typical admission procedures.

Further information for pre-law students can be found at <http://preprofessional.eku.edu>.

**BACCALAUREATE DEGREES**

**BACHELOR OF ARTS (B.A.)  
HISTORY  
CIP Code: 54.0101**

**Program Objectives**

Upon successful completion of this program, graduates will be able to: 1) demonstrate knowledge of U.S. history, European history, and selected aspects of non-Western history at a high level; 2) demonstrate their ability to communicate effectively in both oral and written form (all students in the program will complete term papers as part of their major requirements); and 3) execute a major research project utilizing both primary and secondary sources. All students in the baccalaureate program will submit prior to graduation a formal research project which includes both primary and secondary sources.

Because the program puts history into real-world application, it offers 24 unique pathways to prepare students for careers in: public history, education, media, the legal field, government, non-governmental organizations including non-profits, and business/management. And students can complete any of the career preparation pathways in just four years!

While a major in History Teaching prepares students to teach high school Social Studies or to join the educational arm of such entities as historical museums and sites, majoring in History provides students with the research skills and critical thinking and communication capabilities applicable and essential to any path they pursue post-graduation. More importantly, by combining a History major with a second major or minor in such

areas as communications, political science, geography, business, or tourism and recreation, students gain profession-specific skills. They also acquire real world-experience because many of these majors require or stress completing an internship. Completion of one of History's career pathways prepares a student for pursuing such opportunities as: curatorial positions in museums and historical sites, video production, broadcasting including reporting, publishing, event planning and promotion, employment with state and federal agencies or international and non-profit organizations, and entry into graduate or professional programs such as law school.

For more information on the career preparation pathways offered by the department go to [www.history.eku.edu](http://www.history.eku.edu) or contact the department at the number provided above.

**EDUCATION ABROAD AND EXCHANGES**

Jennifer White, Education Abroad Administrator

Studying abroad IS the right choice for you. Eastern Kentucky University encourages all students to take advantage of education abroad opportunities and join the top 10% of American students who have an internationalized degree. The Education Abroad Office has, or will find, options of a short-term winter, summer, semester or year abroad that will fit any major/minor, country of interest and budget. The Education Abroad Office manages institutional scholarship funds that can help to bring study abroad within financial reach.

**Study Abroad:**

Summer, Spring break, winter break, full semester, or academic year options are available through EKU’s many study abroad providers, including the Cooperative Center for Study Abroad (CCSA), the Kentucky Institute for International Studies (KIIS), The Knowledge Exchange Institute (KEI), AIFS Study Abroad, University Studies Abroad Consortium (USAC), SOL Education Abroad (SOL), CISabroad (CIS), as well as any number of EKU faculty-led programs that are created yearly. We can help find a winter, summer, semester, or year-long program for any student in any major.

**Institutional Exchanges:**

Exchanges allow for the most immersive experience abroad possible. EKU has a number of direct, institution-to-institution exchanges in a variety of countries. We are also a member of The Magellan Exchange organization ([www.magellanexchange.org](http://www.magellanexchange.org)) through which EKU students can study at any one of 16 partner institutions around the world. Students on these exchanges have the opportunity to use their financial aid to pay regular tuition and fees at EKU but go abroad to a partner institution where they will take classes alongside local students.

Language instruction is predominately in English on most exchange programs but opportunities to begin, or to perfect, foreign language abilities is possible through taking classes offered in the local language. Students from the partner institutions in turn come to EKU for a semester or year. Partner institutions are located in Japan, China, Australia, Germany, South Korea, France, Belgium, Denmark, Costa Rica, the Netherlands, Finland, Mexico, Spain and Austria. For more information on exchange options as well as our direct exchange agreements, please contact the Education Abroad Administrator for an appointment.

**For More Information:**

Feel free to visit the Education Abroad Office in Keith 129 to pick up brochures on all the programs offered. Students interested in education abroad, whether short term, semester or exchange, are encouraged to make an appointment with the Education Abroad Administrator at 622-1705 or [ekuabroad@eku.edu](mailto:ekuabroad@eku.edu) as soon as possible to discuss all options, application procedures, course

approval, and costs.

**Minor in International Studies**

Courses in the minor deal with topics as diverse as the relations of the United States with other countries, critical language studies, international economics, cultures and religions of Latin America or Asia.

The minor consists of 18 credit hours across a number of disciplines, providing a broad-based, general exposure to international issues through a solid set of three core courses. A commitment to foreign language and/or international experience is an integral part of the minor. A wide range of electives rounds off the minor.

This first-of-its-kind program is dedicated to educating non-veterans and veterans alike about Veteran issues. The VTS Program facilitates an environment of inquiry about the transformative nature of military service and provides students the knowledge necessary to improve services for veterans and their interaction and relations with veterans. **M. Cortes-Castaneda, E. Engling, E. Liddell, M. Machado, A. Poffenberger, R. Polk, C. Rich, J. Varela, R. Williams, N. Wright, and S. Zaragoza**

**Mission and Goals**

The Department of Languages Cultures and Humanities is a multi-disciplinary unit which offers a variety of programs through which students gain new insights into other cultures, and develop the language skills necessary for participation and leadership in the global community. Our major and minor programs in Comparative Humanities provide students with opportunities to explore the literary and cultural heritage of other peoples and to acquire a critical understanding of their own heritage. The French and Spanish programs prepare the students to communicate in two major world languages which are both spoken on several continents. Our French and Spanish teaching degrees help meet the increasingly critical need for foreign language teachers in Kentucky. We also offer certificate programs primarily for non-language majors with concentration on basic conversation skills and cultural understanding, currently available in French, German, Japanese, and Spanish. The department helps students to fulfill General Education requirements in Blocks III and VIII through course offerings in French (FRE), German (GER), Japanese (JPN), Latin (LAT), Spanish (SPA), and occasionally other languages such as Arabic (as FLS courses); through foreign culture and civilization courses (FCC); and also through the basic sequence

of Humanities courses (HUM). All our courses, whether in language, literature, culture, or humanities, strive to foster an atmosphere in which students can experience the joy of learning and intellectual fulfillment while developing deeper understanding and appreciation of cultural diversity.

1. Certain courses are inappropriate for students with native or near-native fluency in a particular language. Native speakers of a foreign language (i.e. a language other than English) are welcome to take our courses at an appropriate skill level. However, such students cannot be given credit for introductory courses (100/200 level), in their native language either by enrolling in the course or by taking an exam for credit. Exceptions to this restriction, such as heritage speakers who need to take a lower level course to correct language deficiencies, must be approved by the relevant foreign language faculty in consultation with the chair. Other exceptions may apply, at the discretion of the coordinator and foreign language faculty in conjunction with the chair.
2. Students who transfer credits must earn no fewer than 15 upper-division hours in the major and 9 upper-division hours in the minor at EKU, the exact minimum to be determined by the department chair in consultation with the faculty in the major area.
3. Eastern Kentucky University students are required to obtain the department chair’s written prior approval of any course work they plan to transfer back to EKU for application to the major or minor.
4. A grade of “C” or higher is required in each course to be applied toward the major and minor.
5. Students in teaching programs must attain a minimum 2.75 GPA in their teaching major to be recommended for student teaching.
6. French and Spanish majors must attain a minimum 2.75 GPA in the major, and must also pass a departmental proficiency exam which covers spoken and written language, culture, and literature. Teaching majors must pass the proficiency exam to be recommended for student teaching. Students will ordinarily take the exam no later than in the first semester of their senior year.

### BACCALAUREATE DEGREES

### BACHELOR OF MUSIC (B.M.) MUSIC CIP Code: 50.0901

### Program Objectives

Upon successful completion of the Bachelor of Music program, graduates will be able to perform a recital in their major applied area, communicate effectively about the theoretical concepts in music, identify and analyze musical works from diverse cultures and historical periods. In addition, all music education majors will demonstrate the ability to sing and play a variety of instruments, develop lesson plans, and engage in effective teaching during a student teaching semester. All theory and composition students will demonstrate composition skills and present original compositions in public recitals as well as identifying an area of advanced analysis of musical

works through a senior project. All music industry students will demonstrate music technology skills, identify trends in the many facets of this business field, and demonstrate an ability to work with professionals through cooperative learning experiences. All performance majors will prepare two performance recitals and analyze repertoire presented on those recitals, in addition to identifying different pedagogical approaches in their area.

A number of recent graduates of the Bachelor of Music program are furthering their education at graduate schools across the country, preparing to be performers and college/public school teachers. Many graduates are public school teachers across the country, performers/conductors in the church music field, professional composers or arrangers, on Broadway, in U.S. service bands, in professional orchestras, university professors, and music industry professionals in the recording, manufacturing, marketing, computer software, and sales fields.

### Admission to the Music Major Program

Admission to the Bachelor of Music programs requires an audition and theory placement interview. The student is expected to demonstrate acceptable levels of achievement in performance in terms of intonation, tone quality and rhythmic accuracy. Incoming students will be expected to perform two selections of contrasting styles. May be accepted on probationary status at the discretion of the applied teacher and the department chair.

### Bachelor of Music Core Requirements

Voice/string majors have a corequisite large ensemble required with applied lessons and must demonstrate experience in small choral/string ensembles.

**MUSIC PERFORMANCE**

All performance majors must pass an audition beyond the entrance audition. They will be on probationary status for one to four semesters. At the end of the probationary period, the student may re-audition for full candidacy. The College of Science offers baccalaureate and masters programs in a number of disciplines encompassing the natural and mathematical sciences. The college also offers an associate degree in science for engineering; pre-professional programs in engineering, optometry, pharmacy, and medical sciences; minors in Biology, Chemistry, Computer Science, Earth Science Teaching, Geography, Geology, Mathematics, Statistics, and Physics; and certificate programs in Productivity, Innovation and Technology and Geographic Information Systems (GIS). The College of Science plays a central role in the University's general education program through which all University students are provided the opportunity to develop the skills, the knowledge, and the discernment essential to the full development of each person as an individual and as a member of society.

Through its disciplines, the College of Science strives to provide all students an excellent education with the most complete and current resources; to provide service to the University and to the community through its academic programs; and to encourage and support research in all the disciplines included in the College.

## DEGREES OFFERED

The College of Science offers the following baccalaureate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Individualized Studies, and Bachelor of General Studies. The Associate of Science is offered in Science for Engineering.

## COLLEGE DEGREE REQUIREMENTS

General University degree requirements as set forth in Section Four of this *Catalog* as well as specific course requirements set forth in the descriptive curricula must be met by students completing programs administered by the College of Science. All students graduating with majors in the College of Science must have a 2.0 GPA in the major exclusive of any supporting courses. Students pursuing a minor in the College must have a minimum 2.0 GPA in the minor. At least twenty-five percent of the courses in the major must be taken at Eastern Kentucky University. In addition, individual programs may have specific requirements that exceed College requirements. Students should consult with an advisor or department chair to learn the particular requirements of a program.

## NATURAL AREAS

Dr. Melinda Wilder, Director  
Dr. Stephen Richter, Associate Director for Research  
New Science Building 3106  
(859) 622-1476

Eastern Kentucky University owns three natural areas: Lilley Cornett Woods Appalachian Ecological Research Station (Letcher County), Maywoods Environmental and Educational Laboratory (Garrard and Rockcastle counties), and Taylor Fork Ecological Area (Madison County). The Division of Natural Areas is responsible for stewardship and management of these areas as well as coordinating research, K-16 educational programs, public outreach, and use of these areas. All three natural areas are actively used for education and scientific research by faculty and students of the University and other institutions. The Natural Areas are available for use by the general public for passive recreation activities such as hiking, fishing, and wildlife photography.

Lilley Cornett Woods, the oldest and most studied tract of old-growth forest in eastern Kentucky, is a Registered Natural Landmark (U.S. Department of Interior) and is operated as a nature preserve. Onsite facilities include a visitor center, manager's home, outdoor teaching pavilion, maintenance building, research laboratories, and housing. Public use is limited to guided tours in this unique forest.

Maywoods Environmental and Educational Laboratory is used extensively by the University and elementary and secondary schools for environmental education and for academic year and summer courses. This 1700-acre forested natural area, including a 13-acre lake, is a wildlife refuge that provides protective habitat for native wildlife through approved wildlife management practices. Onsite facilities offer an excellent off-campus venue for meetings and workshops. Facilities include a lodge with classroom and sleeping space, manager's home, outdoor classroom shelter, amphitheater, and maintenance building. The site is open to the public for fishing, and hiking on any of the six self-guiding trails.

Taylor Fork Ecological Area is 60-acre site near EKU's main campus in Richmond. The Area's habitat is primarily old pastureland with fencerow strips of trees and small patches of woods and canebrakes. Developed as a site for experiential learning, research, and restoration, Taylor Fork was conceived by students in EKU's Wildlife Management Program. The site currently has no facilities and is open to the public for hiking on the designated trails.

In addition to managing EKU's properties, the Division of Natural Areas houses the Center for Environmental Education. The Center is involved in a variety of community and educational outreach programs through the University, public school districts,

and the Kentucky University Partnership for Environmental Education, which includes all eight state universities and the Kentucky Community and Technical College System.

For further information about the use and availability of EKU's Natural Areas for research, education, leisure or educational programming, please call (859) 622-1476 or visit the website, [www.naturalareas.eku.edu](http://www.naturalareas.eku.edu).

## AFFILIATED ACTIVITIES AND RESOURCES

### GULF COAST RESEARCH LABORATORY

Eastern Kentucky University is affiliated with the Gulf Coast Research Laboratory, Ocean Springs, Mississippi. This affiliation provides undergraduate and graduate students with the opportunity to take courses and conduct research in marine sciences at an established, well equipped laboratory located on the Gulf of Mexico. Students electing to study at Gulf Coast Research Laboratory do not pay out-of-state tuition.

Courses are taught at Gulf Coast Research Laboratory, only during the summer. The Laboratory furnishes the staff for course work and research. Applications for the program and additional information are available in the departments of Biological Sciences, Chemistry, Geosciences, and in the Division of Natural Areas.

### TECHNOLOGY INFORMATION CENTER

The College of Science Technology Information Center (TIC) is a Computer Center that offers a wide variety of services to faculty, staff and students. Located in Memorial Science 270, the Center houses a variety of technological equipment including 23 PCs all of which are connected to the Internet and high quality laser printers.

We provide technical assistance to faculty and staff in the areas of computer-related problems, workshops on a wide variety of subjects, and web development. The Center can be reserved by faculty, staff, and graduate assistants for computer-based classes and workshops. The Center is also equipped with a SmartBoard, making it an excellent room for teaching.

## PRE-HEALTH PROFESSIONS ADVISING

James Luba, Ph.D.

New Science Building Room 2108

(859) 622-7894

EKU has a number of programs that will help prepare students for professional schools following graduation. These schools generally do not require a specific major, provided that their prerequisite courses are taken. All professional schools are highly competitive in their admissions process. Thus, students should aim for strong GPA and professional school admission test scores. Students are encouraged to seek a major that they feel comfortable with, that they have a strong aptitude for, that is interesting and challenging, and that provides additional career concentrations. Additional information may be found at [www.science.eku.edu](http://www.science.eku.edu).

## PRE-PATHOLOGY ASSISTANT

Students with an interest in pursuing a career as a Pathology Assistant may achieve admission to a graduate school program by graduating in any science major, such as Chemistry (B.S. or B.A. Pre-Pathology Assistant Concentration), Forensic Science (B.S.) or other science degree, provided certain pre-requisites are met. Because Pathology Assistant programs differ in their individual requirements students are encouraged to check the web pages and contact the schools of their choice to determine which courses to take after consulting with their pre-pathology assistant advisor. The application process may begin in the fall or spring of the senior year, depending on the program. Admission requirements may include minimum GRE scores, a high undergraduate GPA, extensive shadowing and pathology experience, leadership potential, a strong sense of empathy, and a community and university service record. Admission to professional schools is highly competitive and depends on a good balance among each of these areas.

## PRE-PHARMACY

It is recommended for students interested in pharmacy to complete a four-year degree with a B.A. (Pre-Pharmacy Concentration) in chemistry. The chemistry pages in this Catalog list the appropriate courses for this concentration. An advisor from the Chemistry Department familiar with the pharmacy admissions process will be assigned. Students interested in pharmacy may major in any subject provided certain pre-requisite courses are taken. While it is possible for students to be admitted to a pharmacy school after just two years of undergraduate training, the competitive nature of these programs suggest students should complete their major in preparation for pharmacy school.

Pharmacy schools differ in their individual requirements, so students should check the web pages of the pharmacy school of their choice, and then determine which courses to take after consulting their pre pharmacy advisor. The application process typically begins in the fall of the senior year. Pharmacy schools require the PCAT and they look for students with leadership potential, a strong sense of empathy, a community and university service record, and extensive experience shadowing pharmacists or working as a pharmacy technician. Admission to pharmacy schools depends on a good balance among each of these areas in addition to strong PCAT scores and a high GPA.

## PRE-PHYSICIAN ASSISTANT

Physician assistant professional schools are primarily in university schools of medicine and allied health. Although programs vary in length, most physician assistant programs require 24-28 months to complete. Most programs require applicants to have completed a minimum of three years of college prior to admission and to have had previous health care experience. Most successful applicants to PA programs have earned a bachelor's degree, and have accumulated a significant number of hours shadowing a Physician Assistant and working with patients in a clinical setting.

Prerequisite course requirements vary from school to school. Students are encouraged to consult with the Center for Pre-Health Professions Advising to determine which physician assistant programs are of interest, and pattern their course work to fulfill

these specific program requirements.

### PRE-MEDICAL SCIENCE

Students with career interests in allopathic medicine, osteopathic medicine, or podiatry may achieve admission to professional schools by graduating in any major, provided certain prerequisites are met. Typically, 75% of students that enter medical school majored in the physical, natural, or social sciences, with the remaining 25% from other disciplines.

The College of Science offers both the Biomedical Sciences (Pre-Medical Concentration) in Biology and the Bachelor of Art (Pre-Medical Concentration) or Bachelor of Science (Pre-Medical Concentration) degree in Chemistry. Students pursuing degrees in either department will complement their studies with appropriate courses in humanities, social sciences, and communications. Courses in mathematics and physics will also be required. All students interested in these areas are urged to visit the Department pages in this Catalog, or go on-line to find details of these major programs. More information may be found at the EKU pre-professional web page at [preprofessional.eku.edu](http://preprofessional.eku.edu)

Students interested in medical school should consult the medical school admission requirements for their schools of interest or those published in the MSAR (Medical School Admissions Requirements) book.

Students in Biomedical Sciences or Chemistry pre-med concentrations are assigned to a pre-medical sciences advisor in their Department. These advisors work closely with each student to help plan programs of study and prepare for the process of gaining admission to the chosen professional school. EKU also has a University Pre-Health Advisory Committee. This committee assists students in their application process and prepares committee letters of evaluation for them. The application process typically lasts over a year, so it is important for students to contact the chair of the University Pre-Health Advisory Committee by the end of their junior year.

Each medical school requires an admission exam, either the MCAT for medical schools or the GRE or MACAT for podiatry schools. These professional schools also look for students with leadership potential, a strong sense of empathy, a community and university service record, and extensive experience shadowing professionals in these fields. Admission to professional schools is highly competitive and depends on a good balance among each of these areas, in addition to strong MCAT and a high GPA.

### PRE-DENTISTRY

Students interested in dentistry can major in either Chemistry (B.A. or B.S., Pre-Dental Concentration) or Biomedical Sciences (B.S., Pre-Dental Concentration), although dental schools will accept students from any academic background, provided certain prerequisites are met. Students are encouraged to check individual dental schools for details of their requirements.

Students majoring in either Biomedical Sciences or Chemistry will be assigned an advisor in their department who is familiar with dental-school admissions procedures. Pre-Dentistry students should make use of the University Pre-Health Advisory Committee. This committee assists them in their application process and prepares letters of evaluation for them. The application process typically lasts over a year, so it is important for students to contact the chair of the University Pre-Health Advisory Committee by the end of their junior year. More information may be found at [preprofessional.eku.edu](http://preprofessional.eku.edu).

Dental schools require the DAT admission exam, and they look for students with leadership potential, a strong sense of empathy, a community and university service record, and extensive experience shadowing dentists. Admission to dental schools is highly competitive and depends on a good balance among each of these areas, in addition to strong DAT scores and a high GPA.

### PRE-OPTOMETRY

Students interested in admission to optometry school may complete any degree program, but typically they major in either Chemistry (B.A., Pre-Optometry concentration) or Biomedical Sciences (Pre-Dental concentration). See the Department pages in this Catalog for details of these programs. Refer to specific optometry school admission requirements for listings of appropriate prerequisite courses. Students in Biomedical Sciences or Chemistry will be assigned an advisor knowledgeable about optometry admissions procedures who will assist them in their application process. This process typically begins in the fall of the senior year. Optometry schools require the OAT exam, and look for students with leadership potential, a strong sense of empathy, a community and university service record, and extensive experience shadowing optometrists.

Admission to optometry schools is highly competitive and depends on a good balance among each of these areas in addition to strong OAT scores and a high GPA.

There are no Kentucky optometry schools, but colleges of optometry at Indiana University at Bloomington, the University of Alabama at Birmingham, and Southern College of Optometry at Memphis, all have contracts with Kentucky for a limited number of spaces for Kentucky residents. Students accepted under this program are exempt from the out-of-state tuition charge at these schools. For residents of Kentucky to be accepted under the Kentucky quota, application must be made directly to one of the contract schools.

### PRE-VETERINARY MEDICINE

Students who have career interest in veterinary medicine may fulfill admission requirements of specific veterinary schools by pursuing either the Biomedical Sciences major (Pre-Veterinary Medicine concentration) or the Agriculture major (B.S.). See the Department pages in this Catalog for details of these programs. Refer to specific veterinary schools for listings of appropriate prerequisite courses. Students should complement their studies with appropriate courses in humanities, social sciences, communications, and agriculture. Courses in mathematics and physics will also be required.

Students in Biomedical Sciences will be assigned an advisor knowledgeable about veterinary-school admissions procedures who will assist them in their application process. Applications generally must be submitted by October 1st of the senior year. Veterinary schools typically require the GRE, and they look for students with leadership potential, a strong sense of empathy, a community and university service record, and extensive experience shadowing veterinarians. Admission to these schools is highly competitive, more so than admission to medical schools, and depends on a good balance among each of these areas in addition to strong GRE scores and a high GPA. For more information, please refer to [preprofessional.eku.edu](http://preprofessional.eku.edu)

No Kentucky institution has a program in veterinary medicine; however, the Commonwealth has contracts to allocate a limited number of places in Auburn University's College

of Veterinary Medicine and Tuskegee University's School of Veterinary Medicine to Kentucky residents. Students accepted under this program are exempt from the out-of-state tuition charge at these schools. For residents of Kentucky to be accepted under the Kentucky quota, application must be made directly to one or both of the contract schools.

### BIOMEDICAL/HEALTH-RELATED RESEARCH

Students with an interest in careers in biomedical/health-related research should consider a B.S. in Biochemistry or a B.S. in Biomedical Sciences (Research concentration). With these B.S. degrees, students may work in academic and industry research laboratories. Some students may choose to earn an advanced degree at either the M.S. or Ph.D. level. Both the Biochemistry major and the Biomedical Sciences major will prepare students for these advanced degrees.

### PRE-ENGINEERING

There are two pre-engineering curricula offered by the College of Science, described below. Students interested in a particular engineering program should see the pre-engineering advisor in either the Department of Physics and Astronomy or the Department of Chemistry.

### TWO-TWO OPTION

In the first pre-engineering curriculum, referred to as the **Two-Two Option**, students spend two years at EKU taking basic science, mathematics, and general-education courses. Students then transfer their credits to the engineering school of their choice. Students can usually complete a degree in engineering after two years of additional course work at the engineering school.

### THREE-TWO OPTION

In the second curriculum - the **Three-Two Option**, which is a Dual-Degree program, students spend three years at EKU and then take two years of work in engineering at the University of Kentucky, Auburn University, or another university with an accredited engineering program earning both a baccalaureate degree from EKU in Physics or Chemistry and an engineering degree from the engineering school. The additional year spent at EKU allows students to do more work in a science major, thus improving the breadth of their background.

All students pursuing a Dual-Degree Engineering Program in the Department of Physics and Astronomy should pursue the Engineering Physics Concentration of the Physics B.S. program. Because preferred general education and supporting courses may vary depending upon the partner engineering school, it is essential that students pursuing the Dual-Degree Program in Engineering work closely with their departmental advisors.

### THREE-TWO CURRICULUM

In addition to standard pre-professional curricula, Eastern Kentucky University may approve specially arranged combined curricula. Students approved for these curricula complete the first three years of requirements at EKU. At the end of these three years, they enroll in one of several highly rated professional schools. After the first year of professional study, they transfer the work back in order to secure a Bachelor of Arts or a Bachelor

of Science degree from Eastern Kentucky University. This plan may shorten, by one year, the time needed to obtain both a baccalaureate and a professional degree.

 BIOMEDICAL SCIENCES  
 CIP Code: 26.0102**

The Biomedical Sciences degree program is a rigorous program designed to prepare students for careers in biomedical research and a wide variety of biomedical professional programs. The Biomedical Sciences degree can be tailored to prepare students for graduate or professional schools, including but not limited to medical, dental, physician assistants, optometry, and veterinary medicine. This degree will prepare students interested in pursuing a broad range of careers, including biotechnology, industrial microbiology, or pharmaceutical sales. The biomedical sciences degree provides students with a curriculum that develops strong creative and critical thinking skills while also providing them with the required and recommended courses for admission to graduate and professional schools.

All students must be admitted to the University by the EKU Admissions Office and declare their major as biomedical sciences (BMS). For admission to the BMS program, a high school graduate must meet the following three criteria:

1. A Math ACT score of 23 (or equivalent SAT) or a “C” or better in MAT 112 or 114
2. An English ACT score of 20 (or equivalent SAT), or a “C” or better in ENG 101
3. A High School GPA of a 3.0.

Individuals who are transfer students or wish to change their major must have attained a minimum GPA of 3.00 overall on a minimum of 24 hours attempted. Entering freshmen and transfer students who do not meet the minimum requirements are encouraged to enroll in the general option of the Biology BS Degree program, until qualified to transfer into the program.

**Progression Policy**

The Biomedical Sciences degree program limits the number of major core, concentration, and supporting courses which may be repeated. Students are allowed only one repeat per major course and a total of not more than two repeats in all major courses combined. In addition, a supporting course may be repeated only once.

To remain in the Biomedical Sciences degree program, a student must maintain an overall GPA of 3.0 with a grade of “C”/2.0 or better in each of the supporting and major courses of the curriculum. Students who fail to maintain a 3.0 GPA will be removed from the BMS program and placed in the Biology B.S. program, General Biology Concentration.

Accelerated 3+2 Dual Degree Program  
CIP Code: 40.0501**

Students may apply for admission to the 3+2 program in their junior or senior year. Students are able to complete their B.A. degree and M.S. degree within 5 calendar years because of the accelerated curriculum and because 9 semester hours of 700-level graduate coursework will apply to both the undergraduate B.A. degree and the graduate M.S. degree. Only undergraduate students of proven academic ability will be considered for the program. Entrance requirements for the 3+2 must adhere to the same requirements for the M.S. Chemistry Program in the Graduate Catalog, except entrance examinations (e.g. GRE) are not required for the 3+2 program. Students must fulfill all graduation requirements listed below. Students admitted into the program will remain coded as undergraduate until fulfilling their BA requirements. Students admitted into the 3+2 program must complete the Chemistry BA degree with a minimum 3.0 GPA to be allowed to proceed with graduate program coursework.

#### Admission Requirements:

Students interested in this option must satisfy all the following conditions:

1. Junior or Senior standing
2. Overall grade point average (GPA) of at least 3.0 at the time of admission to the 3+2 program
3. Approval from department and Graduate School (see the form at <http://gradschool.eku.edu/graduate-school-forms>)
4. Must maintain an overall undergraduate and graduate grade point average (GPA) of at least 3.0 to continue in the 3+2 program.

#### Program Requirements

Students in 3+2 Accelerated Dual Degree Option must complete the listed Chemistry (B.A.) program requirements along with the same requirements for the Chemistry M.S. Program (presented in the Graduate Catalog: listing at <http://gradschool.eku.edu/graduate-catalog>). Nine (9) credit hours of 700-level graduate coursework (CHE 715 and 770) are applicable to the undergraduate degree.

#### Total Hours University Graduation Requirements ... 40 hours

The B.A. Chemistry degree, Pre-Pharmacy concentration, completes all pre-requisites required for application to pharmacy school. While students may apply for admission to pharmacy

school after pursuing this degree for three years, a significant number of applicants elect to remain at ECU and first complete their B.A. Chemistry degree.

Students accepted into pharmacy school after three years as a Chemistry major will have completed 80% of the B.A. Chemistry degree. As such these students, upon completion of pharmacy school, may transfer pharmacy coursework back to ECU, to be used in lieu of outstanding ECU Chemistry course requirements; and thereby complete the BA Chemistry degree. The student's record will be reviewed for completion by the Registrar, and providing all other University requirements are met, the student will be awarded an ECU B.A. Chemistry degree. Students interested in transferring back pharmacy coursework can enquire by emailing [registrar@eku.edu](mailto:registrar@eku.edu).

## MINOR

### MINOR IN CHEMISTRY

A student may minor in chemistry by completing CHE 111, 111L, 112, 112L, 361, and 361L, plus any two additional courses\* from the following list: CHE 325 (co-requisite CHE 325L), 362 (co-requisite CHE 362L), 430, 431, 450, 501, 520, 570, and FOR 440.

### TEACHING CERTIFICATE FOR CHEMISTRY MINOR

Students may seek a minor in chemistry in conjunction with the completion of a teaching certificate\*\*, which will qualify them to teach chemistry at the secondary level. The teaching minor in chemistry must be coupled with a secondary teaching certificate in another discipline. For students with a middle school science concentration, requirements are met. Students enrolled in a teaching program other than science who desire teaching certification in chemistry will be required to take ESE 561.

The minor will be considered an add-on certificate and cannot be recommended until the secondary teaching program is completed and a recommendation for certification has been processed. Appropriate PRAXIS exams must be completed for each area of certification being recommended.

### Faculty

**W. Borowski, G. Campbell, M. Dieckmann, S. Farrar, T. Huffman, C. Hughes, A. Jones, J. Malzone, K. Watson, J. White, D. Yow, S. Yow, and D. Zurick**

Our programs provide students with a comprehensive understanding of the breadth and depth of the geosciences through field-based and experiential curricula, innovative teaching methods, applied research, and community outreach focused on the needs of southeastern Kentucky. The Department of Geosciences is committed to enabling our students to achieve their full potential as skilled professionals in a diverse range of companies and governmental organizations, and as effective teachers, community leaders, and educated global citizens. Our programs produce students who are informed users of a range of technologies, responsible stewards of our natural resources, lifelong learners, and active participants in a global society.

### Bachelor of Arts in Geography

Geography is a wide-ranging academic discipline that strives to understand and interpret spatial patterns and relationships, and apply that information to address local and global issues. Geography as a discipline integrates knowledge and skills in three major areas - the natural world, human and social interactions, and spatial and statistical techniques - to gain a holistic perspective on the world around us and humanity's interaction with and impact on the natural world.

Students in the Geography program will gain geographic knowledge and skills through a comprehensive, innovative and modern curriculum that allows for all types of intellectual exploration and opportunities for all students to develop professionally through applied research that they disseminate to the geographic community and active participation in professional organizations' annual conferences.

A bachelor's degree in geography provides marketable skills and the broad perspectives on environment and society that enable graduates to move beyond entry-level positions in a variety of settings and careers. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to other social and natural sciences, law, government, and medicine.

### Bachelor of Science in Geology

Geology is the study of Earth; we study the processes, behavior and materials of Earth, its water and its atmosphere both in recent times and in the geologic past. Through understanding how Earth formed, how it changed over billions of years, and how it continues to function today, we can look forward in time to predict how natural processes and human actions will interact to impact Earth in the future. Knowledge of geological concepts and processes helps scientists, politicians, and business professionals make decisions about the use of Earth's natural resources, protection of humans against natural disasters, and wise stewardship of our environment.

For students wishing to enter the professional world

immediately upon graduation, the Professional Concentration prepares our students to become competent professionals with the requisite knowledge and skills necessary to successfully pass the initial certification exam to eventually obtain their Professional Geologist designation. Students will have the opportunity to gain knowledge and skills in each of the eight areas of professional geology and geotechniques, as well as develop critical research skills through a senior thesis or field camp experience.

Students in the Academic Concentration will gain the foundational knowledge and skills in geology, mathematics and natural sciences necessary to be successful in graduate school, as well as to explore potential areas of geologic specialization through independent research or a field camp experience and elective courses.

linked with 700 level graduate courses

A student may not take a course numbered more than one year above his/her classification level without advisor permission. To take courses numbered 300 and above in The School of Business see the College of Business and Technology section for requirements for BBA degree.

Special approval must be obtained from the dean of the college offering a 500-level course in order for junior-level students to enroll. (Students of less than junior status or unapproved juniors cannot be admitted to a 500-level course and will be disenrolled by the Registrar if such an enrollment occurs.)

**COURSE DESCRIPTIONS**

The semester hours which may be earned by successful completion of a course are indicated in parentheses immediately following the course title, e.g., (3).

A course is offered during the semester indicated by the term-offering designation immediately following the credit hours earned:

**I—Fall Semester****II—Spring Semester****A—By Announcement**

A course is offered during the indicated semester or by announcement on the assumption there will be adequate enrollment. If a course does not obtain adequate enrollment, it is subject to cancellation. The University reserves the right to cancel any course if the enrollment is not sufficient, to divide a course if the enrollment is too large for efficient instruction, and to change instructors when necessary.

The description of the course format for courses which include a laboratory experience is found at the end of the course description. A course which consists of three hours of classroom lecture and two hours of laboratory per week is described as "3 Lec/2 Lab."

Courses approved for general education are noted as such by the phrase "Gen. Ed." and an element and number designation following the course description. Example: Gen. Ed. E-6 indicates a course which fulfills a requirement in General Education Element-6: Diversity of Perspectives and Experiences. Letters in brackets [ ] designate Kentucky statewide General Education core coding. See General Education Requirements in Section Four.

**COOPERATIVE EDUCATION/ INTERNSHIP (APPLIED LEARNING)****XXX—349 Applied Learning****XXX—349 A-N Cooperative Education**

Students may register for additional hours of applied learning and cooperative education beyond those specified in each course description. However, courses students are taking will then fall into a repeat cycle where the last course taken replaces the former course so that no more than the limit noted may be counted toward a degree program, minor, or certificate.
