

## EKU Academic Readiness & Course Placement Indicators for English + Reading & Math ~ AY 2022-2023

Beginning Fall 2023, ECU will use these indicators of readiness as established by the Council on Postsecondary Education as measure of college-level Academic Readiness. Upon admission to a public postsecondary institution, students scoring at or above the established benchmarks will not be required to complete Academic Readiness courses or corresponding co-requisite support courses. However, all students admitted to ECU will be allowed entry into college credit-bearing Academic Readiness coursework that counts toward credit requirements and degree completion. Advisors and mentors are encouraged to steer students toward ECU placement testing, as needed, if students have not already completed those assessments. Remember: All admitted or enrolled ECU students may attempt ECU Placement Testing twice, even if they are attempting to place out of a failed Academic Readiness class.
