⊕: Admission to professional education is required by this point in your program

+: MAT 111A/B and MAT 112A/B is required for majors who have 21 or below on the MATH portion of the ACT

∇: Course requires embedded clinical hours but is not hubbed with a CED course.

Note: Candidates do have several choices within General Education (GE). However, taking the prescribed courses where indicated will prevent candidates from having to take additional content required courses later.

LBD can't count SED 104 as GE 6; need additional course---this is already accounted for in the plan.
